EBC[®] BRAKES

Brake pads, rotors, braided stainless brake lines, clutches and much more, with four manufacturing plants in the UK and USA producing over 10 million components each year.

www.ebcbrakes.com

Welcome to your new catalogue from EBC Brakes with all of the new brakes and clutches you need for your customers

New for 2020

With nearly 40 years in the motorcycle aftermarket, we can only thank again our thousands of loyal customers for their support through the years. Carrying EBC as an alternative product line to genuine parts continues to make good commercial sense, increases sales and offers a truly long-term solution to stocking aftermarket parts.

Our range of products for US built motorcycles has been updated and included once again in this catalogue.

2019 saw a change in the way that we produce and distribute our catalogues. This is a full catalogue, in 2021 we will produce an "update only" catalogue which will supplement this edition. An up to date full catalogue will always be available on our website on the catalogues page.

WHAT ARE THE HOT PRODUCTS FOR 2020?

OVERSIZE DISC CONVERSIONS FOR US BUILT MACHINES

Brackets for oversize discs also available, complete with required hardware. See page 10 for fitment information and page 11 for model-specific product images.

Once again **THANK YOU** and have a great 2020 selling season.

CATALOGUE COPYRIGHT

This catalogue forms a copyright under international law.

This includes, but is not limited to, the series of brake pad, brake shoe, clutch and brake rotor design numbers with or without the prefixes FA, EPFA, GPFA, GPFAX, MXS, or suffixes R, HH, TT, SV. These design numbers, prefixes and suffixes form the toils of many years of work and set EBC products apart and easily distinguished from other manufacturers brands or numbers.

Any copying, imitation, in full or in part, by any third party, will result in prosecution to the fullest extent of the law.

Also included within this catalogue are registered or applied for individual trademarks, such as

- EBC
- Double-H
- Pro-lite
- SD-System
- Dirt Racer
- Street Racer
- DRC
- DRCF
- SRC
- SRK
- SV Series
- VLD Series
- VR Series
- UTVX
- SXR

All of the above are active trademarks and/or brands used by EBC Brakes licencees.

MOTORCYCLE BRAKE PADS

Aramid Fiber Organic FA Series Pads

"TT" Pads

FA series organic brake pads will deliver fingertip stopping power and superb brake feel and control, the preferred choice for many sportbike riders. This compound has low disc attack characteristics and gives medium lifetime.

"TT" series moto-x sport and enduro pads, cool running based pad compound for sport use in moto-x and ATV applications. For mud, sand or wet conditions requiring longer life, use our sintered range below.

Double-H™ Pads

MXS Series Pads

FA series with HH suffix, EBC's American-made ultra high friction Double-H™ sintered copper alloy brake pads for maximum stopping power and lifetime. With stainless steel radiator plates to reduce heat transfer and double compact for wider pads.

"MXS" moto-x race pads, ultra high friction American-made sintered copper alloy with diamond ground surface finish for fast brake-in. With external hex drive slider pins, these pads are suitable for all fast moto-x riding.

"R" Series Pads

"R" series American-made sintered copper alloy ATV and Moto-X replacement pads for sport and utility off road riding.

ii Part numbers, prefixes, suffixes, photos and illustrations shown in this catalogue are trademarks and/or copyrights of EBC Brakes or the trademark owner A C Freeman Investments Ltd and use without express written permission of the owners is punishable by law.

MOTORCYCLE BRAKE PADS

EPFA Trackday Pads

EPFA trackday pads give long life in street use with improved fade resistance and heat cycling plus improved noise characteristics, making this a great pad for heavy streetbikes and cruisers as well as faster superbikes. Great for intermittent track use.

GPFX Race Series Pads

GPFX vacuum sintered ultra-high friction race pads are for sportbike asphalt racing and have been refined over the years to deliver one of the best brake race materials ever made. See page xii for full details.

SFA Organic Scooter Pads

A superb general replacement pad for urban use on scooter mopeds, mopeds and mopeds. Made using aramid fibres, these pads give above average lifetime, reduced disc wear characteristics and offer great value for money.

SFA-HH Sintered Scooter Pads

These American-made sintered scooter pads are long lasting with high performance HH rated stopping power for perfect braking - wet or dry. The HH pads target the faster and heavier scooter market and work well with stainless steel brake discs.

MOTORCYCLE BRAKE DISCS

X and XC Series Sportbike Discs

X and XC series discs feature mill hard stainless steel high friction rotor blades for maximum brake effect and are direct size for size replacements for OEM discs. These lightweight discs feature our patented SD system square drive button system.

VMD Classic Style Discs

These lightweight, black anodised vintage discs are new to our range. The vintage fitment benefits from billet aluminium construction; lightweight, less unsprung weight enables better handling and stopping power. Perfect for the Café racer scene.

Sportbike VR Series Discs

Vee profile lightweight discs with alloy hubs and ground stainless steel rotor blades for fast street bikes. Choose from black or coloured hub options as shown above. To order prefix with VR and suffix with chosen color BLK, RED, BLU, GRN, GLD. For rear discs just the VR number.

Custom Finish VR Series Discs

Special edition splatter anodised custom finish is applied to the centre hubs of our VR series discs by hand. The coating has the same resilience as other EBC disc finishes but with a radical and unique aesthetic. Colour options available: Light Blue, Red & White; Red, White & Black; Green, White & Black; Dark Blue, White & Black.

Supermoto Brake Disc

SMX rotor with vee design contoured disc, 320mm disc upgrade kits complete with relocation bracket.

MOTORCYCLE BRAKE DISCS

MD Series Stainless Scooter Discs

Made from mill hard rolled steel, these discs are machined to match the original units, mechanically de-stressed to avoid rotor distortion, surface finished for precise smoothness and then zinc coated to prevent corrosion or rusting.

VR Series Stainless Scooter Discs

Made in the UK using German mill rolled heat treated and precision ground stainless steel, the new VR series stainless profiled scooter sport discs are the lightest and best looking on the market and can be used with any type of brake pad.

UTVX Rotors for ATV/Quad/4x4

These discs look great and give an improved brake performance. Made in our British manufacturing facility using durable, tough German mill rolled stainless steel, heat treated & diamond ground to give great braking for less than OEM prices.

CX Extreme Off Road Discs

CX Extreme self-cleaning lightweight stainless discs are a size-for-size replacement/upgrade for front and rear fitment on all modern motocross machines.

Oversize MX Discs

250 or 280mm motocross oversize disc kit complete with billet aluminum relocation brackets for improved brake power and control with vee design disc.

Rear Brake Discs

Made from stainless steel and available in full circle or contoured profile, suitable for performance street use or racing with new lightweight hole pattern construction.

MOTORCYCLE CLUTCH OPTIONS

CK/CKF Series Clutch Kits

CK complete engine sets of stack height controlled friction plates feature the EBC Brakes' unique alloy particle impregnated clutch facings that prevent burn up or slippage. CKF carbon fibre impregnated kits for ATV and moto-x use are built to last longer, grip and feel better than cork kits.

DRC/DRCF Series Clutch Kits

DRC is the ultimate clutch rebuild kit for your ATV and Moto-X machine. The DRCF kit swaps the stock type cork friction plates for a set of severe duty carbon fibre lined friction plates for better heat and wear abilities.

SRC/SRK Series Clutch Kits

SRC is an aramid fibre lined plate set with heavy duty clutch springs (diaphragm type springs included where required). Ideal for heavy sport bikes, faster riders and production based race use. SRK series includes a full engine set of aramid lined friction plates with clutch springs and steel separator plates.

CSK Coil & Diaphragm Clutch Kits

CSK sets include either coiled springs or diaphragm springs where appropriate. Coil springs are spiral wound with 4 to 8 pieces per set, made from heat treated high carbon steel delivering the right tension for your bike. Diaphragm springs are dish shaped flat steel pressure rings.

Clutch Removal Tools

NOW BEING MADE
IN STAINLESS
STEEL FINISH

Made in the UK by EBC Brakes, these laser cut clutch tools make clutch removal, loosening of the drive shaft bolts and re-tightening a breeze, without any fear of damage to your expensive clutch basket. Tools can be extended to create more leverage if required with any simple workshop tool or tube. EBC Brakes produce a clutch tool for almost every clutch plate design known.

SXS Products from EBC BRAKES

The longest lasting, highest performing aftermarket pads and rotors for the SxS industry yet ...

All EBC Brakes pads for SxS fitments, both sintered and carbon X pads, are made with beefed-up pad thickness and DO NOT REQUIRE or accommodate the fitting of noise shims, offering even more available pad life for this tough application.

UTVX DISCS

- Lightweight • Profiled
- UK made • Heat treated stainless steel

NEW SXR PADS

- Vacuum sintered • Maximum grip
- Race performance • Longest wear life

SXR sintered pads are MADE IN THE USA using vacuum furnace sintering to deliver a refined and much longer lasting material blend.

SPORT CARBON TT PADS

also available for fast, dry riding using ENHANCED LIFE MATERIAL and enhanced pad thickness.

All parts are in stock at your favourite EBC Brakes distributor NOW for immediate delivery.

GO FAST STOP FAST

STEP UP FROM STOCK

Choose from our carbon graphite X pads, high-friction SXR Race Pads or severe duty SV Series pads.

Add these to our new stainless-steel UTVX Rotors for a great set of brakes to suit all of your riding styles.

Boost brake response even further with EBC Brakes' British-made Stainless Steel Braided Brake Lines.

GPFX663HH	YAMAHA YZ-F R3 Front 15-20
GPFX673HH	BREMBO CALIPERS
GPFX700HH	HONDA CBR600RR 17-20, CBR1000R/RR Tokico Caliper 17-20
GPFX724HH	BMW S1000 R/RR Sport & M Sport 18-20
GPFX730HH	BREMBO CALIPERS

These pads bed in fast and deliver extremely high friction linear performance in track use. GPFX pads are high friction but highly stable in stop. This means pads are powerful and predictable time after time when the brake is applied in race use. The “in-stop” friction fall off is almost zero and can hardly be noticed at the lever meaning the brakes offer superb control. The EBC dyno is set to duplicate race conditions at the Road America race track and represents a true simulation of race brake demand. The number of race teams using GPFX grows annually and for 2020 the exact same formulation developed thru 2019 is used again.

EBC pads are developed in our own laboratory and tested using this race track simulator dynamometer to guarantee perfection before being thoroughly field tested on dozens of race teams.

Catalogue - Issue 202

**AMERICAN, EUROPEAN, ASIAN AND
BRITISH BUILT MACHINES**

Recommended Fittings: FA400 for use on polished chrome show discs. FA400HH recommended fitting as replacement for OE.

NOTE: — Some models may have a second disc fitted as an optional extra. Please double check with your customer exactly which side the front disc is fitted and if twin disc or single.

BRAKE APPLICATIONS

*-2 Sets Required. ■ - Also available in MX-S race compound. **SAFETY WARNING:- DO NOT USE HH PADS ON REAR UNLESS ALSO USED ON FRONT TO AVOID BRAKE IMBALANCE**

FRONT: AMERICAN PRODUCED MOTORCYCLES

APPLICATIONS

BRAKE

This symbol indicates a disc made of billet steel, and should be only used with EBC FA Kevlar® Organic or Vee pads.

Ⓣ - Remove ABS ring from old rotor and refit to new EBC rotor. Ensure all mounting surfaces are clean and when refitting bolts use a thread lock cement to hold them in place.

*-2 Sets Required. † For Vee disc colours add RED, BLU, GRN, GLD, ORG suffix to part number.

Ⓣ - Also available as a Vintage Motorcycle Disc.

Some early models of this caliper do not require the enclosed shims. If your vehicle has shims fitted then replace with this new set. If in any doubt contact EBC Brakes for clarification. In any event it is essential that the pads (with or without shims fitted) are a snug fit in the caliper but are also free to slide on the sliders arms. Do not force pads into the caliper which could cause an over-tight situation and brake seizure may occur.

DISC
BUYERS GUIDE

CLUTCH KITS FOR STREET / DIRT / ATV

STREET - 3 choices

1. Standard - CK Series

Series

Almost identical to original equipment clutch plates the CK series are a cork based product impregnated with aluminum particles to increase wear life and heat resistance. Material is highly compressed to avoid swell and clutch drag and is an ideal general purpose replacement material for all grades and sizes of motorcycle. Kit includes a complete "engine set" of friction plates only.

2. Race/Sport SRC Series

Series

A paper lined plate set complete with heavy duty clutch springs (for bikes fitted with diaphragm type springs we cannot supply a heavy duty spring kit), the SRC kit is ideal for heavy sport bikes, faster riders and production based race use. Advantages of the SRC series are longer life, higher heat resistance, although this clutch has a more aggressive/ faster take up than the CK cork series.

3. Race/Sport SRK Series

Series

SRK complete kits include aramid fibre lined friction plates, steel separator plates and springs to provide a streetgoing kit for high performance street and road race use much similar to the DRC program for off road. Some of the kits will now feature new **DIAPHRAGM** springs as used in many larger new bikes to provide a complete clutch rebuild kit for every sportbike possible.

CSK CLUTCH SPRING SETS

DIAPHRAGM TYPE SPRING

COIL TYPE SPRING

Always fit new springs which get tired after miles of heat and use. EBC spring kits are 8-10% stiffer than standard and are sold in engine sets. As stated in general fitting/safety instructions, advise customers that lever will feel slightly 'heavier' when uprating springs, and to test ride/acquaint themselves with this change in control.

DIRT/ATV - 2 choices

2. Standard - CK Series

Cork based replacement clutch exactly the same as used on the street series CK clutch plates described above. A general all purpose replacement unit.

EBC only sell complete kits as replacing single plates is deemed unwise. The object is to reset the clutch to its original stack height and just replacing one plate will not achieve that and promote clutch slip.

Many off road clutches use aluminium separator plates which wear quickly and muddy the oil. If this has happened in your engine, flush the drive case, change the oil and rebuild the clutch with a complete DRC kit which includes STEEL separator plates that not only prevent wear but increase flywheel effect of the engine and improve performance.

1. Full Kit - DRC Series

The US #1 selling off road clutch

Why are these the best???

Anti-swell, alloy impregnated heavy duty cork based facings provide smooth clutch take up and allow modulation, unlike paper clutches which tend to snatch.

Complete engine set of friction plates, HD springs and STEEL SEPARATOR PLATES prevent premature driven plate wear, oil muddying and loss of stack height.

EBC DRC kits are built with swaged aluminium carriers which spread the load on the clutch basket and prevent clutch basket "dogging".

What makes EBC the BEST!!!

Unique wide ear soft alloy drive body eliminates basket damage and delivers smooth clutch operation.

CLUTCH APPLICATIONS

EBC Coil Spring Kits

Full engine sets of heat treated and tempered spring steel coil springs with a guaranteed tension of 15% above standard. Clutch springs are an extremely important part of a motorcycle transmission system and we take very seriously the accuracy of spring tension in the EBC range of CSK kits. See application pages for part numbers.

Spring Tension Measuring Machine

You simply cannot engineer coil springs correctly without such a device as shown here. EBC have one of these digital clutch spring tension calibration machines at each of its locations to guarantee the accuracy and consistency of spring batches. The machine is calibrated based on the nominal spring deformation and then a tight tolerance of variation is achieved within the target and then a tight tolerance of variation is achieved within the target 15% upgrade range. EBC have tested many original and aftermarket clutch springs and the variation in tension is enormous and varies so dramatically, that we took the decision to measure and calibrate every clutch spring in-house to be sure of their accuracy.

EBC Diaphragm Clutch Springs

EBC SRK clutch kits, shown on the following pages, include the new diaphragm spring range. Full engine sets of heat treated and tempered spring steel diaphragm springs with a guaranteed 15% tension upgrade.

The picture opposite shows a typical aftermarket billet clutch and how the assembly looks. It is essential when replacing the diaphragm spring that the anti-scuff plate is in good condition. This is a rather flimsy steel pressing and can become bent or distorted in which case it must be replaced, this is a genuine part available from your main dealer only.

CLUTCH APPLICATIONS

CKF Clutch Kits

See application pages for availability and fitments.

CKF is the name of the new EBC carbon fibre impregnated for motocross ATV, and now some street bikes. They are built tough to last longer, grip better, feel better and drive better than stock cork based units.

PLUS the high heat ability of these CKF Carbon Fiber clutch plates handles much higher stresses and temperatures encountered in racing yet feel gentle and smooth in everyday riding.

One day all motocross bikes and ATV will be built using a clutch like this but for now the only way to get the best clutch in the game is to step up to an EBC CKF plate set or go the whole hog and invest in the DRCF clutch kits which are sold as an assembly with a stack height measured to precisely reset your bike to the original sizing.

DRC-F Clutch Kits

The toughest off road clutch yet.

Tested for 12 months in the toughest moto-x applications, these new heavy duty kits are ideal for fast off road use especially on modern 4 stroke engines.

The ultimate moto-x and ATV heavy duty clutch kit designed for race use. These new kits feature carbon fiber lined clutch plates plus a full set of steel plates and heavy duty springs.

Clutch Removal Tools

More added for 2018, a range of clutch tools to allow easy install of all EBC clutch kits. Range covers 95% of motorcycles and ATVs and allow positive holding of the clutch basket or centre boss to allow untightening and retightening of securing nuts.

Clutch application pages show appropriate tool and below is a list of the available 2018 programme.

Costing far less than OE manufacturer tools, EBC strongly recommend selling a clutch tool for every clutch sold.

Many dealers have already ordered one of each tool and loan these to customers with a deposit to gain tool loan income.

EBC CLUTCH KITS

HEAVY DUTY CLUTCHES & SPRINGS

EBC Clutches are totally Asbestos Free made from a cork based "anti-swell" facing impregnated with aluminium particles to reduce wear & heat fade. Kits are sold in pre-measured engine sets and should always be replaced in engine sets. USE ONLY MANUFACTURERS Drive case oils and avoid lead or other anti-friction additives.

SOAK PLATES in drive case oil before installing. EBC Clutch Springs are 10-15% stiffer than stock springs to avoid slip. Always check lever operating pressure for ease of clutch disengagement before riding or releasing motorcycle for use.

CAUTION – SAFETY WARNINGS FOR CONSUMERS

The following warnings now appear on the underside of our clutch packaging. For stocks in older packaging that do not display these safety warnings, we strongly recommend you photocopy these essential points and advise customers.

Never start a motorcycle whilst in gear with clutch depressed. Never reverse a motorcycle with the engine running, the machine in gear and clutch depressed. Hold front brake lever on when selecting gears from standstill.

Never engage gears from a standstill with engine revs above 1500 rpm. Check oil levels regularly.

When fitting heavy duty clutch springs acquaint yourself with increased hand pressure required to depress clutch before riding motorcycle. Assemble the clutch as per the original manufacturers workshop manual.

How To Make Precision Pilot Jets

Everyone knows how sensitive an engine is to pilot jets in the acceleration stages from 1000 to 3500 rpm and getting fuel mixture right in this area is critical. For this reason jets have to be perfectly accurate in their marked size and incremental size steps. EBC Brakes sister company A-BAX Precision Engineering Ltd in the UK has purchased the most accurate machine on the planet for this work shown below. A-BAX Precision Engineering Ltd pilot jets are precise, clearly marked and reliably gauged using pin gauges, accurate to one tenth of a thousandth of an inch, you can rely on their accuracy.

PILOT JETS

A-BAX Precision Engineering Ltd Pilot Jets for Mikuni Carbs (Sold in packs of 4)

Jet Style - VM22/210

8 bleed hole type

S&B FILTERS

Made in the USA, S&B Custom Filters are a great choice for all types of carburetor and feature a special man made gauze called "Remay" made by Dupont® which has the benefit of perfectly uniform hole patterns. This enables the S&B filter to catch dust better than an oil soaked filter and to be run DRY. Oiled filters require regular washing and relube which plays havoc with carburetor balance. Available in parallel or cone type design, with high lustre chrome end caps.

hy-tech racing reeds

For STREET Bikes New CW38 Fibre for higher durability and perfect Reed block seal in high revving 2 stroke motors.

For DIRT Bikes New TWO STAGE Action. By using a lighter fibre on the lower reed block position New Hy-Tech "D" suffix. Reed Kits open earlier and give perfect TWO STAGE response without turbulence or early primary stage reed petal fatigue or New Carbon Fibre CF Series. See below.

CARBON FIBRE REEDS for most Street and Dirt Bike models Prefix **CF** for Carbon Fibre.

ROAD BIKE REEDS ALSO AVAILABLE IN CARBON FIBRE

CARBON FIBRE REEDS

Last longer, work better – increase
rev range & performance

BAFFLE PAC

BAFFLE-PAC-Silencer Glass. PART NO. BP001

This material is labelled and conforms to BSAU 193T2. BEWARE of distributors selling cheaper roofing felt in its place. Repackable Tailpipes as the name implies require regular cleaning and repacking with BSAU approved "SILENCER GLASS" such as Winning BAFFLE PAC. Failure to maintain tailpipes in such a way will lead to clogging of the silencer wool and raised noise output together with reduced engine performance. Freeman Automotive (nor Dealers) are responsible for noise offences due to lack of maintenance as described above. "Recommended repacking period is every 3000 miles on two-strokes or when bike becomes noisy if sooner".

BRAKE FLUID

DOT 4 - A refined specification polyglycol fluid as fitted to most faster street bikes now produced.

DOT 5 - Silicone fluid as used in Harley Davidson Motorcycles and many special High Performance Brake systems.

NEW BF307 - Highly refined Dot 4 Brake fluid, ideal for Racing or High performance Road bikes. Can be used in all systems specifying Dot 3 or Dot 4 but **NOT** with (Dot 5) silicone fluids.

CAUTION - Please check carefully the type of brake fluid used in your system. Adding the incorrect fluids could cause major brake failure. DO NOT EVER mix glycol fluids (DOT3, DOT4 or BF307) with Dot5 Silicone.

EBC Brake Fluid is available in DOT 4 or DOT 5 (Silicone) Grades or BF307 Race Grade.

TO ORDER USE THESE NUMBERS

DOT 4 (Six Pack)	BF 004	250ml Bottle
DOT 5 (Six Pack) (Silicone)	BF 005	250ml Bottle
BF 307 (Six Pack)	BF 307	500ml Bottle

BRAKE CALIPER LUBE

These sachets of dedicated, high viscosity greases are perfect for all of your customers' brake service needs. Always use sparingly on caliper slider pins and rails, but do NOT get near the pad surface and do NOT use as anti-squeal as it will not help at all. Each sachet contains 5 grammes of grease.

TO ORDER USE THESE NUMBERS

Ten Sachets	LUBE010
Fifty Sachets	LUBE050

GALINDO / BAJA GRIPS

4 1/2" GALINDO Superbike Grips

Made in USA with KRATON G material. Without doubt the highest quality grip sold worldwide for street bikes. All below colours at 4.1/2" with separate spacer ring to accommodate 5" throttle units. Complete with heavy plastic bar end plugs & new high visual "Clamshell" packaging.

Colour	Part No.
Black	GX001
Red	GX002
Blue	GX003

BAJA FOAM GRIPS

BAJA Foam grips made in USA with "reticulated" foam closed cell construction. Sounds fancy but what it means is Baja foam grips do not "sponge" up water as will other cheap open cell foam rubber units. Complete with bar end caps and mounting glue.

Colour	Part No.
Black	BG001
Red	BG002
Blue	BG003

LEDAR NOZZLES

LEDAR POWER NOZZLES 2 STROKE DETAILS

- Simply Change standard OE Nozzle for Immediate Power Boost.
- More Power through the range.
- Better Carburation, improved specific fuel consumption.
- Less Unburnt Hydro Carbons means cleaner exhaust & less pollution.

NOZZLE No.	FITMENT
LN43	RD 125 LC Mk 1/Mk 1 2 (Not YPVS), DT 125 MX
