PD-6207
Standalone Pole Display

PD-6307
Terminal Rear-mounted Display for XT/KS Series

PD-6407
Base-mounted (Gen.5th base) Pole Display

PD-6507
Terminal Rear-mounted Display for HS Series

Posiflex PD-6x07 is an innovative product that is designed to replace the current 2-line VFD customer display in the market. It retains the functions of the tradition 2-line customer display by offering command mode support from EPSON® and Noritake® in a 7" display package. This means the current 2-line display in operation can be easily replaced without complicated software modification.

But PD-6x07 is more than a simple 7" customer display. It is its multimedia capability that really set PD-6x07 apart from the ordinary 2-line customer display. For the first time, store owner can deliver eye catching and colorful promotion message, advertising banner, or graphical item pictures to the customers with the aid of powerful utility that comes with the display.

Features

- 7" LCD display with 800 x 480 dots resolution
- Character color and background color can be set independently via utility
- Alpha-numerical characters: 20 x 2 / 30 x 4 / 20 x 4
- 24bit color depth, true color
- JPEG image display support, with max. resolution of 4K x 4K
- Slide show function for JPEG display
- Screensaver support
- ESC/POS + Noritake command support
- QR code support
