Contractual rights and any resulting or related claims based thereon, irrespective of form, initially come into being on the basis of a separate written agreement, in particular on the basis of our general terms of sale and delivery.

All former statements lose their validity with the publication of this catalogue.

The catalogue is not an operating manual for the use and installation of the spark plugs. It does not contain any advice in a legal sense. The catalogue neither replaces the constantly applicable technical regulations - particularly for tolerances - nor the installation and maintenance stipulations of the individual original equipment manufacturer.

Also, it is not possible to forego the expertise of those carrying out the installation and application. The individual references made in this catalogue for the installation and the application of the spark plugs are instructions solely for the technically qualified specialist and are to be checked and verified by them for their suitability in each case. Federal-Mogul accepts no responsibility for application decisions.

The contents of the catalogue are not intended to create or substitute any contractual agreement which has to be reserved exclusively to a separate agreement between 2 identified parties, whereby seller can be only one of our Federal-Mogul entities as mentioned on the back cover page.

The right is retained to correct errors and alterations, particularly with regard to amendments in the original equipment manufacturer's details and stipulations.
