

The TdLab is looking for:

2 Student Assistants (Hilfsassistent/in)

36,5% employment (15 hours-week), 2 months

Starting date: 01.05.2022

About the group

We seek two Student Assistants to join our Editorial Team for the Special Focus Section “**Creating spaces and cultivating mindsets for learning and experimentation in transdisciplinarity**”, to be published in 2023.

The positions are affiliated to the [TdLab](#) (Transdisciplinarity Lab, D-USYS), which offers a rich and lively working environment. Our research and teaching cross disciplinary boundaries and are organized in close collaboration with colleagues from different disciplinary backgrounds and stakeholders.

The goal of this Special Focus Section is to synthesize and move forwards the topics that are at the forefront of the engagement and action within transdisciplinary research, learning and practice. The starting motivation of this issue is the [International Transdisciplinarity Conference 2021](#) organized by the TdLab and the [td-net](#) (Network for Transdisciplinary Research, Swiss Academies of Science).

About the position

The students will have the opportunity of contributing with the development of a Special Focus Section on transdisciplinary research, practice and teaching. He/she will support the Editorial Team in managing the manuscripts, checking editorial requirements, and communicating with authors.

Candidates Profile

Essential selection criteria are:

- a) Master student.
- b) Interest in the field of inter- and trans-disciplinary research and teaching.
- c) Experience in writing scientific papers and/or reports.
- d) Excellent written and oral communication skills (English).

We are looking for inspired students who want to work in and contribute to an exciting publishing project.

We offer

- Versatile creative work
- Home office and/or workplace at the TdLab

To apply

Please send (via email) a short cv and motivation letter stating **why you are interested in the position and experience in writing/publishing** to Dr. Bianca Vienni-Baptista, D-USYS-TdLab (bianca.vienni@usys.ethz.ch).

Questions about the project and the job, can be sent to Dr. Vienni-Baptista.
