## Features

- Ease-of-operation in the most demanding situations – unsurpassed audio quality, intuitive keypad and high-definition, colour display combined with a sleek yet durable design
- Dust and water resistant to IP 54. Rain, salt, fog, and dust protection tested to MIL 810 C/D/E/F for the standard control head
- Motorcycle control head rated IP67 for dust and water resistance
- Comprehensive model options available – for use in the office, in a vehicle - car, boat, motorcycle
- User training and familiarisation easier by design. Features the same cellular-style menu, icons and colour display that have established Motorola's MTH800 handheld and MTP850 portable
- Multiple language capability – support for European, Arabic and Cyrillic characters (plus many others)
- Access and query information on the move – integrated WAP\* browser and Multi Slot Packet Data provide unique, high-bandwidth connectivity for real-time access to mobile office applications and user database
- Tailor to specific requirements. Faster programming and connectivity via USB, ETSI compatible Peripheral interface (PEI) and programmable I/O ports\* ensures tighter integration with third-party application
- Full suite of TETRA security functions – air interface, SIM card\* and end-to-end encryption
- Receive assistance when and where it is needed – hitting the emergency button not only alerts colleagues to critical situations but sends and updates dispatch on the user's location
- Switch to covert mode at the press of a button
- Integrated GPS receiver delivers location based services. Knowing where your resources are enables you to allocate tasks based on up to date information
- Transform workflows and improve performance with the highest levels of network security, resilience and value available. Motorola's TETRA solutions leverage more than 85 years of excellence in the most critical and demanding environments.
- Stay at the forefront of TETRA development with a future-proof platform that meets the promise of the broadband world tomorrow.
- Build on the widest portfolio base in the industry. Motorola's in-house technologies, solutions and best-in-class business relationships deliver the complete TETRA solution.
- Compatibility and interoperability assured. As an early pioneer of TETRA, Motorola has been a driving force in standards' developments and product innovation.

TETRA Integrated Terminal Management Specification Sheet

## Physical Characteristics

### Dimensions H x W x D (dash and desk)

60 x 185 x 175 mm

### • Display

Alphanumeric

### Keypad

Yes

### • Dimensions H x W x D

49 x 170 x 155 mm (radio only), 72 x 185 x 53 mm (standard control head), 58 x 185 x 58 mm (Motorcycle control head)

### Weight

1370 (radio only), 1670 (radio with control head), 448 (Motorcycle control head only)

### • Configurations

Motorcycle

### Emergency button

Change Privacy Settings

## Performance Characteristics

---

### Encryption

Yes

## Radio Features

---

### Scan

Priority, Talk group

- **Emergency signalling**

Yes

### Call tones

True

- **Programmable buttons**

Yes

### Text messaging capable

Yes

- **GPS capable**

Yes

### Caller ID

Yes

- **Selective radio inhibit**

Yes

### Status calls

Yes

## User Environment

---

### Operating temperature

-30 to +60 (°C)

- **Storage temperature**

-40 to +85 (°C)

### Humidity

ETS 300 019-1-5 Class 5.1 and 5.2; EIA / TIA 603 (95%)

- **Dust and water**

Dash / Desk / Remote IP54 (Cat 2); Motorcycle Control Head IP67 (Cat 2)

## Voice Services

---

### Talkgroups

2048 (TMO) & 1024 (DMO)

- **Phone book**

1000 persons. Up to 6 number per entry – max 2000 entries

### Scan lists

40 lists, 20 talkgroups / list

- **Ambience listening**

Yes

### Transmit inhibit

Yes

## TMO Services

---

### Private call

Half / Full Duplex (TMO)

- **Telephony**

Full Duplex (TMO)

### DGNA

## DMO Services

---

### Group call

Late entry

- **Compatibility**

Gateway & Repeater (DMO)

## Emergency Voice Services

---

### Smart emergency

DMO / TMO / DMO to TMO

- **Hot mic**

Configurable timers

### Location

Send on emergency

- **Emergency target address**

Individual or Group

### Alarm

Emergency Status

## Data Services

---

### Status messaging

100 Alias messages

- **Packet data (PD)**

7.2kbps - 28.8 kbps gross; Single or Multi Slot

### PEI

AT Commands; TNP1; enables simultaneous SDS & PD

- **Short data service (SDS)**

20 messages inbox; Individual or group target address; Send/receive during calls

## Security Features

---

### Air interface encryption algorithms

TEA2, TEA3, TEA1

- **Air interface encryption security classes**

Class1 (clear), Class2 SCK), Class3 (DCK, CCK & GCK)

### Key provisioning

Secure provisioning tool (key variable loader KVL)

- **Network access**

Temporary enable disable (Stun), Permanent enable disable (Kill)

### Authentication

Infrastructure initiated and made mutual by terminal

## GPS Specifications

---

### Simultaneous satellites

12

- **Mode of operation**

Autonomous or assisted (A-GPS)

### GPS antenna

Integrated in TETRA antenna

- **GPS sensitivity**

-152 dBm / -182 dBw

### GPS accuracy

5 meter (50% probable)

- **Location protocols**

ETSI LIP, Motorola LRRP
