| <b>1</b> | 1849/50: Sydney View, 1 d. orange-red on soft thin yellowish paper, Plate 1, an unused block of twenty-three - the complete sheet less the two stamps at lower right, positions 24-25 - Plate Proof showing full sheet margins nearly all round, position 23 just shaved at right, position 18 with closed tear and several pressed creases but of no significance as the impression is of strong vibrant colour and is, without doubt, the largest multiple extant (the other large multiples of this Proof are of six and nine, sold together in the Corinthila "Besançon" Sale I in November 2017, lot 6005) and thus this is a multiple of the foremost importance to both New South Wales and classic philately. A phenomenal Exhibition piece for the connoisseur. <i>Provenance: Collection Hutson.</i> | 1 Proof | 田* | <b>25'000</b> (€ 25'750) |

4	1850 (Aug.): Sydney View 1 d. dull carmine on greyish paper, Plate II, a used example (Row 3, stamp 5 / position 15) thus showing the "Without Clouds" variety, with huge even margins all round, tied to 1851 local Sydney cover by oval of bars obliterator in black, the cancellation leaving the variety clear. Framed "6 / O CLOCK" marking alongside and reverse with "SYDNEY / 🏰 / NEW SOUTH WALES" circular datestamp in black (Feb. 24). Cover #74 in the Palmer census. An exceptional and extremely fine usage, the finest of but two recorded thus - the other, ex Frajola, had the 'No Clouds' variety obliterated by the cancellation. An exhibition item of the highest quality. Signed Holcombe. Cert. BPA (2012). <i>Provenance: H.R.Harmer, London, 19 May 1930, lot 122 Harmers, New York, 13 Nov 1980; Christie's, London, 24 April 1990, lot 847 Millenium, Sydney, 7 Nov 2012, lot 80.</i>	11c	✉	<b>15'000</b>	(€ 15'450)
5	1850: 3 d. yellow green, on greyish wove paper, "double impression" with good to large margins and lightly cancelled by Sydney obliterator, very fine. Double impressions are rare on this stamp Gi. = £ 375. (Photo = 📷 21)	39		<b>100</b>	(€ 105)
6	1860: 6 d. rose-red and Prussian blue on coarse yellowish wove paper, partially perforated 13 on three sides only, imperforate between stamp and margin, lightly cancelled "120" Moree. The stamp shows tolerable soiling and usual rough perforation. However, it is the only recorded copy with partial perforation. Unlisted by Gibbons. (Photo = 📷 21)	121var		<b>120</b>	(€ 125)
7	1899: 3 d. rose postal stationery registered envelope used to Fort Dauphin, Madagascar with 1897/99 2½ d. prussian blue tied by "Albury" duplex (Aug 22, 1899) in black with two oval "R" handstamps adjacent. Sydney transit on reverse (Aug 23) with "Registered / Mauritius" transit (Sept 29). A very rare destination. (Photo = 📷 23)	297	✉	<b>120</b>	(€ 125)

- 12 1854 (June 2): The Original printed Contract and tender for James Campbell and James Fergusson to print the lithographed 1854/57 issue of Half Lengths, the bond endorsed by both printer's on front and their guarantors (for the sum of £ 1'000) for "printing postage stamps and gumming", the contract with a sample of the (somewhat poor quality) machine made wove paper to be utilised still affixed inside the contract - this signed in ink and again in pencil after gumming. The contract internally signed by James Campbell and James Fergusson and by the guarantors (James McEwan, an Ironmonger and John Connell, Grocer) together with the written original schedule: the production of 4 million 1 d. stamps and 2 million 3 d. stamps. Entirely unique and of extraordinary importance to Victorian philately. Provenance: Collection John Barwis, Spink, London, 23 Oct 2012, lot 787.

403 <b>Deutsch Ostafrika</b> 1904: 5 P Antwortganzsachenkarte mit Bedarfstext betreffend einer Lloyd Agentur aus Chinde Mozambique, hier unnötigerweise mit einer Freimarke von Portugiesisch Zambezia zusätzlich freigemacht, gerichtet an einen Oskar Marschner in Mwaya (MUAJA) vor der Eröffnung der dortigen Postanstalt. Der Wertstempel und die Zusatzfrankatur sind entwertet Deutsche Seepost Ostafrika Linie p 21/1 04. Die Karte wurde in Tanga erst am 9/3 an Land gegeben und lief dann über Daressalam und Langenburg nach MUAJA. Der Frageteil muss wohl über Fort Johnson Nyassaland gelaufen sein, der Stempel befindet sich auf der Rückseite gehört aber nicht zum Laufweg. Auch wirft dieser aussergewöhnliche Kolonialbeleg diverse Fragen auf, nicht zuletzt warum zwischen der Abstempelung an Bord RPD PRINZREGENT und der Weiterleitung in Tanga etwa vierzig Tage liegen. Inflating 'Le Neptune'  
in Saint-Pierre Square

478→ **Ballon Monté** 1870 (Sept. 19): Entire letter carried on board of Ballon Monté No. 1 'Le Neptune' to Alcalá de Henares near Madrid, **Spain** bearing Napoléon laureated 40 c. orange, a fresh and fine example, tied by Étoile de Paris '15' numeral with matching 'R. Bonaparte' despatch cds and boxed PD in red alongside. Reverse with "ALCALA DE HENS / MADRID 28 OCT 70" arrival cds. An amazing item, covers from the 'Neptune' are missing from the most advanced collections of Ballons montés. Maury = € 15'000 for the Neptune + € 5'000 for the destination Spain / L'héritier = € 18'300 + 4'600.

*Note: This is the first entire from a most interesting correspondence of six entire letters, written by a wife to her husband and children in Spain, a new find. This item was despatched on September 19, the day the Prussian troops have closed the siège, the letter deals with the mail from Spain which arrived in Paris the day before. It does not show an endorsement 'Ballon Monté' just 'Espagne par Bayonne', because this service and terminology has not been established as the first balloon, the 'Neptune' did not depart earlier than September 23rd. This lack of endorsement is typical for the first balloons.*

# FRENCH INDIA

## The John Yeomans FRPSL Collection

THE FRENCH were the last of the European powers to compete for commercial opportunities in India and the French East India Company was formed in 1649. In 1673 rights were granted to build a factory in Chandernagor in Bengal and another in Pondichery on the Coromandel Coast. The French were in conflict with the Dutch and the British but after 1720 the Company prospered and in 1723 occupied Yanaon on the Andhra Coast, in 1725 Mahe on the Malabar Coast and in 1739 Karikal, south of Pondichery. Britain ceded the five settlements to France under the terms of the Treaty of Paris in 1814. The first French Post Office opened at Chandernagor in 1781; and the British in 1784. These were followed by Pondichery in 1787, Karikal in 1794, Mahe in 1795 and Yanaon in 1876.

The collection illustrates the development of the service from the period of the Dutch occupation of Pondichery in 1693 to the entry into the UPU in 1876 and later. Examples are included of mail carried and rates charged in the 18th century for carriage by the French East India Company vessels via the Cape route to the late 19th century steamers of the P&O and Messageries Maritimes Companies to and from the Far East and India by the overland route.

## Greek Occupations during the Second Balkan War

609	<b>Greek Occupation of Cavalla</b> 1913 (July 14): 25 l. on Bulgaria 5 st. black & green surcharged in red, a horizontal pair, used on cover to London, tied by "ΕΛΛΗΝ. ΤΑΧΥΔΡΟΜΕΙΟΝ / ΚΑΒΑΛΛΑΣ" cds showing julian and gregorian dates (7/20 July) in black. Reverse with Salonika transit and London (July 29) arrival. A rare usage of this contentious issue. (Photo =  147)	(Gi. 7)	✉	200	(€ 205)
610	1913 (July 14): 50 l. on Bulgaria 10 st. black & red surcharged in blue, a used example on defective Lloyd Austriaco envelope to Salonika, tied by "ΕΛΛΗΝ. ε ΤΑΧΥΔΡΟΜΕΙΟΝ / ΚΑΒΑΛΛΑΣ" cds showing julian and gregorian dates (3/13 July), with repeated strike at left. This cancellation was used on later covers but without the "ε". A scarce commercial 'in period' usage of this issue. <i>Note: The issue was created by the Tocco Brothers who were stamp dealers, they were however, aided by Government officials and members of the Post Office. The issue was on sale for six days only. This stamp being from the first printing, surcharged in pairs, with the first "I" in "ΔΙΟΙΚΣΙΣ" replaced by a "I" in one stamp of each pair.</i> (Photo =  147)	(Gi. 8a)	✉	200	(€ 205)
611	1913 (July 14): 5 l. on Bulgaria 1 st. myrtle-green surcharged in red, an unused horizontal pair (with 'l' flaw) and a used example on piece, two philatelic Tocco Brothers covers with one to Smyrna showing surcharges inverted but addressee's name erased and a registered cover to Marienbad (Aug. 30), this last from the Charles Sponty correspondence; and a large cover with all values 'issued' tied by "ΕΛΛΗΝ. ΤΑΧΥΔΡΟΜΕΙΟΝ / ΚΑΒΑΛΛΑΣ" cds's showing julian and gregorian dates (1/14 July) in black (signed Deilakis). A scarce group. (Photo =  www)	(Gi. 1/11)	✉△	250	(€ 260)
612	1913 (July 18/31g): The first provisional issue: album page with complete composite imperforate sheet of the italic issue showing one 5 l., four 10 l. and three 25 l. values printed in black, with red circular anchor Control markings, a used vertical strip of 25 l. value perf. 11½, with value altered to '20' leptä in pencil on each (dated July 23) and a cover with perf. 10 l. value on reverse mailed to Salonika (June 25) tied by Dedeagatch straight line handstamp in red. Rare. (Photo =  www)	1/3	✉田	300	(€ 310)
613	1913 (July 24/Aug. 6g): The second provisional issue, the collection with the set of five values complete in unused blocks of eight (the overprinted forme was designed thus and therefore the stamps can be plated and these are the sole set of complete sheets recorded by the late Earl Galitz), a further pair of 25 l. on 5 l. unused, and three rare covers: 5 l. on 1 st. in a strip of four used to a Greek Naval officer on board ship, tied by "Dedeagatch" straight line in red; single 10 l. on cover to Athens tied by Dedeagatch cds (July 28) on first day of use of the datestamp*, and a single franking of the 25 l. on 5 st. black & green; together with two postcards bearing Greek frankings. A rare group (11 items) Mi = € 2'400+. <i>*Note: W. Libermann &amp; G. 615	1913 (Sept. 15/Sept. 28g): The third provisional issue: 50 l. blue (two examples), perf. 11½, used on reverse of 1913 cover to Pera, Constantinople and cancelled by straight line "Dedeagatch" in Greek in red (repeated strike on obverse); one stamp showing the blue anchor Control handstamp. The 1 drachma franking is overpaid but the Postmaster in Athens (Sept. 24) applied four litho 25 l. ultramarine over the original franking as, whilst the Dedeagatch franking was legitimate it would not be recognised upon arrival in Pera. "British Post Office / Constantinople" cds also at right (Nov. 10) in black. Imperfections but a most unusual cover. (Photo =  147)	16	✉	250	(€ 260)
616	1913 (Sept. 24/Oct. 7g): The fourth provisional issue: 30 l. blue on blued (three examples) and single 50 l. blue on blued, perf. 11½, used on reverse of 1913 registered cover to Mytilene all tied by straight line "Dedeagatch" in Greek in red with each stamp showing the anchor Control handstamp with arrival (24 Sept. julian). Obverse with repeated strike of the "Dedeagatch" handstamp in red and the top of the cover folded over horizontally. A very rare usage of this issue on letter. Signed Holcombe. Note: The 30 lepta stamps show the dot in the "Δ" of ΔΙΟΙΚΗΣΙΣ in the third line of text - this is unique to the genuine stamps. (Photo =  155)	21+22	✉	350	(€ 360)

Note: Mail with Italian services to France via the Italian homeland is extremely rare as there was an effective French service from Alexandria to Marseille. The Italian service to France gained some importance during and after the Franco-Prussian War when French shipmail services were reduced. These covers could only sent partially prepaid with 20 centesimi for 15 gr. until embarkation, while the residual journey had to be paid by the receiver with 100 centimes.

Later issues are also well represented with two copies of the 1898/99 10 G orange, as well as two of the centenary 1913 10 G. The 1923 Silver Jubilee is also twice complete to 5G. Subsequent issues enjoy an excellent degree of completeness with many charities sets also on cover. There are also a couple of Zeppelin flights to South America in 1932 and an ABEL TASMAN flight in May 1931. The back of the book is also very interesting with postage dues and a fine used HAARDERWIJK internment camp stamp. The 1856/57 King OSKAR I issue contains many choice copies with attractive postmarks. The 1867 "Coat of Arms" section contains two letters to Switzerland, including one underpaid and taxed. 1060→	1855/1960: Phenomenal collection in twelve Volumes containing a vast array of important stamps and some very interesting items of postal history. | <b>1090</b> 1851-52: Missionaries, Typeset 5 c. blue on pelure greyish paper, type I with 'P' located mid-way under 'H', a used adhesive with large even margins all round, heavily restored as can be seen in the majority of these delicate adhesives, cancelled by indistinct part strike of "HONOLULU / HAWAIIAN ISLANDS" datestamp in red, rarely seen on the stamp itself. An attractive example of this classical rarity. Cert. Hawaiian Philatelic Society (1979) Scott = \$ 35'000.<br><i>Note: In the most complete census of Missionaries, compiled in the auction catalogue of the Siegel sale 769, the first part of the Honolulu Advertiser collection, a total of 37 examples of the 5 c. blue are described. As the present item, 26 of them are defective or repaired, as can be expected for a stamp of 170 years on this extremely fragile pelure paper. ### Brazil: Lots and Collections

1138		1843/1940: Strong, predominantly used, classic and semi-classic collection up to WWII in seven self-designed Albums, containing many excellent quality classic stamps and covers. The collection commences with an array of nine pre-philatelic letters, including two interlopers originating from BUENOS AYRES, including one via the British Office both to EUROPE. The collection contains thirteen BULLS-EYE stamps including five early impressions, and over 70 copies of the subsequent "INCLINADOS" issue, including the key value 600 R. The 1849 "VERTICAIS" issue takes up 15 pages in the first album, here including 10 copies of the 600 R. The 1854 "COLORIDOS" come with seven copies of the 430 R including one large margin unused specimen. The 1866 perforated issues are also well represented. The 1866 "Emperor Pedro II" section contains four unused 500 R orange-yellow all no gum, the subsequent rouletted stamps are again strongly represented with eight 700 R reddish-brown and eighteen 1000 R grey. Later issues are similarly strong, with more and more very attractive letters and covers, to name an example a 200 R lettercard from 1883 used as registered correspondence from MACEIO to CONSTANTINOPLE. Post revolution issues continue in the same vein, each represented in significant numbers. Post 1900 the collector added more unused items, with onset of the 1930s airmail letters becoming more prominent, including six of Zeppelin return flights and some other airmail. A thoroughly enjoyable lot to study and enlarge. (Photo =  www)	✉*/**	2'000	(€ 2'060)

The issued items also contain some exquisite items, one being the 1893 and 1895 postcards with private prints from the Swiss Society and the latter with some highly decorative German-Austrian-Swiss Society print on the reverse. There are also many attractive additional frankings, as well as a postmark collection on the 1885 Columbus 5 c. violet envelopes. Very attractive lot.	☒	500	(€ 515)
1228			
1872/1930: Postal Stationery and few letters, over six-hundred-fifty entires in nine volumes with many rare and unusual items including Postage Due, Registered and Avis de Reception, local registered, overseas destinations like Australia, the Netherlands, Dutch Indies, Great Britain, Hungary, commercial advertising prints, censored items. Fine accumulation with many choice items in mostly fine condition.	☒	750	(€ 775)
1229			
1879/1884: Collection "Pacific War" on sixteen pages containing eighteen, both civilian and fieldpost entires, and forty-two stamps and pieces with postmarks from the newly acquired area and occupations beyond. An outstanding item is the 1877 10c blue bisected on entire from "ARICA" to "IQUIQUE" one of only a handful recorded bisects. Another interesting item is a printed matter from "MOLLENDO" to "CALLAO" without stamps due to none being available. A four colour franking from "LIMA" to "PARIS" with four different "Rouletados" stamps also deserves favour, despite being opened hastily. A great lot.	☒	1'000	(€ 1'030)
1230			
1883/1901: Exhibition collection on thirty-one pages, dealing with MULTADA (Postage dues), Telegraph stamps and Fiscals used as postage stamps, allowing a glimpse into the practices at the post office at the time. Notable items include cachets with Multada, the first VALPARAISO MULTADA stamps on three covers and as singles to 30c, a postal stationery cut out, not accepted for franking stamped "INUTIL" (invalid), mixed frankings with fiscal stamps and Telegraphs. Powerful lot of this difficult area to collect.	☒	1'000	(€ 1'030)
1231			
1889/1902: "ROULETADOS", specialised collection of seventeen franked and registered letters up to 1 p dark brown and black, including postal stationery with additional franking, mostly "AVIS RECEPTION", with overseas destinations including "ADRIANOPEL", "MODENA", "NEW YORK", "KIRKEE" (Brit.India) and others. Many letters bear different registration labels. The lot is complemented by three official letters without frankings.	☒	500	(€ 515)
1232→			
1890/1960: Collection consisting of approximately 1500 letters in seventeen albums and a large box, containing airmail, postal stationery, registered and censored mail, overseas destinations and more. The airmail should be looked at closely, as there are many high value frankings and unusual flights.	☒	1'000	(€ 1'030)
1233			
1900/1930: "Picture Postcards", collection of over three hundred often very rare postcards, with many street scenes, nitrate ships in IQUIQUE bay, idigenous scenes, catastrophies and earthquake damage captured on film. A documentation of the Chile of yesteryear.	☒	300	(€ 310)
1234			
1900/1950: Machine cancellations, structured collection consisting of over one-hundred-thirty entires with a large proportion of pre 1914 material covering postal mechanisation. The various cancelling machine types used in Santiago are also covered as are those of IQUIQUE or VALPARAISO. Later introduced "Slogan" cancellers like advertising airmail or the red cross are covered in depth as the advertisements for using Chilean Nitrates. Highly educational study.	☒	300	(€ 310)
1235			
1905/2000: ISLA de JUAN FERNANDEZ, or Robinson Crusoe Island, collection of seventeen entires pre 1935, with picture postcards including SMS DRESDEN, an AR letter to Germany with German registration label "Vom Ausland über Hamburg I", souvenirs from Expeditions and a range of modern material. Unusual to find in this quantity.	☒	250	(€ 260)

## Japan

1528	1913/14: ½ s. brown - 1 y. green and brown definitive issues both with and without watermark, overprinted "MIHON" = "SPECIMEN" in black, some lower values with small faults, otherwise fine and scarce. <i>(Photo =  329)</i>	99/120	*	150	(€ 155)
1529	1871/1965: Significant, attractively presented collection in seven self designed albums with a strong range of the 1871 Dragon series, which is represented by sixteen copies. The 1872 section contains two copies, a 1/2 s and a 2 s. Later sections need to be viewed with a degree of caution, as there are inevitably a small number of forgeries present, although here too is much substance like the 1872 high values. The pre 1876 century section overall is much better than most. The subsequent issues are interlaced with a range of unusual letters, such as a 5 s brown multiple franking from YOKOHAMA to EDINBURGH on a very attractive pre-printed letter originating from the Japan Seismological Society, franked 10s pale blue to PARIS. the 1896 war with China issue constitutes the franking of an overseas letter at the 20s rate to Switzerland. The collector valued the unusual and acquired postcards used in Manchuria and Corea as well as a 1902 money transfer order. Post WWI the collector acquired more and more unused material as well as the used. Further mentions must include the 1919 airmail set, both with cert Pape BPP and a 1929 around the world flight Zeppelin card with Japanese franking. The 1931 miniature sheet "COMMUNICATIONS" is twice included in unused with full og. Later sections include the National Parks miniature sheets, apparently complete unused and used. From this period the collection displays a good range of completeness, with the key items present, including the 1949 postal week in a complete sheet and on cover. Viewing is a must. Excellent collection with much substance in largely very agreeable quality. <i>(Photo =  www)</i>			4'000	(€ 4'120)
1530	1875/1960: Small collection containing some earlier covers with better stamps, for example 1906 1 1/2 s blue Victory parade on foldable three part parade card, some earlier registered letters to Europe, 1936 Fuji National Park and some stamps of the period. The condition sometime leaves something to be desired. Still a lot with interest.	✉		150	(€ 155)

A charming group.	72/79+ 155/158	✉	200	(€ 205)

1534	<b>Ryukyu Islands</b> 1948/1970: Collection in a large self designed Album consisting predominantly of mint full og. items, beginning with 1948 US military Govt in both papers complete, later among most others the 1952 3 Y. establishment of Government. The collection displays a good range of completeness throughout with only a handful of gaps. Later it is complemented by a number of FDC. Unusual lot with a high catalogue value.	✉*/**		200	(€ 205)

**1536** The Official 1896 Presentation Album of Japanese Stamps: "Dai Nippon Teikoku Ubin Kitte Eukakushi" (The Postage Stamp History of the Japanese Empire), with all postage and telegraph issues and postal stationery from 1871/1896 and two 1874 Express labels; printed in both Japanese and English, complete and bound in silk with the original ties for binding at side, binding lightly loosened. The book contains original examples of all stamps except for seven which were no longer available even in the Post Office archives. Between pages 88 and 89 of the book there is a fold-out page detailing the exact numbers printed of the original issues. A wonderful example of what is, perhaps, the most sought after book in all philatelic literature of Asia and of the utmost rarity to both bilbliophiles and philatelists.

1537	The Unofficial 1896 Presentation Album of Japanese Stamps: "Dai Nippon Teikoku Ubin Kitte Eukakushi" (The Postage Stamp History of the Japanese Empire), produced by the facsimile dealer K. Wada in Tokyo in late 1896 due to the demand for the copies of the original (which were only distributed to high Officials around the world by the Japanese Dept. of Communications). Virtually a copy of the original work, the stamp specimens are outstanding facsimilies throughout, produced in a similar silk wrapper with differing notation on the front and different purple ties. This example also contains the fold-out table. The issue of this book was suppressed by the Japanese Government and, though full of forgeries, this book is of the same magnitude of rarity as the original though obviously the contents are not of the same value. An exquisite book en-cased in a hand-crafted box for protection. (Photo =  www)			1'000	(€ 1'030)
