With so much change coming at us
all so fast, it's reassuring that some
things remain the same. Like ... you'll
find that same feeling of timelessness
at Midland Bull Test, where you'll find
an unparalleled collection of bulls all
developed in the most positive sound
environment possible. Every bull is
developed to provide you years of
proud ownership and useful service.

That's the way things have been
since Leo Sr. and Grandma Donna
developed Midland Bull Test in the
60's, and that's the way we'll stay. So
whenever you see the Circle Running M
Brand, you can be confident that more
than 54 years stands behind it.

The objective of a bull test is to measure the differences of a group of bulls; to observe and document average daily gain, genetic expression, phenotypic strengths, etc. Two of the primary purposes of Midland Bull Test is to focus on soundness and fertility. The fall out for fertility is relatively low in our test partially due to the ration fed. The high level of roughage coupled with the low level of grain promotes ultimate soundness in the feet and legs and also aids in attaining the highest levels of fertility. Our bulls walk through the sale in fit using condition ready to go to work. The importance of bulls being capable of maintaining their condition and working when turned out is critical to your success and ours. Every effort is made to offer functional bulls that transition into the life of a successful and fit asset to your operation. 

Sale Order – Determined by Midland Bull Test Index ($\frac{1}{4}$ ADG + $\frac{1}{4}$ NR + $\frac{1}{4}$ YR + $\frac{1}{4}$ ER efficiency ratio) and Estimated Sale Value. We do expect small changes in sale order. They will be posted online with current version on the bottom. Sale orders will be posted online prior to sale and available sale day. Sale day orders trump.

Terms & Conditions– All sales are being conducted under the American Angus Association Suggested Sale Terms and Conditions (2/21/14) regardless of breed of sale bull. The Consignors guarantee all bulls as breeders for the first breeding season immediately following the sale. Breeding season is defined as the first **60-day period** following first turnout of bulls. If a problem occurs please contact Midland Bull Test IMMEDIATELY. We will provide you with all necessary information to contact the consignor. Midland Bull Test wants to ensure that all of our customers are repeat customers; therefore, we are always available to help facilitate arrangements between parties as needed. All claims for adjustment or refund must be made within three months of sale date. This is not a life insurance policy; Mortality Insurance will be available for purchase at the sale. We would suggest that quality care is maintained on all bulls and yearling bulls not be allowed to get too thin. We will provide ongoing customer service and focus on buyer satisfaction. This credit or replacement guarantee pertains strictly to reproductive use of the bull, not the physical loss of the bull.

Terms Are Cash – When making settlement, please leave specific instructions for transfer and shipping. Each animal will be sold to the highest bidder with the auctioneer settling any dispute as to bids. Announcements made from the auction block take precedence over any printed material. Livestock will be cared for following the sale at the buyer's risk and responsibility.

Certificate of Registry – A transferred certificate of registry will be furnished to the Buyer for each animal after settlement has been made.

Health – All cattle will be sold according to the health regulations of the State of Montana. Buyers must be aware of any variations between the laws of the states. All bulls have tested BVD-PI negative and are tested negative for known genetic defects as detected by pedigree per respective Associations as of 2/28/15. Furthermore, bulls sold into states that require trich test will be trich tested after sale and trucking arrangements will be made in short order.

Canadian Buyers – Estimated health inspection costs for first bull purchase is \$500. Each additional bull is \$125 per bull. Midland will split this cost equally with buyer for health inspection and testing.

Fertility Tested & Guaranteed – Complete semen and scrotal evaluations on all bulls are performed by Bryan Roe, DVM, Shepherd, MT. **Scrotal measurements for group 1 (*) were taken mid-February. Group 2 (**) were taken the first week of March. All are published as actual size.** For projected sale date size, add 1 to 1.5 cm per month. These bulls sell guaranteed to be breeders via natural service.

Efficiency Test – Bulls are denoted as *(group 1) or *(group 2). RFI is given in this catalog. Complete efficiency test results are available at www.MidlandBullTest.com.

1/3 Revenue Sharing Semen Interest – Some breeders have elected to retain semen interest in their bulls. The buyer will have full possession and full salvage value. The seller, if he/she desires to collect semen, will do so in the off-breeding season at the seller's expense and the buyer's convenience. If the buyer opts to participate in semen sales, then buyer and seller will work out a mutual agreement. Over the years it has been Midland's experience that most sellers do not exercise this option on bulls going into commercial herds.

Delivery – Cattle purchased in our sale will be delivered to CENTRAL locations, such as stockyards, in the lower 48 states Please see page 9 for our delivery policy, map and costs.

Everyone attending the sale does so at their own risk. The owners and Midland assume no liability, legal or otherwise, for any accidents which may occur.

MIDLAND BULL TEST

It is my honor and pleasure to invite you to the 54th annual Midland Bull Test! MBT has a rich history that has grown in tandem with the technological advances of the cattle industry. More personally...it is our LEGACY! With over fifty years under our belts, we are accustomed to the inherent evolution of growth including assessment, planning, implementation and re-evaluation. We are steadfast in seeking new ways to provide better analytics and more value in a cost feasible manner. Currently, we have our eye on enhancing our understanding of herd based data by compiling efficiency EPDs and feed

efficiencies for multiple years. Using Growsafe data to develop herd trends allows the producer to more readily ascertain the positive and negative results of their selection choices; and will afford the opportunity to detect and re-direct when warranted.

In order for a bull to qualify for the sale, it must be balanced across the board in terms of performance from weaning to yearling. Many buyers comment that they appreciate that the bulls are already sorted and have passed multiple criteria and parameters before being qualified to be a top sale bull. We provide buyers objective data that includes birth, weaning weight, 205 day weight, adjusted 365 weight, ultrasound data, and feed efficiency data. At Midland Bull Test, we do a lot of sifting for you with only the top 70-80% of the bulls qualifying to sell. Yes, it is a lot of data to review, but it is all there for you to make a sound, objective, data driven decision to decide which bulls fit the needs of your program! Further, the Search-A-Bull option is up on the website, where you can enter the criteria you are looking for and it will help narrow down your selection process.

If you have any questions regarding the bulls or the MBT Program, we would be more than happy to discuss them with you.

Thank you for your interest in Midland Bull Test! We look forward to seeing you at the sales.

LIVE ON THE INTERNET. LIVE AUDIO. LIVE VIDEO. BIDDING

LiveAuctions TV

To register and follow the auction in real time on the internet, log on to Website: <http://www.liveauctions.tv>
For More Information, call Brad Fahrmeier at (816) 392-9243

If you wish to follow the sale on the computer and bid by telephone, please call the sale day phone numbers or one of the consultants listed in our catalog.

"We appreciate your attendance"

Sale Broadcast Live via

FRONTIER
Stockyards

1-866-621-5546

frontier@frontierstockyards.com

John Morford, office manager

www.frontierstockyards.com

This sale will be broadcast live over the internet via Frontier Stockyards.

You will be able to see a video of each bull as he sells, hear the sale live and keep up with the bidding via a scrolling bid screen. For buyers that are unable to attend the sale, you will have the option of bidding online or you can place a bid using the telephone bidlines. If you wish to bid on a lot via the telephone bidlines, you are encouraged to call a couple of lots in advance. There will also be an option to place absentee or proxy bids before the sale.

All buyers must register –registrations do not carry over from sale to sale or year to year. When registering on our site for the very first time, you will create a user name and password that is tied to your email address. After creating this the first time, you will use that information to register for any particular sale you wish to bid in. To register, go to www.frontierstockyards.com and click on the link for this particular sale.

In order to place bids on the Internet or over the phone, you must pre-register online and obtain a bidder number and a password.

We encourage you to register early to avoid any problems and make sure you are set up to view the sale.

A sale order will be posted in advance of the sale and an online catalog with videos will be available at www.frontierstockyards.com

Traditional Marketing Methods Using 21st Century Technology!

FRONTIER
Stockyards

Montana Based Company Specializing in INTERNET LIVESTOCK MARKETING

Offering the best of Northern Tier cattle in a bid/ask format.

- High speed videos of your cattle
- Detailed information about your cattle
- Buyers can see your cattle 24/7
- Unequaled personal service

ATTENTION PUREBRED BREEDERS!

Broadcast your production sale LIVE on the internet!

- Buyers can see and hear your sale live.
- Your pre-approved buyers can bid on your lots via the internet.
- Broadcasts are in real time - less than 3/10ths second delay!

More options to choose from:

- Put your sale catalog on the internet for all to see.
- High speed videos of your cattle running 24/7.
- DVDs of your cattle so you can ship them to your customers.
- Got herd data? Past carcass info? We can use it all!
- Sell private treaty? We can help there too!

Contact us for details on broadcasting your sale - including farm machinery, trucks, etc. Create your own custom auction!

Measuring RFI (Residual Feed Index) is a measure of feed intake for maintenance and productivity. RFI is a calculation of true feed utilization, with a negative number (-1.5 lbs/day) being more efficient than a positive number (+1.5 lbs/day) when balanced with production, i.e. gain. ☺

Feed efficiency EPDs attempt to capture an animal's genetic ability to put on more weight with less feed. While there are many ways to calculate feed efficiency (such as feed conversion ratio and residual average daily gain), an especially useful way is residual feed intake or RFI. RFI is feed intake adjusted for an animal's weight and gain. An animal that eats more also tends to be larger and gain more weight. By adjusting these factors out of an animal's intake measurement, we are able to better understand which animals process feed more efficiently. We can then select for our typical growth traits (yearling weight, weaning weight, or post wean gain) and at the same time select for intake (in the form of RFI) and know that there is no double counting of an animal's size.

The RFI EPDs are expressed in actual kgs of feed an animal will eat per day. And like other EPDs, they have an associated accuracy that expresses how sure can be of the predicted performance. The table to the right has an example of three bulls with RFI EPDs. We would expect bull X's calves to eat 0.65 kg more feed per day than the average calf his size, bull Y's to eat 0.35 kg less feed per day than the average calf his size, and bull Z's to eat 0.42 kg less feed than the average calf his size. Based on these numbers, we would obviously rather chose bull Z as a sire.

Bull ID	RFI EPD	RFI Acc
X	0.65	.25
Y	-0.35	.35
Z	-0.42	.20

Another consideration is the accuracy of prediction in selecting animals. While bull Z is more efficient than bull Y, his accuracy is also lower meaning we're less sure about his EPDs.

If we are in a situation when we would like more accuracy in our selection, we may select bull Y since his feed efficiency EPD is close to bull Z's but his accuracy is much higher.

Single trait selection is always a bad idea. RFI is no exception to this rule. Selection for RFI should always be done in conjunction with selection for growth. This selection for growth can be done by looking at weaning weight, yearling weight, or post wean gain EPDs. This will allow breeders to pick animals that gain the most while consuming the least amount of feed.

Fleming & Long Insurance Agency

Jesse Fleming, Agent

406-653-2200 office • 406-697-8011 cell • jfleming@nemont.net

Option 1 - **Bull Mortality and Infertility Coverage**

Values: Not to exceed purchase price

Term: One Year Policy Term

Premium: 10% of the Purchase Price for Broad
8.0% of the Purchase Price for Limited

Testing: All bulls must be tested, certified and listed in the official catalog of a herd sale.

Full Mortality 100% of the value of the bull in the event of death or humane destruction as a result of a life-threatening injury.

Infertility Broad-Accident, Sickness & Disease (ASD)
80% of the value of the bull, less salvage value, in the event of permanent impotency, infertility or being incapable of servicing females as a result of an accident, illness, or disease sustained during the policy.

Limited-Accident, Sickness & Disease (ASD) 100% of the value of the bull, less salvage value, in the event of permanent impotency, infertility or being incapable of servicing females as a result of an accident illness, or disease sustained during the policy. Losses from freezing an frostbite are excluded.

Option 2 - **Bull Mortality Coverage**

Values: Not to exceed purchase price

Term: Renewable One-Year Policy Term for Bulls 6 months - 7 years of age

Premium: 5.5% of the Purchase Price
\$200 Minimum Premium Per Policy

Testing: Signed statement of health coverage required for all bulls for which coverage is requested. Veterinarian examination required on bulls of \$50,000 or more.

Full Mortality

100% of the value of the bull in the event of death or humane destruction as a result of a life-threatening injury.

Insurance coverage is underwritten by Catlin Indemnity Company and Catlin Insurance Company Inc.

Mary McDonnell von Forell Scholarship

Each year we award one junior with the high performing bull from all breeds with a \$500 scholarship from our family. This scholarship is named in remembrance of Mary, Steve's aunt and Leo's sister, who passed away from cancer. She is dearly missed. She was a huge supporter of youth.

Purchase of 10 or more bulls gets FREE delivery in the continental US.

All deliveries are to a central point.

MIDLAND BULL TEST

On behalf of all our seedstock producers, we thank you for coming to the sale!

***We dedicate these pages to our Customers and Employees, Family and Friends
You are very appreciated!***

Midland Bull Test was started by Leo Sr and Grandma Donna in 1962. It has grown thanks to the dedication, trust and support of our customers. We are very proud of the bulls we get to develop and the consignors with whom we get the privilege of working with. Thank you consignors for trusting us with your bulls and thank you buyers for your confidence in the cattle and loyalty to our program.

At the end of the day, we tremendously value the crew we have and how hard they work. We ask a great deal of them. THANK YOU!

To name a few, we are extremely grateful to . . .

- ☺ My Children, Guy, Gray, Ten – They help whenever asked and usually with a smile no matter the time of day or the task. They spend countless hours working bulls, helping with the cows, checking calves, irrigating, roping goats and waiting patiently in the office. They are the love of my life.
- ☺ Leo & Sam – Thank you for all your help and counsel and offering to assist in any way you can!! This is more appreciated than you know!!
- ☺ Steve Watt – For feeding, equipment maintenance, working the bulls, and your fantastic attitude all the while.
- ☺ Ty Hegstrum – for managing herd health, feedlot maintenance, and so much more
- ☺ Jacob Ward –For helping with programs, reports, data entry, catalog, genetic defects and trucking.
- ☺ Sheila Hildebrand – For gathering and managing the bull information and all the details to keep the paper work straight!!
- ☺ Jillann Knutson – Book keeping and keeping it all straight!!
- ☺ Jonn Beer & Carli Davis – Thank you for helping get ready for sales and weighing bulls.

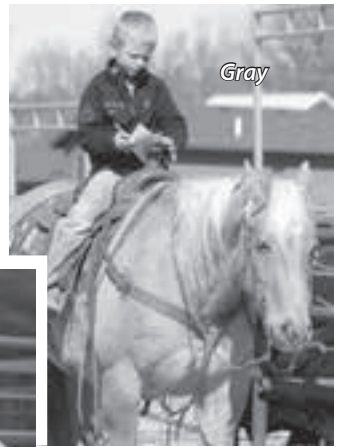

Ballyhoo Printing Crew

Griff & Steve

Bob

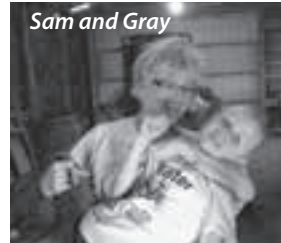

Gray

Ty

Jillann

Sam and Gray

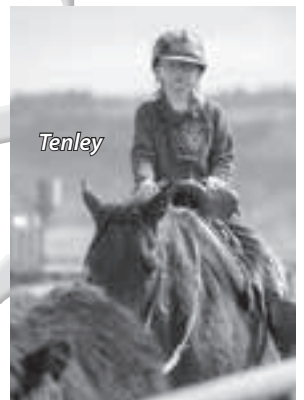

Jacob

Leo

Guy

Tenley

- ☺ Bob Chamberlin – Thank you for helping in so many ways—weighing, videoing, farming, packing silage, etc. It is appreciated!!
- ☺ Gerri Campbell and the Ballyhoo Printing Crew for the countless hours spent putting together this catalog and data acquisition for reports and catalogs.
- ☺ Dr. Kerley & GrowSafe (Kevin Garossino) – For analyzing our efficiency data.
- ☺ Dr. Chris Heddins – For nutrition advice.
- ☺ Bryan Roe, D.V.M. - For semen testing and managing our feedlot health.
- ☺ Garth Lee - For single handedly managing the Diamond Y Feedlot, the feedlot we lease for developing heifers, feeder calves and bulls, and helping prepare MBT for the calves in the fall.
- ☺ Russel & Mary Tempel – For coming from South Dakota and helping prepare for every sale.
- ☺ Kate Roberts – For taking pictures and creating our ads.
- ☺ Ryan & Lindsey Clark – For helping at various times and with the press releases.
- ☺ Matt and Jaime Lane - for ultrasounding more than 2000 head for us this season
- ☺ Frontier Stockyards, Scott Fraser – For filming the sale bulls & all the help on the phone.
- ☺ Tanner Jensen and crew for clipping bulls
- ☺ Griffel Family (Jonathan, Dena, Will, Jake, Alaina) - For helping with every sale, hauling feed, farming, basically whenever with whatever
- ☺ Roger & Wendy Doely - For helping work every sale we have here.
- ☺ Kayla Nelson – Coming every year from Minnesota to help clerk and dance with the kids :)
- ☺ Doug & Sharon Stevenson Family – for helping proof the Midland catalog.

To all of you, I offer my thanks.
Steve

Thank You!

Reading the Lot Data

Animal Information

calved - Birth Date. % - Breed Percentage. *color* - Animals hide color.
P/H/S - Polled/Horned/Scurred. *tattoo* - Ear tattoo.
reg - Registration Number given by respective Associations.

GrowSafe Feed Efficiency Test

Bulls are denoted as *(group 1) or *(group 2). RFI is given here in the test data, complete efficiency test results are available at www.MidlandBullTest.com.

Final Test Report

ADG - Average Daily Gain.
ADG Rat - Average Daily Gain Ratio. 100 is average.
365 Wt - $(((\text{Current Wt} - \text{Weaning Wt}) / (\text{Date Current Weight Date} - \text{Date of Weaning})) \times 160) + 205 \text{ day Wt}$
YR - Yearling Ratio. Index of 365 Day Weights within class. 100 is average.
WDA - Actual Weight Per Day of Age (Lifetime ADG).
RFI - Residual Feed Intake / Net Feed Intake. (Actual feed intake minus expected feed intake)
RFI EPD & DMI EPD - See page 8
Efficiency Ratio - Optimizes balance between performance and efficiency. It measures how efficiently the caloric content of feed is converted to pounds.
Final Wt - Final Test Weight.
MBT Ind - Combined ADG, Nursing Ratio, Yearling Ratio and Efficiency ratios ($1/4 \text{ ADG} + 1/4 \text{ NR} + 1/4 \text{ YR} + 1/4 \text{ ER efficiency ratio}$)
Scrtl - Scrotal Circumference measured in centimeters and semen tested by Bryan Roe, DVM, Elite Bovine Veterinary Service, Inc.

Pre-Test Animal Data

BW - Actual Birth Weight.
WW - Actual Weaning Weight.
205 Wt - Weaning Weight Adjusted to 205 days.
NR - Nursing Ratio, an index of the adjusted 205 day weight within the breeders herd only. It is an indication of the dam's maternal performance and the bull's preweaning growth.

EPDs (Expected Progeny Difference)

EPDs - The prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. **You cannot compare EPDs across breeds.** Each breed association calculates that breed's EPDs. See averages below.
BW - Birth Weight EPD, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.
WW - Weaning Weight EPD, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.
Milk - Maternal Milk EPD is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.
Year - Yearling Weight EPD, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.
Other Production, Carcass and Ultrasound EPDs vary among the breeds, see below.

EPDs (Expected Progeny Difference)

CED/CE - Calving Ease Direct is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers. It predicts the average difference in ease with which an sire's calves will be born when he is bred to first-calf heifers.
Scrotal/SC - Scrotal Circumference EPD, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.
TM/MWW/M&G - Total Maternal, Maternal Weaning Weight EPD measures a sire's ability to transmit milk production and growth rate through his daughters. It predicts the weaning weight of a sire's daughters' calves. It is equal to his Milk EPD plus one-half his weaning weight EPD.
CEM/MCE - Calving Ease Maternal is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.
Marbling - Intramuscular Fat EPD is a predictor of the difference in a sire's progeny for percent intramuscular fat in the ribeye muscle compared to other sires. (Angus, Red Angus and Simmental give ultrasound derived EPDs)
REA - Ribeye area EPD is a predictor of the difference in square inches of ribeye area of a sire's progeny compared to the progeny of other sires. (Angus, Red Angus and Simmental give ultrasound derived EPDs)
Fat - Fat thickness EPD, expressed in inches, is a predictor of the difference in external fat thickness at the 12th rib of a sire's progeny compared to the progeny of other sires. It includes the weighted average of 60% of the rib fat measurement and 40% of the rump fat measurement. (Angus, Red Angus and Simmental give ultrasound derived EPDs)
CW/CWT - Carcass Weight EPD, expressed in pounds, is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.
\$B - Beef Value, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.
FPI - Feeder Profit Index, an economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.

Breed Association EPD Averages for Non-Parent Bulls

	BW	WW	Milk	YW
Angus	1.4	49	23	88
Gelbvieh bal	0.1	65	26	99
non bal	1.3	67	29	94

	BW	WW	Milk	YW
Hereford	3.3	47	19	72
Red Angus	-1.5	58	20	89

	BW	WW	Milk	YW
Salers	2.0	33	18	64
Simmental	1.8	63.1	21.7	92.1
South Devon	2.6	34	20	66

Low Birth Weight Groups

The Angus bulls are split into two groups with the green tags consisting of bulls that are at or below breed average of +1.8 for BW EPD and 84 lbs and under actual birth weight. This is just a guideline to identify those lower BW bulls that may be suitable for use on heifers but is in no way a guarantee that they would work as calving ease bulls. You still need to check them out phenotypically and make sure they meet your criteria to work on heifers.

Angus EPDs are current as of 3/4/16.

Class splits for green tag / white tag divisions were made based on 2/4/16 EPDs.

Follow this code or visit www.Angus.org to view current EPDs.

We have been greatly impressed with the sire of Lot #9. MCR Horizon progeny have been thick and good tempered. Many of the heifers were kept as replacements.

Lot 27 is out of a super feminine female who was my pick of the heifer calves selling at the Trowbridge Female Sale in Denver. She has never missed an AI; has great feet, legs, & udder; and, has a wonderful disposition. Her 2 bull calves have been low birth weight standouts with excellent muscling. Lot 27 followed suit from day one, and we are excited about his potential!

Denver was the lead off bull of the Grand Champion Carload at the 2013 Denver Stock Show & later sold 1/3 semen interest for \$340,000. This bull is a Curve Bender combining calving ease with extraordinary growth. His dam is a beautiful cow that has just joined our donor program. A maternal brother was a high seller in the 2015 Iowa Cattlemen's Bull Test. He has an extremely unique combination of muscle dimension, squareness of rump, super rib volume and shape, with fault free movement.

Selling 2/3 Interest and Full Possession

A high performing son of the National Western Champion, Dameron First Impression that stems back to 2 very prolific calving ease bulls SAV Brilliance and SAV Bismarck, both highly proven for low birth and high growth. His dam, a Pathfinder® cow, has a beautiful udder, is deep bodied, and structurally correct. A 3/4 maternal sister was Res Champion Cow/Calf at the 2014 Iowa State Fair. This bull is long bodied, big topped, with a ton of muscle and lower quarter.

This bull will be one of high ratioing marbling bulls at MBT...6.26% adj IMF ratio 141! With a MB EPD 1.27 Top 2% of breed! He is Top 5% for WW & YW (confirmed by DNA of 4% and 5% respectively). Top 5% CW, \$W Top 15%. Top 1% \$QG and 3% \$B. He comes out of one of our foundation donor cows...9403 is a pathfinder and flush sister to the #2 get-of-sire at the 2010 MBT sale! She is out of our now famous "903" cow that is the granddam of 133 and lot 139 (These two bulls are 3/4 bros). '9403' produced an \$8000 bull at 2015 MBT.

Highest NR/WW in our pen at 113 (27 in cont grp). He is a 3/4 bro to Lot 133 descending from the "903" granddam. This is another WTR bull that hits a lot of the top marks for a herd bull. Carcass: 5.05% IMF ratio 113 and REA 13.3 ratio 112. He is Top 20% for 11 economic traits, including Top 2% for WW; MB; SQG; and \$B. He is Top 5% in YW. And Top 10% in CW; \$W; \$F; \$G. Granddam is mother of #2 get-of-sire in 2010 MBT sale and dam of pathfinder 9403, dam of lot 133. Sire of this bull's dam goes back to the Sitz matriarch, Sitz Everelda Entense 1137. Power, carcass, maternal. Herd bull prospect.

He is an super stout, big bodied son of Insight with a picturesque phenotype and comes from one of the strongest maternal cow families in the breed. He sports a 205-day weight of 894 lbs! His moderate, perfect-uddered dam by Brand Name is a model of efficiency. Two full sisters are retained in our herd. Maternal brother to Lots 250 and 253.

A super complete Ten X bull who puts it all together phenotype, performance, EPDs and cow family strength. This bull has the ability to add extreme performance to a set of feeder calves. Their dam is a supper uddered, moderate made female that is sure to make a lasting impact to our program and yours. Flush brother to Lots 252 and 254.
Selling 2/3 Interest and Full Possession

With grand admiration and fond memories, we honor the life and legacy of Pat Goggins.

Midland is ever thankful for the support and friendship of an amazing visionary in the cattle industry! Mostly...we are honored to call you friend and we smile as we remember the man.

Here's to a man who put first things first...family...Christianity and business; one who carried the torch of leadership; one who understood difference between rights and responsibilities; and one who used his voice to support the industry that he loved.

On a lighter side...ol' Pat...you may have met your match! We smile as we imagine two ol' boys in heaven bickering about who holds the plans to the better bovine.....

Pat sold our 1st bull sale in 1962! He was a great friend and mentor to our family!

 This bull comes from a cow family with longevity, thick made, easy fleshing, nice udder daughters. Always calving unassisted. Several offspring from the grandam were champion steers at the county 4-H shows.

Mat Grandam Prod - 5 NR 105 4 YR 104

I purchased my first registered Angus heifers the fall 1951. This is the first time that a first calf heifer has weaned a bull calf weighing more than 800 lbs. Our Objective UO23 daughters and sons are excellent producers.

 Considered by many to be the best bull in our MT Angus Tour display. This docile Active Duty X Dame HERDSIRE prospect is a powerhouse and was the top weaning calf of his cont. group. His power is confirmed by his 7% wean and 4% yearling 50K genomic scores. Active Duty has been well received in MT with sons topping sales. We feel 511C is an elite genetic package. Owned with Jim Micheals.

Lot 489 is a calving ease prospect that came off his dam at 223 days weighing 774 lbs on hard grass and mother's milk. His sire VDAR Really Windy 7580 has been an excellent investment for us in terms of siring fast growing, eye appealing calves. We have retained almost all of his daughters in our herd and they are making excellent brood cows. Featured sires in lot 489's tabulation are breed greats Really Windy 4097, Right Time, Traveler 004 and Danny Boy.

Mat Grandam Prod - 5 NR 102
This stretchy outcross powerhouse will put pounds on the scale plus leave a beautiful set of daughters. His deep bodied nice uddered dam could be the poster cow for the Angus breed. His weaning EPD puts him in the top 2% of the breed and backed by an actual 826 weaning weight.
Selling 2/3 Interest and Full Possession

Net Worth 504 is a product of over 50 years performance selection. He is a line bred Net Worth son with multiple Pathfinder® sires and dams. His early growth on a fescue grass management program demonstrates his ability to grow under harsh conditions. This structurally correct bull will add frame, along with maternal and carcass traits, that few bulls offer.

Lot 675 is the grand daughter of a flush sister to Everelda Entense 028 and a great grandson of Everelda Entense 1137. This bull brings a positive \$EN of over 2 which demonstrates his low maintenance cost and easy fleshing. The Sire EXAR SEMA is a young sire selected for his overall profitability index which optimizes the cost of production and premium value through harvest. This should be a bull that maximizes your investment in a commercial herd.

Emblaze P203 has always been a favorite since he was a baby. His dam weaned him off at 63% of her weight with a ratio of 114. It will be hard to find this much calving-ease, growth, and carcass merit in an Emblazon pedigree anywhere.
Selling 2/3 Interest and Full Possession

“For the past five years, we have been developing our replacement heifers and supplementing our cows post calving on **SweetPro tubs** and **Redmond salt** with great success. In addition to the hay savings we have experienced, the general health and fertility has also seemed to improve. I am a real believer in the benefits of the added enzymes and probiotics contained in the **SweetPro tubs.**”

— **Jason Harrison,**
Harrison Angus Ranch, Boyd, MT
2012 & 2013 Midland High-Selling Bull.

“IF YOU’RE STRIVING FOR COMMODITY BEEF, YOU’RE LOSING GROUND. GENEMAX HELPS US BUILD BETTER RETURNS.”

DEVIN STEPHENS
COMMERCIAL COW-CALF PRODUCER
FOOTHILLS RANCH, SOUTH DAKOTA

More efficiently building better-than-commodity beef starts with more informed selection and mating decisions. Visual appraisal doesn't tell the full story. To really know that you've selected the right replacement heifers use GeneMax[®] Advantage,[™] then use the learnings to buy complementary iSOK[™]-tested bulls based on superior GE-EPDs.

Profit Simplified...

Multi-breed EPD base simplifies selection

Since 2010, the Red Angus Association of America (RAAA) and the American Simmental Association (ASA) have combined their growth and carcass datasets to provide commercial producers with the most reliable EPDs in the beef industry. In the summer of 2012, RAAA and ASA adopted a common base for Growth (BW, WW, YW, Milk) and Carcass (MARB, YG, CW, REA, FAT) EPDs so that all animals registered in either RAAA or ASA can be directly compared – regardless of breed makeup.

What is BASE?

For decades, each breed association has presented EPDs in their own language (the base). Base is no more than a reference point for any trait against which subsequent generations of animals are compared. The establishment of a base ensures that the population future generations are compared to remains stable, which allows the breed's genetic trend to be accurately identified.

Raw Genetic Value + Base Adjustment = Published EPD

Study Percentile Ranks...

Percentile ranks are an easy reference and therefore a powerful tool to assist you in becoming accustomed to the new multi-breed base. Red Angus EPD percentile ranks are presented along with all active animals' EPDs, and reference how animals compare within their respective Red Angus subpopulations, i.e. Sire Summary Sires, Active Dams, Non-Parent Bulls, etc. It's important to realize that although the multi-breed base allows for the direct comparison of Red Angus and Simmental EPDs, the percent ranks for Red Angus animals will continue to simply compare the genetics of Red Angus animals against other Red Angus. Thus, an animal that was in the top 10% for growth under the old Red Angus base will still be in the top 10% for growth in the new Red Angus multi-breed base.

Example:

In the past, you preferred to purchase bulls that had a -2.0 or lower BW EPD.

Since a -2.0 on the old RAAA base represented the top 20% for BW, you now need to use -2.7 as your critical selection threshold as that represents the top 20% for BW on the new multi-breed base.

Other Examples:

Previous Selection Threshold Old RAAA Base		New Selection Threshold New Multi-Breed Base	
EPD	% Rank	EPD	% Rank
36 WW EPD	40%	58 or higher WW EPD	40%
0.08 MARB EPD	50%	0.38 or higher MARB EPD	50%
0.24 REA EPD	20%	0.30 or higher REA EPD	20%

Here is an opportunity to acquire an LSF JBOB EXPECTATION 6034S son! This bloodline has been proven to excel in the truly economic relevant traits. His dam is a 10 year old matron of sound feet, legs and udder. Should be a herd building prospect here!

The sire is a paternal grandson of Mytty In Focus. The dam by Conquest is a first calf heifer. Lot 800 is in the top 23% for Herdbuilder; top 7% for Gridmaster; top 15% for CED; top 25% for BW; top 7% for WW; top 3% for YW; top 7% for Milk; top 5% for CW; top 26% for Marb; top 21% for REA. He is just what the doctor ordered - calving ease with tremendous growth - a rare combination!

Dam MPPA 99.27

Lot 801's sire has been one of the most popular and heavily used bulls in the breed with sons topping sales across the country. The dam has a disposition of a kitten - loves to be scratched. Lot 801 is in the top 11% for Herdbuilder; top 2% for Gridmaster; top 5% for CED; top 8% for BW; top 10% for WW; top 6% for YW; top 13% for Stay; top 15% for Marb; top 27% for CW and top 19% for REA. He will have more frame and a lot more performance than his sire while still maintaining calving ease.

The AI sire, Mission Nexus 1378, is described as a bull with power, shape, length, performance with a moderate birth weight. He was the first ever Red Angus bull to outsell all Black Angus in one of the elite and most successful marketing programs in the western US, Silveria Bros, Firebaugh, CA. He is in the top 1% for yield grade and ribeye.

Sustained Fertility

It matters in your females and it matters in your bulls. Salers will challenge any breed for superior fertility and unmatched longevity in females plus serviceable years in our bulls. Sustained fertility is what the Salers breed offers. Bred up as yearlings, two's three's and beyond. As a producer, you control the costs it takes to get a female into production. With Salers you "Keep Her in Production."

The Continental Breed with the MOST Calving Ease and the MOST Marbling.

We're Still the ONE

SALERS

Best of breed – the new GGP-LD and GGP-HD 150K

The GGP-LD is the most popular, most powerful and most accurate low-density genomic DNA profile for seedstock. That's why Midlands Bull Test counts on the GGP-LD to deliver reliable predictions of performance on the bulls we manage. This powerful insight with GGP will help you select the bulls you need to speed genetic progress in your operation. We go GGP for best of breed performance, so you can too.

Special offer on sale day:

See Neogen® GeneSeek® booth for Igenity® DNA profiling coupon. Buy 4 Igenity profiles, you get a 5th test free (Offer good for up to 5 free profiles, value up to \$200!).

Dam is a terrific first calf, fall heifer by W810 with a beautiful udder. First calf indexed 117. Sire is one of our favorite bulls combining light birth, moderate frame and fast growth. Semen recently sold to Deseret Ranch in Florida for use in the composite program.

Every time I see a W810 son or daughter I thank Tony Mathis of MMM for offering him to MJB. He does it all and is now seeing breed-wide use. Sire of lots 1034, 1036, 1038, 1039. Also check several lots out of his young daughters.

DLC Shilo Lad 3112 covers all the bases, birth, growth, milk and carcass. Excellent set of calves from 2nd calf heifers. Sire of lots 1039 to 1044.

Midland Bull Test started incorporating Endovac in the vaccination protocol at processing time in 2013 and has never looked back. Since utilizing Endovac, the number of retreats and chronics has dropped drastically and the usage of antibiotics has decreased as

well. The first year using Endovac, the overall **antibiotic bill was reduced by 35-40%** and has held at a similar number each year since. Endovac has a lot of offer not only to the feedlot industry but the cow/calf segment as well. With Endovac's unique properties, it is a big component of the vaccination program against gram negative

bacteria which can create havoc if not managed and Endovac covers a broad range of gram-negative bacteria in a single shot. Not many pasturella vaccines that are currently available provide coverage over both pasturella strains whereas Endovac covers both strains along with all the other benefits, not to overlook the **Immune Stimulant advantage that cranks up the Immune System** and helps with overall response to disease and even treatment, allowing for better overall health in general.

Endovac is implemented at processing time and at booster time along with pre-breeding shots at fertility testing time at Midland. I have also incorporated it into my cow and calf vaccination protocol and have seen many benefits of it.

ENDOVAC-Beef®
with Immune Plus®

Furthermore, some of the herds that test their bull calves here at Midland have incorporated it into their regimens as well and the **overall health and performance has been markedly improved.**

-Steve Williams
