1. User agreements **2. Paperless delivery**

Electronic Services Agreement

The Electronic Services Agreement (ESA) that follows is included in your account agreement. We deliver the account agreement to you separately when you open your account. To meet information vendor requirements, we also need you to review and accept the ESA online.

Both the ESA and our website include important disclosures and regulatory information that are associated with our electronic content and services. When you click “I agree,” you will be consenting to electronic delivery of these items in HTML format. To access and retain them for your records, Schwab recommends the use of strong encryption, Secure Sockets Layer capable browsers with JavaScript enabled. To learn more about browsers and internet security, please click on this link: [SchwabSafe ID](#). You may print the ESA before you click “I agree,” and you should retain a copy of your overall account agreement. If you do not have a printer, you may call us for a free paper copy of your account agreement including the ESA. The ESA will always be available for your review under the “Agreements” link found at the bottom of many pages of our website.

By clicking “I agree,” you will confirm your understanding, acceptance, and receipt of the ESA and its terms and conditions, and you will acknowledge and demonstrate that you can access the ESA and other HTML disclosures and regulatory materials on our Web site. This is required in order to access your account online. We will be creating an electronic record of your agreement. Thank you for your time and cooperation.

7 Review the two user agreements and click “Agree” for each to accept their terms.

Paperless Delivery (Step 1 of 2)

Get too much information in the mail already? We'll help by sending all of your Schwab brokerage trade confirmations via email and will notify you when your online statements and shareholder documents are ready.

Yes I would like to set up Paperless Delivery now.
 Please choose which documents you want to receive as paperless for each account. If there is no checkbox displayed, this account is either ineligible or already enrolled.
