## INTRODUCTION

Last fall some members of the Southeast Kansas Genealogical Society decided to publish a book on the marriages of Allen County Kansas. Many hours have gone into this project with help from employees in the Allen County clerk of the court office, Judge of the District Court, and Allen County Commissioners. The employees of the Iola Public Library and especially Mary Lou Chard were a great help completing this project. The committee worked around the employees, sometimes working in the conference room and other times in the court rooms. One time we even worked in the court room as other rooms were reserved for other work. Sometimes the workers put in 7 hours a day for 3 days a week. Betty Rush and Wanda Canfield read the names and helped spell the peoples names who were applying for their marriage license in the courthouse in Allen county courthouse. Joan Beal Beck typed the names and information found in the book in her computer.

There are errors, and we apologize for these. We tried to eliminate as many as possible but realize that some were missed. There are several reasons for these. Sometimes the person who originally wrote the names in the book could not spell the names and wrote them as he thought it should be spelled. Also, the person copying the information may have misspelled the names. We could have spelled the names wrong and did not find our mistakes before going to the printer.

We wish to thank all the individuals who make this project possible; including employees of the Allen County Clerk of the District Court, Judge of the District Court, the Allen County Commissioners and others that helped at the courthouse. The employees of the Iola Public Library helped with computer problems and copying who include Mary Lou Chard and Brig McCoy.

## HOW TO USE THIS BOOK

In the first section of the book records are alphabetically by the Grooms surname. There is an alphabetical index of the bride using the number proceeding her surname. This number will correspond to the grooms number at the first of each row. A list of the ministers is found at the end of the first section. We realize that we do not have all of them listed at this time as the information is not available. They will be included in a later book when the names are found.

Information included in grooms list:

- Groom's names, age
- Bride's names, age
- Date of marriage,
- person officiating, place married

MARRIAGES  
OF ALLEN CO. KS.
