Goldstein Volker Kutscher, 2019-02-12 THE BASIS FOR THE INTERNATIONAL TV SENSATION BABYLON BERLIN
“[Kutscher's] trick is ingenious...He's created a portrait of an era through the lens of genre fiction.”—The New York Times
Volker Kutscher, author of the international bestseller Babylon Berlin, continues his Gereon Rath Mystery series with Goldstein as a police inspector investigates the crime and corruption of a decadent 1930s Berlin in the shadows of the growing Nazi movement. Berlin, 1931. A power struggle is taking place in Berlin's underworld. The American gangster Abraham Goldstein is in residence at the Hotel Excelsior. As a favour to the FBI, the police put him under surveillance with Detective Gereon Rath on the job. As Rath grows bored and takes on a private case for his seedy pal Johann Marlow, he soon finds himself in the middle of a Berlin street war. Meanwhile Rath's on-off girlfriend, Charly, lets a young woman she is interrogating escape, and soon her investigations cross Rath's from the other side. Berlin is a divided city where two worlds are about to collide: the world of the American gangster and the expanding world of Nazism.

The Rise of Magicks Nora Roberts, 2019-11-26 The #1 New York Times bestselling author of Year One and Of Blood and Bone concludes her stunning new trilogy praised as “A match for end-of-the-world classics like Stephen King’s The Stand.” After the sickness known as the Doom destroyed civilization, magick has become commonplace, and Fallon Swift has spent her young years learning its ways. Fallon cannot live in peace until she frees those who have been preyed upon by the government or the fanatical Purity Warriors, endlessly hunted or locked up in laboratories, brutalized for years on end. She is

determined to save even those who have been complicit with this evil out of fear or weakness—if, indeed, they can be saved. Strengthened by the bond she shares with her fellow warrior, Duncan, Fallon has already succeeded in rescuing countless shifters and elves and ordinary humans. Now she must help them heal—and rediscover the light and faith within themselves. For although from the time of her birth, she has been The One, she is still only one. And as she faces down an old nemesis, sets her sights on the enemy's stronghold, and pursues her destiny—to finally restore the mystical shield that once protected them all—she will need an army behind her...

Babylon Berlin Volker Kutscher, 2017-09-12 THE BASIS FOR THE INTERNATIONAL TV SENSATION BABYLON BERLIN Cabaret on cocaine...captures the dark glamour of a briefly exhilarating time between the wars. --NPR *Babylon Berlin* is the first book in the international-bestselling series from Volker Kutscher that centers on Detective Gereon Rath caught up in a web of drugs, sex, political intrigue, and murder in Berlin as Germany teeters on the edge of Nazism. It's 1929 and Berlin is the vibrating metropolis of post-war Germany—full of bars and brothels and dissatisfied workers at the point of revolt. Gereon Rath is new in town and new to the police department. When a dead man without an identity, bearing traces of atrocious torture, is discovered, Rath sees a chance to find his way back into the homicide division. He discovers a connection with a circle of oppositional exiled Russians who try to purchase arms with smuggled gold in order to prepare a coup d'état. But there are other people trying to get hold of the gold and the guns, too. Rath finds himself up against paramilitaries and organized criminals. He falls in love with Charlotte, a typist in the homicide squad, and misuses her insider's knowledge for his personal investigations. And as he gets further entangled with the case, he never imagined becoming a suspect himself. "The first in a series that's been wildly popular in Germany is an excellent police procedural that cleverly captures the dark and dangerous period of the Weimer Republic before it slides into the ultimate evil of Nazism."—Kirkus Reviews "Conjures up the dangerous decadence of the Weimar years, with blood on the Berlin streets and the Nazis lurking menacingly in the wings."—The Sunday Times (London) "James Ellroy fans will welcome Kutscher's first novel and series launch, a fast-paced blend of murder and corruption set in 1929 Berlin."—Publishers Weekly (starred review)

The Sad Geraniums, and Other Stories Wolfgang Borchert, 1973

Revisiting Moroccan Migrations Mohammed Berriane, Hein De Haas, Katharina Natter, 2018-02-02 Over the 20th century, Morocco has become one of the world's major emigration countries. But since 2000, growing immigration and settlement of migrants from sub-Saharan Africa, the Middle East, and Europe confronts Morocco with an entirely new set of social, cultural, political and legal issues. This book explores how continued emigration and increasing immigration is transforming contemporary Moroccan society, with a particular emphasis on the way the Moroccan state is dealing with shifting migratory realities. The authors of this collective volume embark on a dialogue between theory and empirical research, showcasing how contemporary migration theories help understanding recent trends in Moroccan migration, and, vice-versa, how the specific Moroccan case enriches migration theory. This perspective helps to overcome the still predominant Western-centric research view that artificially divide the world into 'receiving' and 'sending' countries and

largely disregards the dynamics of and experiences with migration in countries in the Global South. This book was previously published as a special issue of *The Journal of North African Studies*.

Letting Everything Become Your Teacher Jon Kabat-Zinn, 2010-06-30 Yes, there actually is a way to let everything become your teacher, to let life itself, and everything that unfolds within it, the “full catastrophe” of the human condition in the words of Zorba the Greek, shape your ongoing development and maturation. Millions have followed this path to greater sanity, balance, and well-being, often in the face of huge stress, pain, uncertainty, sorrow, and illness. In his landmark book, *Full Catastrophe Living*, Jon Kabat-Zinn shared this innovative approach, known as mindfulness-based stress reduction (MBSR), with the world. Now, in this companion volume, 100 pointers from that groundbreaking work have been carefully selected to inspire you to embrace what is deepest and best and most beautiful in yourself. Whether you are trying to learn patience, cope with pain, deal with the enormous stress and challenges of the age we live in, improve your relationships, or free yourself from destructive emotions, thoughts, and behaviors, these deceptively simple meditations will remind you that you have deep inner resources to draw upon, the most important of which is the present moment itself. Regardless of your age or whether you are familiar with the healing power of mindfulness, this insightful, inspirational guide will help you to honor, embrace, learn from, and grow into each moment of your life.

Lives of the Twelve Caesars Suetonius, 1997 This text by Suetonius, a Latin biographer, is a major source for the period from Julius Caesar to Domitian. It sets out a great range of aspects illuminating the emperors' characters, their habits - from table to bedchamber - their intrigues, loves and their deaths.

Changing Perceptions of the Public Sphere Christian J. Emden, David Midgley, 2012-07-20 Initially propounded by the philosopher Jürgen Habermas in 1962 in order to describe the realm of social discourse between the state on one hand, and the private sphere of the market and the family on the other, the concept of a bourgeois public sphere quickly became a central point of reference in the humanities and social sciences. This volume reassesses the validity and reach of Habermas's

concept beyond political theory by exploring concrete literary and cultural manifestations in early modern and modern Europe. The contributors ask whether, and in what forms, a social formation that rightfully can be called the public sphere really existed at particular historical junctures, and consider the senses in which the public sphere should rather be replaced by a multitude of interacting cultural and social publics. This volume offers insights into the current status of the public sphere within the disciplinary formation of the humanities and social sciences at the beginning of the twenty-first century.

Shiny Water Anna Salter, 1998 Forensic psychologist Michael Stone is involved in a child custody case where the father is suspected of molesting his two small children, but the court grants him custody anyway. The very next day the children are found murdered--and Michael is drawn irrevocably into the case.

Starsight Brandon Sanderson, 2019-11-26 The #1 New York Times bestseller! From the #1 New York Times bestselling author of the Reckoners series, the Mistborn trilogy, and the Stormlight Archive comes the second book in an epic series about a girl with a secret in a dangerous world at war for humanity's future. All her life, Spensa's dreamed of becoming a pilot and proving herself a hero like her father. She made it to the sky, but the truths she learned there were crushing. The rumors of her father's cowardice are true--he deserted his Flight during battle against the Krell. Worse, though, he turned against his team and attacked them. Spensa is sure that there's more to the story. And she's sure that whatever happened to her father that day could happen to her. When she made it outside the protective shell of her planet, she heard the stars--and what they revealed to her was terrifying. Everything Spensa has been taught about her world is a lie. Humankind has always celebrated heroes, but who defines what a hero is? Could humanity be the evil the galaxy needs to be protected from? Spensa is determined to find out, but each answer she discovers reveals a dozen new questions: about the war, about her enemies, and even, perhaps, about Spensa herself. But Spensa also discovered a few other things about herself--and she'll travel to the end of the galaxy to save humankind if she needs to. Sanderson delivers a cinematic adventure that explores the defining aspects of the individual versus the society. . . . Fans of Sanderson will not be disappointed. --SLJ It is impossible to turn the pages fast enough. --Booklist He's simply a brilliant writer. Period. --Patrick Rothfuss, author of the New York Times bestseller *The Name of the Wind*, on Brandon Sanderson.

Fortress Europe? Annette Jünemann, Nikolas Scherer, Nicolas Fromm, 2017-03-16 An unprecedented number of people is currently on the move seeking refuge in Europe. Large parts of European societies respond with anxiety and mistrust to the influx of people. Nationalist, anti-migrant parties from Slovakia over Germany to the UK have gained increasing support among the electorate and challenge the political mainstream. Europe is struggling how to respond. While the search for solutions is ongoing one pattern seems to be emerging: Fortress Europe is in the making. Unfortunately, few of these discussions and measures consider the structural root causes and dynamics of migration, the motives of migrants or societal

challenges more thoroughly. This book seeks to address this deficit. Taking migration and asylum policies as a starting point, it analyses the various dimensions underpinning migration. In doing so, it identifies why receiving countries are in many ways part of the problem. To eschew an overtly Euro-centric perspective and stimulate a debate between science and politics, it contains contributions by academics and practitioners alike from both shores of the Mediterranean.
