IOWA STATE TRAVELING LIBRARY

JAMES W. GRIMES, THIRD GOVERNOR OF IOWA. 1854.

FIGHTH YEAR.

# IOWA J.Kens

# OFFICIAL REGISTER.

PUBLISHED BY THE

SECRETARY OF STATE.

BY ORDER OF THE GENERAL ASSEMBLY.

# Introductory.

THE IOWA OFFICIAL REGISTER, compiled and published for the past few years through the State Department, was, by an act of the Twenty-fourth General Assembly, made a State document; thus its future publication was assured and its distribution definitely provided.

Heretofore the editions have been limited to comparatively few volumes, consequently their judicious distribution, placing them where they would accomplish the most good, was a task not easily executed; hundreds of applications for the book have been rejected because the edition was inadequate to meet the demand, and a newspaper notice from persons wishing to purchase one or more copies to complete the set, is not unfrequent.

The marked approval of the Official Register by the newspapers of the State, as well as by scores of letters from individuals who regard it as invaluable in their business relations, is of itself a matter of pride to the department, as well as a reasonable motive for its existence.

The following is the act of the General Assembly:

#### CHAPTER 64.

PRINTING AND DISTRIBUTION OF IOWA OFFICIAL REGISTER.

AN ACT to provide for the printing and distribution of the Iowa Offical REGISTER.

Be it enacted by the General Assembly of the State of lowa:

SECTION 1. That the Secretary of State is hereby authorized and directed to compile and publish annually, ten thousand copies of the Iowa Official Register, to contain historical, political, and other statistics and facts, of general value, but nothing of a partisan character.

- SEC. 2. The distribution for the year 1893 shall be as follows: To members of the Twenty-fourth General Assembly, forty copies each; the balance to be distributed to the newspapers of the State, to county and school officers, school principals, public libraries, colleges, seminaries, and State institutions, and other citizens or institutions, either private or public, at the discretion of the Secretary of State. After 1893, the distribution shall be made as above, except as to the members of the General Assembly, which shall be to the members last elected.
- SEC. 3. The cost of said printing and binding shall not, in any case, exceed the legal rate for printing and binding as established by law, and the bill for the same shall be audited by the Secretary of State and approved by the Executive Council.

Approved March 26, 1892,

The Iowa Columbian Commmission, the first in the field secured by its committee, the first choice of ground for an Iowa building and exhibit. The site selected is pronounced the most inviting offered in the six hundred acres of beautiful parks selected for the great fair. The Iowa Commission desires to so add to its beauty by an exhibit of the excellencies of Iowa as to make it supremely attractive. Given a liberal appropriation by the Twenty-fourth General Assembly and the harmonious co-operation of the people of Iowa, the Commission is assured that the people will not only derive unspeakable pleasure from the exhibition, but also supreme advantages to their business interest and their social life. The wise improvement of this opportunity will be to Iowa a great educational, industrial and social blessing.

Appropriation by the Twenty-fourth General Assembly, \$125,000.

### HISTORICAL DEPARTMENT.

This department was established by act of the Legislature of 1892, for the purpose of promoting the collection and preservation of historical materials relating to Iowa and the territory out of which it was established. Chapter 64, Acts of the Legislature of 1890, had taken the first step in the direction of the "collection and preservation of historic records and other valuable material pertaining to the history of Iowa," but made no assignment of rooms in which they should be kept. The act of 1892 set apart for this purpose the three southeast rooms in the basement story of the Capitol, which had been designated for a like purpose in the original plan of the edifice. These rooms, three in number, are abso-

lutely fire-proof, making a safe depository for the valuable collections now being made.

It is desired to collect here all written or printed documents relating to early settlers and settlements in Iowa, the organization of new counties, the laying out of towns, the origin of the names of rivers, lakes, townships, counties, and cities; early maps of counties and of the Territory or State; county histories and directories of towns or cities; biographies of notable men and women, the personal recollections of pioneer settlers and of the soldiers in any of our wars; together with facts of public interest relating to political parties, conventions, and campaigns; brief histories of the founding of academies, colleges, newspapers, agricultural and other industrial schools, railroad enterprises, etc. Special efforts are being made to secure files of early newspapers and other publications, together with all Iowa public documents prior to 1860. copies of early Iowa newspapers are solicited and will be carefully preserved, as well as clippings from such papers of articles referring to matters of early Iowa or western history.

An effort is being made to collect data for the history of the various religious bodies within our State—as books, documents, reports, regular or special, files of papers, original biographical memoirs, circulars, etc. The Episcopalians, Baptists and Congregationalists, have contributed liberally towards building up this work, and it is believed that all others will ere long be well represented in these collections.

"The Aldrich Collection" of Autograph Letters, Manuscripts and Pertraits, which was kept in the State Library up to July 1, 1892, now occupies one of the rooms in the Historical Department. It is still growing rapidly, valuable additions being made to it every month. Oil portraits, busts, engravings, etchings, photographs, and other works of art, now form interesting features of this widely known and popular collection.

Among the most notable recent gifts to this collection may be mentioned the following: Files of the Dubuque Herald for almost forty years, by the publishers, Messrs. Ham & Carver; files of the Boone Democrat and Standard, for nearly 25 years, by the publishers, John Hornstein, Esq., and Hon. John M. Brainard; files of the Charles City Intelligencer, for twenty years, by the founder, Hon. A. B. F. Hildreth; files of The Hamilton Freeman for ten years, by

Will F. Smith, Esq., one of the publishers; a magnificent oil portrait of Rt. Rev. Henry W. Lee, first Protestant Episcopal Bishop of Iowa; the commissions held by Hon. John A. Kasson and Ex-Gov. C. C. Carpenter, with large selections from their private and official correspondence. A complete set of the War Records, from Hon. James F. Wilson, United States Senator, also, a set of documents and reports complete from 1872, of the Indian Bureau, from Hon. Hiram Price.

#### IOWA: CAPITOLS.

#### (See Illustrations.)

Belmont, the first capital of Wisconsin Territory, was at the time, 1836, but a small village situated in Iowa county (the site is now in Lafayette county) in the southwest division of the territory. In another part of this volume an engraving faithfully represents the capitol building, then used for the meeting of the first Wisconsin legislature. Here the oath of office was administered by Governor Henry Dodge, for the first time to representatives from counties lying in territory now covered by the jurisdiction of Iowa; six members of the Council and twelve members of the House of Representatives, having been chosen from the two counties of "Demoine" and Dubuque, at the previous November election. Here also was delivered to the two houses jointly assembled, the Governor's first message.

Peter Hill Eugle, a representative from Dubuque county, was elected Speaker. The session continued from October 25, to December 9, 1836. During the session a proposition was made by Representative Jeremiah Smith, Jr., of "Demoine" county, to remove the seat of government from Belmont to Burlington, and on December 3, 1836, an act to that effect was passed, the capital was removed, and to-day the site once so prominent in the early history of lowa, is occupied by fields of grain.

The second session of the Wisconsin legislature met in Burlington, November 6, 1837, continuing until January 20, 1838. The two counties of Des Moines and Dubuque captured the two leading offices. Arthur B. Ingram, of the former county, was elected President of the Council, and Isaac Leffler, of the same county, Speaker

of the House of Representatives. A two story frame buil about forty by seventy feet in size, had been erected on Water street, between Columbia and Court, for the accommodation of the legislature, and in this building a few sessions were held until the night of December 10, when the building was destroyed by fire. The session was continued by the Council meeting over the store of M. M. McCarver, and the House of Representatives occupied a room over Weber & Remy's store.

July 4, 1838, Iowa was organized as a separate Territory, and Burlington continued as the capital. Here on November 12, 1838, convened the first territorial legislature. It was in "Old Zion" church that the two branches of the legislature held their sessions both in 1838 and 1839, and the House in 1840, the Senate in the latter year meeting in the old Catholic church. This "Old Zion" had only been roofed in the summer of 1838, when the territorial officers rented it for the use of the legislature and advanced funds for its completion, so that it was in a state of readiness for occupancy in November of that year. It was the first brick church in Iowa. In this church was also held the Supreme Court of Iowa Territory, and the District Court of Des Moines county. Here in 1840, was held a great Indian Council between Governor Lucas and the Chiefs of the Sac and Fox tribes. The Council concluded with a great war dance.

A few years ago the proprietors of the opera house purchased the lot and building and had the building torn down and the Grand Opera House of Burlington erected upon its site.

The third picture in the group represents the first building erected in Iowa City for a capitol, and was built by one of its citizens, Walter Butler. The legislature held its session in this building in the winter of 1841, while the stone building, now the central hall of the University, was being erected. Rooms in the new capitol were in a state of readiness and occupied the succeeding session, when the Butler building, being private property, was used for other purposes.

Mr. Butler had erected it under provision of an act declaring that the Governor should call the session of the legislature at Iowa City whenever the citizens should have a building erected for the accommodation of the legislature and territorial officers. This building has been torn down during the past few months and a new, fine building erected on the site. The picture, of course,

represents the building as it appeared just previous to its destruction.

Between the double door and the window upon the right there was a partition, extending across the building, the building fronting lengthwise upon Washington street.

The Secretary of State had an office upon the west side of the building, while the Council chamber was to the right. There was also a front entrance to that. The hall of the House of Representatives was upstairs. The building was used also by the Supreme Court and the District Courts for a time.

The fourth picture represents the old capitol building, now central hall, or stone building of the University group, which still stands. The plan for this building was drawn by Rev. Samuel Mazzuchelli, and on July 4, 1840, the corner stone of the building was laid, Governor Lucas delivering the address. The building however, was not completed until late in 1855, at a cost of about \$123,000. This building was first occupied by the Fifth Territorial Assembly December 5, 1842. Ten regular legislative sessions and three constitutional conventions have been held within its walls; here, to, occurred the stormy debate relative to the change of capital from Iowa City.

The fifth illustration is of the first State capitol at Des Moines. The following description is clipped from the *lowa Citizen* of 1856:

"This magnificent superstructure was commenced last July under the supervision of the 'Capitol Building Committee,' Messrs. Bryant and Hyde, contractors. Below we give the dimensions of this edifice as we obtained them from a reliable source. superb building is composed of brick, with window sills and foundation of cut stone. The dimensions of the capitol are one hundred and fifty long, and fifty six feet wide. The first story is eleven feet and a half high, the second twelve, and the third eighteen feet. The Senate Chamber is fifty-six feet long by thirty-four wide. Representative Hall is fifty-six feet long by fifty wide. The Supreme Court room is fifty feet long by twenty-four wide. State Library room is thirty-four by twenty-four, and the State office rooms are each twenty-four by twenty-three feet. The building is roofed with tin, and the style of architecture is Ionic. height of the dome is eighty-five feet. A bell has been contracted for, weighing fifteen hundred pounds. There is a fire proof vault the dimensions of which are nine by eleven feet. The building will be completed by May, 1857. It will be a substantial and magnificent structure, and will reflect credit upon the enterprise of our citizens, and on our youthful but flourishing State."

A few years later this building was rebuilt by raising up and placing underneath a basement story, also by raising the roof and replacing the tin covering by shingles, and is the subject of one of the illustrations. This building was burned in 1892.

The new capitol, illustrated on the title page of this volume, is familiar to all. It is one of the finest in the Union and was built at a cost of nearly three million dollars.

# LAWS OF THE TWENTY-FOURTH GENERAL ASSEMBLY.

### CHAPTER 72.

#### REVISION OF THE REVENUE LAWS.

(For Names of Commissioners see Page 6.)

AN ACT to provide a commission to studiously and carefully examine the revenue laws of the state and report necessary and desirable changes to the Twenty-fifth General Assembly.

WHEREAS, The methods of raising revenue are generally recognized as being burdensome, unequal, and unfair in their operations, and

WHEREAS, Some system of taxation should be devised that will command the respect and confidence of the people, and

WHEREAS, It is impossible to amend or change the present revenue laws without re-writing, revising and reforming the same, and such work is impracticable during a session of any general assembly, therefore:

Be it enacted by the General Assembly of the State of Iowa:

SECTION 1. That a commission consisting of four persons to be named by the Executive Council be and is hereby constituted to studiously and carefully examine the revenue and taxation laws of the State and report necessary and desirable changes to the Twenty-fifth General Assembly; provided, that not more than two members of the commission be of the same political party. That no member of the Twenty-fourth General Assembly shall be a member of the commission. And provided further, that the agricultural interests of the State shall be represented upon said commission in that ratio which the assessment of the agricultural property bears to the assessment of all other taxable property in the State as is shown by the assessment of 1891.

SEC. 2. That each member of said commission be allowed five

dollars per day for each and every day necessarily and actively employed on the subject, and necessary traveling expenses to be evidenced by vouchers, duly filed with the Secretary of State: provided, that no member of said commission shall receive pay for more than thirty days.

- SEC. 3. The Executive Council shall audit all bills connected with said commission and when approved the Secretary of State shall draw orders on the Auditor for the amount, who in turn shall issue orders on the Treasurer, who shall pay the same out of any funds of the State not otherwise appropriated.
- SEC. 4. Said commission shall begin its labors on or before August 1, 1892, complete its report and file same with Secretary of State by July 1, 1893.
- SEC. 5. The Secretary of State shall cause the report named in section 4 to be printed for information, and as soon as practicable, mail a copy to each member of the Twenty-fifth General Assembly.
- SEC. 6. Vacancies in said commission by reason of death, removal from the State, inability or refusal to act, shall be filled by appointment by the Executive Council.

## CHAPTER 71.

AN ACT to provide for a Geological Survey of the State of Iowa.

- SECTION 1. There is hereby created and established a geological survey of the State of Iowa, which shall be under the direction and in charge of the Geological Board, which shall consist of the Governor, the State Auditor, the presidents of the Agricultural College, the State University, and the Iowa Academy of Sciences.
- SEC. 2. The duties of the Geological Board shall be to have oversight and full control of the surveys, except as herein otherwise provided; to appoint a State Geologist, and such expert assistants, recommended by the State Geologist, as may be necessary to audit accounts; and to annually furnish for publication a report of the operations of the survey.
- SEC. 3. The duty of the director, for State Geologist, shall be to make a complete survey of the natural resources of the State, in all their economic and scientific aspects; including the determination of the order, arrangement, dip, and comparative magnitude of the various formations; the discovery and examination of all useful

deposits, their richness in mineral contents, and their fossils; and the investigation of the position, formation and arrangement of the many different ores, coals, clays, building stones, glass, sands, marls, peats, mineral oils, natural gas, mineral and artesian waters, and such other mineral materials as may be useful, with particular regard to the value of said substances for commercial purposes and their accessibilities; also the quasi noting of the characters of the various soils and their capacities for agricultural purposes; the growth of timber and other scientific or natural history matters that may be of practical importance and interest. A complete cabinet collection may, at the option of the board be made to illustrate the natural products of the State; and the board may also furnish suits of materials, rocks and fossils for colleges and public museums located within this State; provided, the general State collection is not made to suffer thereby.

- SEC. 4. It shall, further, be the duty of the State Geologist to make, or cause to be made detailed maps and reports of counties or districts as fast as the work is completed, which maps shall embrace all such geological, mineralogical, topographical and scientific details necessary to make complete reports of the said districts. Whenever the information obtained warrants it, the results of any special investigation of agricultural or geological phenomena shall be brought together in a memoir or final report for publication accompanied by proper illustrations and diagrams. On, or before, the first day of January of each year, the State Geologist shall lay before the Geological Board a full report of the work of the preceding year together with such minor reports and papers as may be considered desirable for publication. When occasion requires, important information may be issued in the form of special bulletins, for the immediate use of the people at large. From time time items of general interest, or announcements of new discoveries, may be furnished the newspapers or periodicals for publication.
- SEC. 5. The reports contemplated in this act shall, under the direction of the board, be disposed of as follows: 1. To each of the present officers and to each member of this assembly who shall annually send his address to the Geological Board, one copy of each published volume; and to each member of any future assembly, which shall authorize the publication of any report, one copy of such report shall be sent. 2. Twenty copies of each volume published shall be furnished to the State Library; ten copies to the

State Historical Society, State University, State Agricultural Society and State Horticultural Board; two copies to each chartered college and normal school in Iowa; and to the libraries of each State institution, the Iowa Academy of Sciences, Davenport Academy of Sciences, and to the general offices of each railroad that has furnished aid to the survey. 3. One copy of each volume to each public library, to the library of each academy or other educational institution, to each scientific society in the State, to each first class library, to each scientific survey or organization issuing regular publications beyond the limits of the State; and to each geologist of national reputation on receiving his written application therefor, 4. All remaining volumes, after retaining a sufficient number to supply future demands, shall be sold to persons making application for them at the cost price of publication of such volume, the moneys thus accruing to be turned into the treasury of the State.

- SEC. 6. For the purpose of carrying out the provisions of this act, the sum of ten thousand dollars, or as much thereof as may be needed, is hereby annually appropriated for the next biennial term.
- SEC. 7. The members of the board shall be allowed the actual expenses attending the duties assigned them by this act. The salary of the State Geologist and his expert and all other assistants shall be fixed by the Geological Board, and shall be a part of, and come out of the sum provided for in Section 6. The necessary postage, stationery and office expenses of the State Geologist shall be paid by the State as the expenses of other State officers are provided for. The expense of printing, engraving, binding and distribution of the reports of the survey shall be paid out of any moneys, not otherwise appropriated, in the State treasury, on warrants of the State Auditor, approved by the Geological Board.

#### REPUBLICAN PARTY.

NATIONAL TICKET, 1892.

For President.
BENJAMIN HARRISON
of Indiana.

For Vice-President.
WHITELAW REID,
of New York.

PLATFORM ADOPTED AT MINNEAPOLIS, JUNE 10, 1892.

The representatives of the Republicans of the United States, assembled in general convention on the shores of the Mississippi river, the everlasting bond of an indestructible republic, whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the nation under the banners inscribed with the principles of our platform of 1888, vindicated by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles:

First.—We reaffirm the American doctrine of protection. We call attention to its growth abroad. We maintain that the prosperour condition of our country is largely due to the wise revenue legislation of the Republican Congress.

We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be duties levied equal to the difference between wages abroad and at home.

We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the Tariff Act of 1890. We denounce the efforts of the Democratic majority of the House to destroy our tariff laws by piecemeal, as manifested. by their attacks on wool, lead, and lead ore, and we ask the people for their judgment thereon.

Second.—We point to the success of the Republican policy of reciprocity, under which export trade has vastly increased, and new and enlarged markets have been opened for the products of our farms and workshops. We remind the people of the bitter opposition of the Democratic party to this practical business measure, and claim that, executed by a Republican administration, our present laws will eventually give us control of the trade of the world,

Third.—The American people, from tradition and interest, favor bimetalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal.

The interests of the producers of the country—its farmers and its workingmen—demand that every dollar, paper or coin, issued by the Government shall be as good as any other dollar. We commend the wise and patriotic steps already taken by our Government to secure such an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

Fourth.—We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right, guaranteed by the Constitution: the free and honest popular ballot, the just and equal representation of all the people, as well as the just and equal protection under the laws are the foundation of our republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every State.

We denounce the continued inhuman outrages perpetrated on American citizens for political reasons in certain States of the Union. Fifth.—We favor the extension of our foreign commerce, the restoration of our mercantile marine by home-built ships, and the construction of a navy for the protection of our national interests and the honor of our flag; the maintenance of the most friendly relations with foreign powers, entangling alliances with none, and the protection of the rights of our fishermen.

Sixth.—We reaffirm our approval of the Monroe doctrine, and believe in the achievement of the manifest destiny of the Republic in its broadest sense.

Seventh.—We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

Eighth.—We favor efficient legislation by Congress to protect the life and limbs of employes of the railroad companies engaged in carrying inter-state commerce, and recommend legislation by the respective States that will protect employes engaged in inter-state commerce, and in mining and manufacturing.

Ninth.—The Republican party has always been the champion of the oppressed, and recognizes the dignity of manhood irrespective of faith, color, or nationality. It sympathizes with the cause of home rule in Ireland, and protests against the persecution of the Jews in Russia.

Tenth.—The ultimate reliance of free popular government is the intelligence of the people, and the maintenance of freedom among men.

We declare anew our devotion to liberty of thought and conscience, of speech and press, and approve all agencies and instrumentalities which contribute to the education of the children of the land; but, while insisting upon the fullest measure of religious liberty, we are opposed to any union of church and state.

Eleventh.—We reaffirm our opposition, declared in the Republican platform of 1888, to all combinations of capital organized to control arbitrarily the condition of trade among our citizens. We heartily indorse the action taken on this issue, and ask for such further legislation as may be required to remedy any defects in existing laws, and to render their enforcement more complete and effective.

Twelfth.—We approve the policy of extending to towns and rural communities the advantages of the free delivery service now enjoyed by the large cities of the country, and reaffirm the declara-

tion contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the postoffice department and the highest class of postal service.

Thirteenth.—We commend the spirit and evidence of reform in the civil service, and the wise and consistent enforcement by the Republican party of the laws regulating the same.

Fourteenth.—The construction of the Nicaragua Canal is of the highest importance to the American people, both as a measure of national defense and to build up and maintain American commerce, and it should be controlled by the United States Government.

Fifteenth.—We favor the admission of the remaining Territories at the earliest possible moment, having due regard to the interests of the people of the Territories and of the United States. All the Federal office holders appointed in the Territories should be selected from the residents thereof, and the right of self-government should be accorded as far as possible.

Sixteenth.—We favor the cession, subject to the homestead laws, of the arid public lands to the States and Territories in which they lie, under such Congressional restrictions as to disposition, reclamation and occupancy by settlers as will secure the maximum benefits to the people.

Seventeenth.—The World's Columbian Exposition is a great national undertaking, and Congress should promptly enact such reasonable legislation in aid thereof as will insure a discharge of the expense and obligations incident thereto, and the attainment of results commensurate with the dignity and progress of the nation.

Eighteenth.—We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

Nineteenth.—Ever mindful of the service and sacrifices of the men who saved the life of the nation, we pledge anew to the veteran soldiers of the republic a watchful care and recognition of their just claims upon a grateful people.

Twentieth.—We commend the able, patriotic and thoroughly American administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the nation at home and abroad have been faithfully main-

tained, and we offer the record of pledges kept as a guarantee of faithful performance in the future.

Resolutions adopted by the State convention, which met in Des Moines, March 17, to select delegates to attend the National convention at Minneapolis, Minn., June 10, 1892:

Resolved, By the Republicans of Iowa, in State convention assembled, that we enter upon the presidential campaign of 1892, with full confidence that the party, in its National convention, will make a declaration of principles and nominate a ticket in harmony with the Republican party, and that it shall be true to the present spirit, purpose and conviction of the party, and we hereby declare that there is no test of fealty to the National Republican party other than an adherence to its fundamental principles as announced in its national platform.

Resolved, That we cordially indorse the administration of President Harrison. It has been a worthy successor to the series of Republican administrations begun by Lincoln and which have made the last half-century of the republic free, united and prosperous to a degree unrivaled among the nations. President Harrison has kept every pledge made by his party; has maintained a sound policy at home and the national honor abroad. He has surrounded himself by a cabinet which has in every department deserved well of the party and of the country, and added new strength and laurels to American statesmanship.

Resolved, That we appeal to the Republicans in all parts of the State to unite, disregarding all local differences, and that on the platform of the national Republican convention the maintenance of protection, the full establishment of reciprocity as a policy of the government, which is one of the great achievements of Republican statesmanship, the elevation and prosperity of labor, the maintenance of a sound currency, every dollar of which shall be the equal of every other dollar, and in securing to all American citizens, white or black, their equal legal rights, the Republicans of Iowa shall re-establish its old political rank and make the State triumphantly Republican in November.

#### STATE PLATFORM-1892.

Resolved, That the Republican party of Iowa, in convention assembled, hereby ratifies in terms of unqualified approval the nomination of Gen. Benjamin Harrison and the Hon. Whitelaw Reid, as our standard bearers in the National campaign. The prosperity of the Nation under the able and patriotic adminstration of President Harrison commands the admiration of all good citizens.

Resolved, That the platform enunciated by the Republican national convention is broad enough and strong enough and all-sufficient as the basis of the union in the contest before us. While we unhesitatingly ratify and endorse that platform in all its parts, we point with special pride to the attitude upon the tariff issue, the silver problem, the temperance question and its demands for a pure and untrammeled ballot.

Resolved, That we denounce the Democratic party for its declaration in its recent national convention at Chicago in insisting upon the abolition of the national tax on the issue of State banks; that after more than a quarter of a century of continuous prosperity,

with a sound currency, under the wise and beneficent system evolved and maintained by the Republican party, we condemn and denounce the attempt to reinstate wild cat money and worthless bank notes, which at the time ruined all the financial interests of the country.

DEMOCRATIC PARTY.

NATIONAL TICKET, 1892.

For President,
GROVER CLEVELAND,
Of New York.

For Vice-President,
ADLAI E. STEVENSON,
Of Illinois.

PLATFORM ADOPTED BY THE NATIONAL CONVENTION AT CHICAGO, JUNE 21, 1892.

Section 1. The representatives of the Democratic party of the United States in convention assembled do reaffirm their allegiance to the principles of the party as formulated by Jefferson and exemplified by the long and illustrious line of his successors in Democratic leadership from Madison to Cleveland; we believe that the public welfare demands that these principles be applied to the conduct of the federal government through accession to power of the party that voices them; and we solemnly declare that the need of a return to the fundamental principles of free popular government, based on home rule and individual liberty, was never more urgent than now, when the tendency to centralize all power at the federal capital has become a menace to the reserved rights of the states that strikes at the very roots of our government, and at the constitution as framed by the fathers of the republic.

SEC. 2. We warn the people of our common country, jealous for the preservation of their free institutions, that the policy of federal control of elections to which the Republican party has com-

mitted itself is fraught with the gravest dangers, scarcely less momentous than would result from a revolution practically establishing monarchy on the ruins of the republic. It strikes at the north as well as the south, and injures the colored citizen even more than the white; it means a herd of deputy marshals at every polling place, armed with federal power; returning boards appointed and controled by federal authority; the outrage of the electoral rights of the people in the several states, the subjugation of the colored people to the control of the party in power and the reviving of race antagonisms, now happily abated, of the utmost peril to the safety and happiness of all; a measure deliberately and justly described by a leading Republican senator as "the most infamous bill that ever crossed the threshold of the Senate."

Such a policy, if sanctioned by law, would mean the dominance of a self-perpetuating oligarchy of office-holders, and the party first entrusted with its machinery could be dislodged from power only by an appeal to the reserved right of the people to resist oppression which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the polls; but in contempt of that verdict the Republican party has defiantly declared in its latest authoritative utterance that its success in the coming elections will mean the enactment of the Force bill and the usurpation of despotic control over elections in all the states.

Believing that the preservation of republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud, we invite the assistance of all citizens who desire to see the constitution maintained in its integrity with the laws pursuant thereto which have given our country a hundred years of unexampled prosperity; and we pledge the Democratic party, if it be entrusted with power, not only to the defeat of the Force bill, but also to relentless opposition to the Republican policy of profligate expenditure, which in the short space of two years has squandered an enormous surplus and emptied an overflowing treasury, after piling new burdens of taxation upon the already overtaxed labor of the country.

SEC. 3. We denounce Republican protection as a fraud; a robbery of the great American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the federal government has no constitutional power to enforce

7

and collect tariff duties except for the purpose of revenue only, and demand that the collection of such taxes shall be limited to the necessities of the government when honestly and economically administered.

We denounce the McKinley tariff law enacted by the Fifty-first Congress as the culminating atrocity of class legislation; we endorse the efforts made by the Democrats of the present congress to modify its most oppressive features in the direction of free raw materials and cheaper manufactured goods that enter into home consumption, and we propose its repeal as one of the beneficent results that will follow the action of the people in entrusting power to the Democratic party. Since the McKinley tariff went into operation there have been ten reductions of wages of laboring men to one increase. We deny that there has been any increase of prosperity to the country since that tariff went into operation, and we point to the dullness and distress, the wage reductions and strikes in the iron trade as the best possible evidence that no such prosperity has resulted from the McKinley act.

We call the attention of thoughtful Americans to the fact that after thirty years of restrictive taxation against importations of foreign products the homes and farms of the country have become burdened with a real estate mortgage of over \$2,500,000,000, exclusive of all other forms of indebtedness; that in one of the chief agricultural States of the west there appears a real estate mortgage debt averaging \$165 per capita, and that similar conditions are shown to exist in other agricultural exporting States. We denounce a policy which fosters no industry so much as it does that of the sheriff.

SEC. 4. Trade interchange on the basis of reciprocal advantages to the countries participating is a time-honored doctrine of the Democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and freer exchanges by pretending to establish trade relations for a country whose articles of export are almost exclusively agricultural, while erecting a custom house barrier of prohibitive tariff taxes against the richest countries of the world that stand ready to take our entire surplus of products, and to exchange therefor commodities which are necessary and are comforts of life among our own people.

SEC. 5. We recognize in trusts and monopolies, which are de-

signed by capital to secure more than their just share of the joint product of capital and labor, a natural consequence of prohibitive taxes which prevent the free competition which is the life of honest trade; but we believe their worst evils can be abated by law, and we demand the rigid enforcement of laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

- SEC. 6. The Republican party, while professing a policy of reserving the public lands for small holdings by actual settlers, has given away the people's heritage until now a few railroads and non-resident aliens, individual and corporate, possess a larger area than that of all our farms between the two seas. The last Democratic administration reversed the improvident and unwise policy of the Republican party touching the public domain, and reclaimed from corporations and syndicates, alien and domestic, and restored to the people nearly 100,000,000 acres of valuable land to be sacredly held as homesteads for our citizens, and we pledge ourselves to continue this policy until every acre of land so unlawfully held shall be reclaimed and restored to the people.
- SEC. 7. We denounce the Republican legislation known as the Sherman act of 1890 as a cowardly makeshift, fraught with possibilities of danger in the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal. We held to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver without discrimination against either metal or charge for mintage; but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value, or be adjusted by international agreement, or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of any dollar at all times in the market and in the payment of debts; and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenseless victims of unstable money and a fluctuation currency.
- SEC. 8. We recommend that the prohibitive ten per cent. tax on state bank issues be repealed.
- SEC. 9. Public office is a public trust. We reaffirm the declaration of the Democratic National convention of 1876 for the reform

of the civil service, and we call for the honest enforcement of all laws regarding the same. The nomination of a President, as in the last Republican convention, by delegates consisting largely of his appointees, holding office at his pleasure, is a scandalous satire upon free popular institutions and a startling illustration of the methods by which a President may gratify his ambition. We denounce a policy under which federal office-holders usurp control of party conventions in the States, and we pledge the Democratic party to the reform of these and all other abuses which threaten individual liberty and local self-government.

SEC. 10. The Democratic party is the only party that has ever given the country a foreign policy consistent and vigorous, compeling respect abroad and inspiring confidence at home. While avoiding entangling alliances, it has aimed to cultivate friendly relations with other nations, and especially with our neighbors on the American continent, whose destiny is closely linked with our own, and we view with alarm the tendency to a policy of irritation and bluster, which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of national defense and to properly maintain the honor and dignity of the country abroad.

SEC. 11. This country has always been the refuge of the oppressed from every land—exiles for conscience sake—and in the spirit of the founders of our government we condemn the oppression practiced by the Russian government upon its Lutheran and Jewish subjects, and we call upon our National government, in the interest of justice and humanity, by all just and proper means to use its prompt and best efforts to bring about a cessation of these cruel persecutions in the dominion of the ezar, and to secure to the oppressed equal rights.

We tender our profound and earnest sympathy to those lovers of freedom who are struggling for home rule and the great cause of self-government in Ireland.

SEC. 12. We heartily approve all legitimate efforts to prevent the United States being used as a dumping ground of the criminal and professional paupers of Europe, and we demand the rigid enforcement of the laws against Chinese immigration and the importation of foreign workmen under contract to degrade our labor and lessen its wages, but we condemn and denounce all

attempts to restrict the immigration of the industrious and worthy of foreign lands.

- SEC. 18. This convention hereby renews the expression of appreciation of the patriotism of the soldiers and sailors of the Union in the war for its preservation, and we favor just and liberal pensions for all disabled Union soldiers and sailors, their widows and dependents, but we demand that the work of the pension office shall be done industriously, impartially and honestly. We denounce the present administration of that office as incompetent, corrupt, disgraceful and dishonest.
- SEC. 14. The federal government should care for and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior States easy and cheap transportation to the tidewater. When any waterway of the republic is of sufficient importance to demand the aid of the government, such aid should be extended on a definite plan of continuous work until permanent improvement is secured.
- SEC. 15. For purposes of national defense and the promotion of commerce between the States, we recognize the early construction of the Nicaragua canal and its protection against foreign control as of great importance to the United States.
- SEC. 16. Recognizing the World's Columbian Exposition as a national undertaking of vast importance, in which the general government has invited the co-operation of the nations of the world, and appreciating the acceptance by many such powers of the invitation so extended, and the broad and liberal efforts being made by them to contribute to the grandeur of the undertaking, we are of the opinion that Congress should make such necessary financial provisions as shall be requisite to the maintenance of national honor and public faith.
- SEC. 17. Popular education being the only safe basis of popular suffrage, we recommend to the several States most liberal appropriations for the public schools. Free common schools are the nursery of good government, and they have always received the fostering care of the Democratic party which favors every means of increasing intelligence. Freedom of education, being an essential of civil and religious liberty, as well as a necessity for the development of intelligence, must not be interfered with under any pretext whatever. We are opposed to State interference with parental rights and rights of conscience in the education of children, as an

infringement of the fundamental principles of Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and the

best government.

SEC. 18. We approve the action of the present House of Representatives in passing bills for the admission into the Union as States of the territories of New Mexico and Arizona and we favor the early admission of all the territories having the necessary populations and resources to entitle them to statehood; and while they remain territories we hold that the officers appointed to maintain the government of any territory, together with the District of Columbia and Alaska, should be bona fide residents of the territory and district in which their duties are to be performed. The Democratic party believes in home rule and the control of their own affairs by the people of the vicinage.

- SEC. 19. We favor legislation by Congress and State legislatures to protect the lives and limbs of railway employes and those of other hazardous transportation companies, and denounce the inactivity of the Republican party, and particularly the Republican senate, for causing the defeat of measures beneficial and protective to this class of wage workers.
- SEC. 20. We are in favor of the enactment by the States of laws abolishing the notorious sweating system, abolishing convict labor, and prohibiting the employment in factories of children under fifteen years of age.
- SEC. 21. We are opposed to all sumptuary laws as an interference with the individual rights of the citizen.
- SEC. 22. Upon this statement of principles and policy the Democratic party asks the intelligent judgment of the American people, It asks a change of administration and a change of party in order that there may be a change of system and a change of methods, thus assuring the maintenance unimpaired of institutions under which the republic has grown great and powerful.

RESOLUTIONS ADOPTED BY THE STATE CONVENTION HELD AT COUNCIL BLUFFS, MAY 11, 1892, TO APPOINT DELEGATES TO ATTEND THE NATIONAL DEMOCRATIC CONVENTION AT CHICAGO, JUNE 21, 1892.

We reiterate the principle that all men are free-born and equal. We assert that this does not mean necessarily the physical, social or moral equality of all men, but it does mean equal rights for all men before the law, and special privileges for none. It means the right of every man to put into his own mouth the bread he earns with his own hands and all without being tolled or taxed for the private benefit of his fellowmen.

We denounce all such tolling and taxation as it exists today under the so-called protective tariff system. We declare that the citizen is the best protected when insured in the absolute control and disposition of his own wages and substance, and that he is most certainly robbed when deprived of this disposition and control and when others exercise for him—not for his benefit, but for their own selfish objects and ends. All limitations upon the liberty of the citizen not required in the interest of good morals and good government, are odious and tyrannical. We hold it to be self-evident that the limits imposed by law which compel the citizen, to his own certain loss, to trade with designated classes of citizens for the certain gain of such classes, is of this odious and tyraunical character, and we assert, our confidence that a free people cannot be permanently deluded into supporting such legislation upon the pretense that they are thus being protected, while having their rights invaded and denied for the benefit of monopolies, trusts, and combinations. The conditions which have been brought about by this falsely called protection must be remedied, or we must have, instead of pure Democracy, where the voice and liberties and interests of the people are supreme, a government of classes, by classes, in which the masses will be servitors and subordinates equally trampled upon and despised. We declare that this is a paramount issue in the presidential campaign.

The Republican policy of spoliation of the treasury to pay bounties to the favored few was repudiated by the people at the polls in 1890, and will be rejected in 1892.

With free ships and the markets of the world open to our farm-

ers, our wage-workes and our mechanics, we will have that larger freedom of commerce, and that genuine reciprocity for which Democrats have always contended, and our industrial and commercial supremacy is assured.

Trusts and monopolies, with their imported foreign labor, are entitled to no favors over our mechanics, wage-workers and farmers. We demand such free raw materials for our factories, shops and forges as shall secure emancipation from industrial bondage; we demand a free list made up of many articles of necessity and comfort to the people, and a reduction of import duties all along the line, fixing the limit on a basis which shall give no greater revenue than is requisite to the needs of government honestly and economically administered.

The Democratic party of Iowa, recognizing the Nation's obligation to maintain a sound and honest currency of equal value in all its forms and of sufficient volume to preserve a just proportion between its purchasing power and the cost of the products of labor at liberal wages, reaffirms its adherence to the financial system of the fathers of the republic, based upon an equally free bimetallic coinage, and hereby declares its unqualified opposition to all legislation calculated to reduce either of the precious metals to a position of commodity alone by establishing another as a single standard for the measurement of values.

We commend the faithful, honorable and successful administration of our chief executive. Horace Boies. His duties have been performed with a high regard for the office of a public servant. His trust has been discharged unselfishly for the good of the whole people. His leadership is without error, and his name is justly honored in every household. Recognizing his ability, his integrity, his pure character, his eminent fitness and popularity, we present his name to the national Democratic convention as a candidate for the office of president of the United States. In doing this we feel the great responsibility which devolves upon Iowa and our western Democrats; and while we pledge the faithful support of the party to the candidates of the national convention, we pledge the electoral vote of Iowa to him who has led the party to victory in three successive State elections, and that the wishes of Iowa Democrats may be fairly and justly known and represented, we hereby instruct the delegates at this convention to use all honorable means to secure the nomination for president of Horace Boies, and vote as a

unit upon all questions upon which the roll of States may be called in the National convention.

#### STATE PLATFORM, 1892.

- 1. The Democrats of lowa in convention assembled heartily endorse the platform of principles enunciated at the National convention held in Chicago, and the nomination of Grover Cleveland and Adlai E. Stevenson for president and vice-president. The administration of Grover Cleveland of the high office of president for four years was wise, courageous, honest and conservative, and his nomination for the third time by the representatives of the National Democracy gives special force to the reforms suggested in his official messages and his public utterances. We hail the opportunity for a discussion and a determination by ballot of the pertinent issues which the National platform and the candidates suggest, to-wit: radical reform of the tariff and the maintenance and perpetuity of the doctrine of local self-government; and we pledge our earnest and united support to these principles.
- 2. We renew with pride and pleasure our commendation of Governor Horace Boies. His faithful, honorable and wise administration of the office entrusted to his care, merits the approval of every patriotic citizen within the State.
- 3. We recognize the effort of the popular branch of the Congress of the United States to secure a reform of the tariff; and we condemn the Republican Senate for its failure to consider measures passed by the popular branch, particularly when the people them-

selves had declared against the high protection policy represented by the McKinley bill by an overwhelming majority in the election of 1890. The failure of the Republican National administration, and the Republican Senate to bow to the verdict of the people at the polls, is a denial of the right of the popular sovereignty, such as was not contemplated by the founders of the republic and such as would not be tolerated in any other civilized country of the globe.

- 4. We are in thorough sympathy with the multitude of honest toilers throughout the land; and we observe with deep solicitude the conflicts between capital and labor which manifest themselves in the ever increasing number and scope of lockouts and strikes. These conditions are chargeable to the policy of the Republican party, which has for its object the disbursement of taxes among the favored few and the maintenance of privileged classes at the expense of the masses. The greed of the capitalists in monopolizing the benefits granted by this policy will never deal justly with producing labor; and while we insist that violence and disorder must be restrained under all circumstances, and that the ballot-box is the place for the determination of such vital questions, we declare that the proper solution of the problems which now confront the people of this country can be found only by returning to the simple, original principles enunciated by the founders of the republic, the sturdy advocates of the greatest possible personal, political and commercial liberty consistent with the good order and supremacy of law.
- 5. We reiterate the principles enunciated in the platform of the Democracy of Iowa in 1889 and since that time, touching the regulation of the liquor traffic, and commend the Democratic members of the last General Assembly for their honest efforts to secure a reform in legislation upon this question. The doctrine of license and local option, as declared by the Democratic party of this State, has in two successive State elections been approved by a majority of voters; and with the continued approval of the people, we pledge ourselves to the enactment of laws which shall give the people in their respective localities the management and control of this traffic.
- 6. The present system of managing our State institutions, through separate boards of trustees for each, has led to extravagance, both in their construction and their maintenance, until more than two-thirds of the revenues of the entire State are annually

absorbed by them. This system was the natural outgrowth of conditions which left the State in the exclusive control of one political party for more than a third of a century and required of such party that it furnish places for a worse than useless number of ambitious partisans. We demand the abolition of these separate boards of trustees and the substitution thereof of a single board of control, non-partisan in its character, impartial as between the several institutions, and thoughtful of their interests and those of the State alike.

- 7. We declare our purpose to nominate candidates for the United States Senate in general convention, and demand such a change in our National Constitution as will permit the election of the same by a direct vote of the people.
- 8. We insist on just and equal taxation for State and local purposes. And hence we hail with joy the efforts now being made to change our present cumbersome and incongruous system for raising the necessary revenue, to a general and harmonious plan that shall rest on proper and correct principles.
- 9. Recognizing their vast importance to all interests, we are heartily in favor of the movement for better roads, which has been successfully inaugurated in our State, and commend the same to the active support of the public.
- 10. We denounce as un-American any society or organization that is pledged to deprive any citizen of his right to vote or hold office on account of his religious beliefs or nationality.
- 11. To the support of these principles we invite the co-operation of all liberty-loving citizens, irrespective of former party affiliations.

#### PEOPLE'S PARTY.

NATIONAL TICKET, 1892.

For President.

JAMES B. WEAVER,

Of Iowa.

For Vice-President.

JAMES G. FIELD,

Of Virginia.

PLATFORM ADOPTED BY THE NATIONAL CONVENTION HELD AT OMAHA, NEBRASKA, JULY 4, 1892.

We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations a just, equitable and efficient means of distribution direct to the people, at a tax not to exceed two per cent per annum, be provided as set forth in the sub-treasury plan of the Farmers' Alliance, or some better system; also by payments in discharge of its obligations for public improvements.

We demand the free and unlimited coinage of silver and gold at the present legal ratio of sixteen to one.

We demand that the amount of the circulating medium be speedily increased to not less than \$50 per capita.

We demand a graduated income tax.

We believe that the moneys of the country should be kept as much as possible in the hands of the people, and hence we demand that all National and State revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

We demand that postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange.

Transportation being a means of exchange and a public necessity,

the government should own and operate the railroads in the interest of the people.

The telegraph and telephone, like the post-office system, being a necessity for the transmission of news, should be owned and operated by the government in the interest of the people.

The land, including all the natural sources of wealth, is the heritage of all the people and should not be monopolized for speculative purposes, and alien ownership of land should be probibited. All lands now held by railroads and other corporations in excess of their actual needs, and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

After submitting the foregoing the committee on resolutions held another meeting and unanimously agreed to report the following to the convention at the night session:

Whereas, other questions have been presented for our consideration, we hereby submit the following, not as a part of the platform of the People's Party, but as resolutions expressive of the sentiment of this convention.

Resolved, That we demand a free ballot and a fair count in all elections, and pledge ourselves to secure it to every legal voter without federal intervention, through the adoption of the States of the unperverted Australian or secret ballot system.

Resolved, That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now resting upon the domestic industries of this country.

Resolved, That we pledge support to fair and liberal pensions to ex-union soldiers and sailors.

Resolved, That we condemn the fallacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world, and crowds out our wage earners; and we denounce the present ineffective laws against contract labor, and demand the further restriction of undesirable emigration.

Resolved, That we cordially sympathize with the efforts of organized workingmen to shorten the hours of labor, and demand a rigid enforcement of the existing eight hour law on government work, and ask that a penalty clause be added to the said law.

Resolved, That we regard the maintenance of a large standing army of mercenaries known as the Pinkerton system as a menace to our liberties, and we demand its abolition; and we condemn the

recent invasion of the territory of Wyoming by the hired assassins of plutocracy, assisted by federal officials.

Resolved, That we commend to the favorable consideration of the people and the reform press the legislative system known as the initiative referendum.

Resolved. That we favor a constitutional provision limiting the office of president and vice-president to one term, and providing for the election of senators of the United States by a direct vote of the people.

Resolved, That we oppose any subsidy or national aid to any private corporation for any purpose.

Resolved, That this convention sympathizes with the Knights of Labor in their righteous contest with tyrannical combine of clothing manufacturers of Rochester, and declares it to be the duty of all who hate tyranny and oppression to refuse to purchase the goods made by the said manufacturers or to patronize any merchants who sell such goods.

The Peoples' Party, at the outset to secure permanent control of the party organization to the people unaffected by the interests of those in public service, does hereby adopt, in National convention assembled at Omaha on the 4th day of July, 1892, this ordinance as fundamental law of party organization: "No person holding any position of office or trust or emolument under the Federal or any State or municipal government, including senators, congressmen, members of the legislatures (state and local) shall be eligible to sit or vote in any convention of this party, and a copy of this ordinance shall be annexed to every call for any future convention of the party."

### STATE PLATFORM, 1892.

Resolved, By the People's Party of Iowa in State convention assembled, that we endorse the People's Party platform as promulgated at Omaha by the National convention on July 4, 1892, and declare it to be the true policy touching National affairs.

Resolved, That in State affairs it is the duty of our State Legislature to repeal all laws that grant to individuals or classes special privileges or impose upon them restrictive burdens. To this end we demand the repeal of all laws which shall maintain the charters of public corporations for pecuniary profit.

Resolved, That we denounce the present laws which enable the individual to demonetize silver by so specifying in written note or contract, and demand that all money issued by the government should be a legal tender in the payment of all debts, and that the state should exercise its constitutional power of making silver a legal tender in the payment of all debts within the State.

Resolved, That we demand of our Legislature the passage of a law at its next session which shall effectually prevent the employment by corporations of Pinkerton's detectives or private armed soldiers.

Resolved, That we condemn the existing truck store system and demand the weekly payment of all wages in lawful money.

### PROHIBITION PARTY.

For President, JOHN BIDWELL, Of California.

For Vice-President, J. B. CRANFILL, Of Texas.

PLATFORM ADOPTED BY THE NATIONAL CONVENTION MELD AT CINCINNATI, OHIO, JUNE 29, 1892.

The Prohibition Party in National convention assembled, acknowledging Almighty God as the source of all true government, and His law as the standard to which business enactments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles:

The liquor traffic is a foe to civilization, the arch enemy of popular government, and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the nation's home life, thwart the will of the people, and deliver our country into the hands of rapacious class interests. All laws that, under guise of regulation, legalize and protect this traffic, or make the government share in its ill-gotten gains, are vicious in principle and powerless as a remedy. We declare anew for the entire suppression of the manufacture, sale, importation, exportation, and transportation of alcoholic liquors as a beverage by Federal and State legislation, and the full powers of government should be exerted to secure this result. No party that fails to recognize the nature of this issue in American politics is deserving of the support of the people.

No citizen should be denied the right to vote on account of sex, and equal labor should receive equal wages without regard to sex.

The money of the country consist of gold, silver and paper should be issued by the general government only, and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation

should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita and made to increase in proportion.

Tariff should be levied only as a defense against foreign governments which levy tariff upon or bar our products from their markets, revenue being incidental. The residue of means necessary to an economical administration of the government should be raised by levying the burden on what the people possess instead of upon what we consume.

Railroads, telegraphs and other public corporations should be controlled by the government in the interest of the people, and no higher charges allowed than necessary to give fair interest on the capital actually invested.

Foreign immigration has become a burden upon industry, one of the factors in depressing wages and causing discontent; therefore our immgration laws should be revised and strictly enforced. The time of residence for naturalization should be extended, and no naturalized person should be allowed to vote until one year after he becomes a citizen. No resident aliens should be allowed to acquire land in this country, and we favor the limitation of individual and corporate ownership of land; all unearned grants of lands to railroads or other corporations should be reclaimed.

Years of inaction and treachery on the part of the Republican and Democratic parties have resulted in the present reign of mob law, and we demand that every citizen be protected in the right of trial by constitutional tribunals.

All men should be protected by law in their right to one day of rest in seven.

Arbitration is the wisest and most economical and humane method of settling national differences.

Speculations in margins, the cornering of grain, money and products, and the formation of pools, trusts and combinations for the arbitrary advancement of prices should be suppressed.

We arraign the Republican and Democratic parties as false to the standards reared by their founders, as faithless to the principles of the illustrious leaders of the past to whom they do homage with the lips, as recreant to the "higher law" which is as inflexible in political affairs as in personal life, and as no longer embodying the aspirations of the American people or inviting the confidence of

enlightened, progressive patriotism. Their protest against the admission of "moral issues" into politics is a confession of their own moral degeneracy. The declaration of an eminent authority that municipal misrule is "the one conspicuous failure of American politics," follows as a natural consequence of such degeneracy, and is true alike of cities under Republican and Democratic control.

Each accuses the other of extravagance in congressional appropriations and both are alike guilty. Each protests when out of power against infraction of the civil service laws, and each, when in power, violates those laws in letter and spirit. Each professes fealty to the interests of the toiling masses, but both covertly truckle to the money power in the administration of public affairs. Even the tariff issue as represented in the Democratic Mills bill and the Republican McKinley bill is no longer treated by them as an issue between great and divergent principles of government, but is a mere catering to different sectional and class interests.

The attempt in many states to wrest the Australian ballot system from its true purpose and to so deform it as to render it extremely difficult for new parties to exercise the rights of suffrage is an outrage upon popular government. The competition of both these parties for the vote of the slums and their assiduous courting of the liquor power and subserviency to the money power has resulted in placing those powers in the position of practical arbiter of the destinies of the Nation. We renew our protest against these perilous tendencies, and invite all citizens to join us in the upbuilding of a party that has shown in five national campaigns that it prefers temporary defeat to an abandonment of the claim of justice, sobriety, personal rights, and the protection of American homes.

We pledge that the Prohibition Party, if elected to power, will ever grant just pensions to disabled veterans of the Union army and navy, their widows and orphans.

We stand unequivocally for the American public school and opposed to any appropriations of public money for sectarian schools. We believe that only by united support of such common schools taught in the English language can we hope to become and remain a homogeneous and harmonious people.

Recognizing and declaring that prohibition of the liquor traffic has become the dominant issue in National politics, we invite to full party fellowship all those who, on this one dominant issue, are with us agreed, in the full belief that this party can and will remove sectional differences, promote National unity and insure the best welfare of our entire land.
