2015-22<sup>nd</sup> ZEVA meeting, Tirana

# SWOT analysis of international collaboration at medical chamber level

		Helpful	Harmful
Internal	Strengths	Weaknesses	
	S	W	
External	Opportunities	Threats	
	O	T	

# Strengths

**The more experts to discuss problems, the better results**

**The more information, the better chances for act proactively**

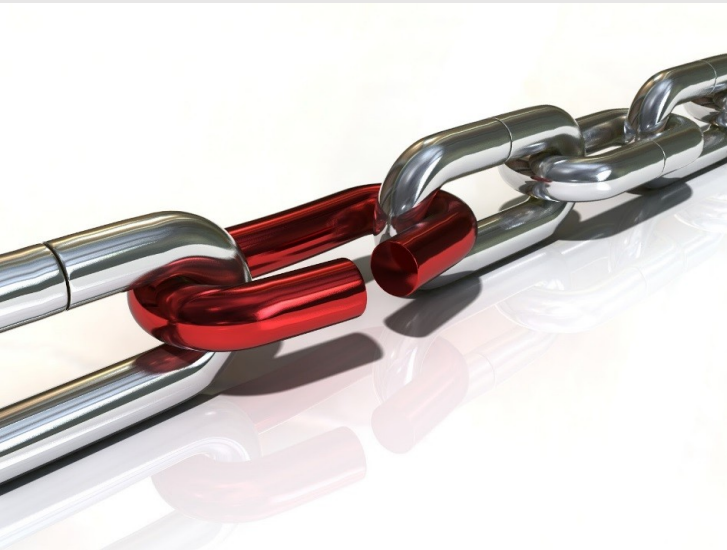

**The experience in resolving problems can be applicable**

**The strength is within organization**

**The future is in collaboration and data exchange**

# Weaknesses

**Not all solutions are applicable in every country**

**The chain is strong as the weakest link**

**Politics will always try to control collaboration according to its needs**

**Different health needs and possibilities in every country**

**Different financial, social, political and health development in every country**

# Opportunities

- The chance of application of tested and in practice realized solutions**
- The chance to present domestic original solutions at international level**
- The chance to get applicable data in the process of data exchange**
- The chance to be taught from others and to teach others**
- The chance of temporarily exchange of experts**

# Threats

**Some weaknesses can be topic for the force execution measures**

**Some weaknesses can be topic for the blockade of some processes**

**Some weaknesses can result in lower country rating among others**

**Some weaknesses can be lead to the blockade in organization intergration**

**Unsloved weaknesses usally product more weaknesses**

# Conclusions

**International collaboration is condition that can not be ommited**

**Together, united in resolving common problems for the better future**

**Collaboration, exchange of data are base for all future activities**

**Integration, solidarity, and helping each others are our moral and professional duties**

**We all have the same aims, but we all have diferent approaches, this should motivate all of us together to find the common aproach**
