THE AMERICAN HISTORICAL ASSOCIATION (AHA)
COMMITTEE FOR THE STUDY OF WAR DOCUMENTS

GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

This is part of a series of guides prepared by the American Historical Association listing records microfilmed at Alexandria, Va., by the American Historical Association Microfilming Project.

An American Committee for the Study of War Documents was established in 1955 as a private group of scholars interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956, the American Committee became a committee of the American Historical Association. Its present chairman is Professor Oron J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn M. Case, The University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation, the Lilly Endowment and the Avalon Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the World War II Records Division of the National Archives (previously TAGO, Departmental Records Branch), at Alexandria, Virginia.

The plans for screening and microfilming these materials were prepared by a Subcommittee on Microfilming under the chairmanship to the end of 1956 of Professor E. Malcolm Carroll, Duke University, and his successor, Dr. Fritz T. Epstein, The Library of Congress. The microfilming team in Alexandria, Virginia, was under the direction of Professor Gerhard L. Weinberg of the University of Michigan in 1956/57, of Dr. Dagmar Horna Perman from 1957 to September 1959, of Mr. James G. McDowell from September 1959 to August 1960, and is now under the supervision of Dr. Willard Allen Fletcher of the University of Colorado.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staff of the National Archives, especially its World War II Records Division, and by the U.S. Department of the Army.

This Guide is one of a series of finding aids describing those declassified seized German records deposited at the World War II Records Division, National Archives, which have been microfilmed by the Microfilming Project of the Committee for the Study of War Documents of the American Historical Association. The Guide contains the text of data sheets identifying records filmed. A copy of the data sheets has been filmed as a target sheet at the beginning of each roll of film.

This Guide covers 355 rolls of film of records of the police and security agencies under the command of Reichsführer-SS und Chef der deutschen Polizei. This particular collection suffers from disorganization, in no small part due to the amorphous, overlapping and continually changing organization and functions of the agencies involved. However, groupings of certain materials can be readily ascertained.

Rolls 219-229 cover files of, or records pertaining to, Höhere SS-und Polizeiführer (Höh.SS-Pol.F.) and SS-und Polizeiführer (SS-Pol.F.) in Germany and in the occupied territories. Rolls 229-231 deal with records of the uniformed police i.e. Ordnungspolizei (Orpo), and with police combat units, Polizei Regimente and Polizei Bataillonen (Pol.Reg., Pol.Btn.).

Rolls 232-257 consist of films of records of Chef der Sicherheitspolizei und des Sicherheitsdienstes (CdS) and his headquarters agency, the Reichssicherheitshauptamt (RSHA) established in September 1939. Included are files accessioned by the RSHA's joint predecessors, the Sicherheitshauptamt (SHA) and the Sicherheitsdienst-Hauptamt (SD-HA), and of its seven component offices (Ämter) and their subordinate divisions (Gruppen) and sections (Referate). Rolls 247-248 deal with RSHA, Amt I (RSHA/I), Personnel, while rolls 248-255 deal with RSHA, Amt II (RSHA/II), Organization, Administration, and Law. The Sicherheitspolizei (Sipo) per se did not come into being until the personnel and administrative organs of the political and criminal police were consolidated into a common agency - Sicherheitshauptamt - in 1937. With the establishment of the RSHA in 1939, the personnel and administrative functions of the SHA were absorbed into RSHA/I and RSHA/II, while the so-called "executive" sections of the Gestapo and the Kripo central offices became RSHA/IV and RSHA/V respectively. Rolls 277-432 and rolls 436-498 deal with the records of RSHA/IV (including files accessioned by its predecessors, Geheimes Staatspolizeiamt [Gestapa] and the Prussian, Bavarian and other state political police agencies) and its regional (Staatspolizei/leit/stellen) and local (Aussendienststellen) offices. Also included are files indicating Gestapo involvement in counterintelligence work in the occupied areas, culminating in the assumption in mid-1944 of the functions exercised by Admiral Canaris' OKW/Amt Ausland Abwehr.

Rolls 432-453 and rolls 498-499 cover the records of RSHA/V, its central office and predecessor - the Reichskriminalpolizeiamt (RKPA), and its regional (Kriminalpolizei/leit/stellen) and local (Aussendienststellen) offices.

Scattered through both the Gestapo and Kripo records are files of many city, town and rural police forces, which functioned as local auxiliaries in handling political and criminal cases. Included in the Gestapo files are records of border and customs posts which had come under Gestapo jurisdiction during the war.

The Sicherheitsdienst (SD) was initially a small internal intelligence and counterintelligence agency within the NSDAP. Shortly after the Röhm affair of 30 June 1934, the SD was divided into two separate organizations. One, a bodyguard force for Hitler and others - eventually V

known as Reichssicherheitsdienst - was composed of permanent sections stationed in Berlin, Berchtesgaden and Munich and a mobile unit known as Führer-Begleitkommando. The other, designated Sicherheitsdienst des Reichsführer-SS (SD-RFSS or simply SD) became, after 1936, the intelligence and counterintelligence agency for the German government as well as for the NSDAP. The central office for the SD, between 1935 and 1939, was the Sicherheitsdienst-Hauptamt (SD-HA), composed of SD-HA/I for administration, SD-HA/II for domestic intelligence, and SD-HA/III for foreign intelligence. In 1938, the SD-Hauptamt was subordinated in certain respects to the Sicherheitshauptamt and, in September 1939 it was integrated into the RSHA. The personnel and administrative sections were absorbed into RSHA/I and II, domestic intelligence into RSHA/III (SD-Inland or SD-Deutsche Lebensgebiete), and foreign intelligence into RSHA/VI (SD-Ausland). Counterintelligence and "executive" functions had already been surrendered to the Gestapo at the time of the subordination of SD-HA to SHA in 1938.

Rolls 258-276 and 499-R570 cover records of RSHA/III (including files accessioned by its predecessors) and regional (SD-Leitabschnitte and SD-Abschnitte) and local (SD-Unterabschnitte and Aussenstellen) offices. Of these, rolls 258-266 contain a substantially complete collection of Meldungen aus dem Reich, a nation-wide weekly summary of reports from regional and local SD offices on public opinion and reaction to conditions and events, economic, political cultural and military. Rolls 453-466 deal with records of RSHA/VI (as do many of the documents interspersed with RSHA/III records in rolls 499-R570), and its field offices and units in occupied territories. The most extensive of these SD field office records were those of SD-Leitabschnitt Wien and SD-Slovakei (Pressburg).

Rolls 468-473 and rolls R571-R572 deal with records of RSHA/Militärisches Amt (RSHA/Mil), established in mid-1944 as a joint office under Walter Schellenberg with RSHA/VI for the purpose of assuming the duties of Canaris' agency.

There are on rolls 466-468 a few stray records of RSHA/VII, Ideological Research and Exploitation (Weltanschauliche Forschung und Auswertung), which grew out of an ideological branch of SD-Hauptamt.

Rolls 473-486 contain records of various Befehlshaber der Sicherheitspolizei und des SD (BdS) and Kommandeure der Sipo u. SD (KdS).

Whenever possible, an attempt was made to consolidate records bearing on organizational history. Thus, rolls 232-233, and 239, cover the evolution of the RSHA, rolls 422-432 of the Gestapo and roll 239 of the SD. Many of the descriptions of individual folders also indicate alterations of the designation and/or responsibilities of the police office involved.

Roll 238 contains a complete run of Befehlsblatt des Chefs der Sicherheitspolizei.

Rolls 233-235 contain substantially complete collections of Ereignismeldungen UdSSR, Meldungen aus den besetzten Ostgebieten - successive series of periodic reports on the genocidal and anti-partisan operations of Einsatzkommandos in Eastern Europe between June 1941 and May 1943. Included are typical SD reports on public opinion and reactions to conditions and events of the conquered peoples.

The terms "Serial" and "Roll" in this Guide refer to the sequence of the film. The "Item" number is the identification symbol on the original folder within the records collection. "Provenance" indicates, where ascertainable, the archival origin of the document whose description follows. The symbol "FT" means that the folder has been filmed throughout, the symbol "FS" denotes that the folder has been filmed selectively. "1st frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively

throughout the filming operation. German file numbers, whenever ascertainable, have also been included. The "Notes" provide a general idea of the nature of the materials but should not be taken as exhaustive descriptions. The researcher is urged to check the entire Guide.

The original records have been returned to the Federal Republic of Germany. The microfilms are deposited in the National Archives, Washington, D.C., as microcopy T-175, and should be requested by adding "T-175" to the rolls desired. The descriptions were prepared by . Robert Wolfe, Dr. Willard Allen Fletcher and Dr. Miriam Haskett.

Eugen Wenner, adjutant of Höchst.SS-Pol.F. in Italien (Karl Wolff) speculating on the illusionary possibility that under the terms of capitulation the SS will be treated the same as ordinary military units, <u>i.e.</u> not classified as war-criminals, dated 7 May 1945. It is noteworthy that the writer argues that Wolff should assume sole political responsibility for all activities carried out under his command.

This material is very useful for analyzing the stages and methods by which Himmler, Heydrich, and Best absorbed the civil police agencies into the SS, and particularly as an illustration of the confused interlock of the Gestapo and the SD.	
		Der Chef der Zivilverwaltung in Luxemburg/Adjutantur	EAP 170-b-14-10/6	FS	2767397	Folder of the Adjutantur of CdZ/Luxemburg containing two Anschriftenverzeichnisse of German civil, police, and military offices in Luxembourg, one dated 1 Dec 1940, the other not dated. This material provides an excellent example of the main themes stressed by the Nazi propaganda machine in its desperate efforts to avert final defeat by means of the carrot and stick technique: interpretation of "unconditional surrender" as collective punishment for all Germans, threats of reprisal against deserters and defeatists, the end of European civilization at the hands of Bolshevik barbarians. Folder of Höh.SS-Pol.F./Einsatzstab Minsk, Kriegstagebuch Nr.1, 22 Aug-21 Sep 1942. This KTB deals with operations against partisan bands in Weissruthenien under the overall command of SS-Ogruf. u. Gen. d.Pol. Jeckeln, lists Orpo and Waffen-SS units engaged along with Wipo and SD. Notable is the boldness with which this document distinguishes among "389 bewaffnete Banditen im Kampf erschossen, 1274 Verdächtige abgeurteilt und erschossen, 8350 Juden exekutiert." In the standard Bandenkampfverbände KTB or Tätigkeitsberichte, the fiction is maintained that Jews were executed because of actual or suspected participation in partisans. Photostats made from these originals are in the Berlin Document Center and at the Institut für Zeitgeschichte, Munich, and are also available at the World War II Records Division, Alexandria, Virginia. Beginning with the invasion of Russia, the Ereignismeldungen were instituted by Heydrich in order to pull together into a comprehensive daily summary the separate daily reports submitted by the several Einsatzgruppen and Einsatzkommandos. "Sammelmeldung UdSSR, Nr. 1," which exists only in photostat, was prepared by "Gestapo" Müller himself. The originals here filmed are the copies of IV A 1 Lagezimmer, which Paeffgen neglected to destroy. A typical Ereignismeldung contains a list of Standorte of each Höj. SS-PolF., KdS, Einsatzgruppe, Einsatzkommando, and Sonderkommando reporting, accounts of Bandenbekämpfung operations, including liquidation of Jews and "Kommissare," and reports on political and economic conditions much like those to be found in standard SD reports.

The only distinction between Ausgabe A and Ausgabe B is that the former was printed on both sides of the sheet for deposit in the reference files of the recipient units and offices, the latter on one side to facilitate clipping. The first items on the roll are RSHA/IV E 5 copies of CdS Runderlass of 22 Jan 1940 and directive of 19 Apr 1940, which announce the forthcoming Befehlsblatt publication and give detailed explanations as to layout, instructions as to utilization, and scheme of distribution (reprinted as first two items in Jahrgang 1, No. 1). Filmed next were chronological and subject indexes for the first four Jahrgänge, 1940-1943; apparently conditions in early 1943 precluded printing of an index for 1944; also, it is possible that there may have been more than the eight issues for 1945 filmed here. Each issue is broken down into seven sections containing RSHA decrees for the entire Sipo and SD, Gestapo, Kripo, SD, SS orders, miscellaneous, and personnel orders.

258	258	Varied	See below	FT	See below	The following folders contain a substantially complete run of the mimeographed <u>Meldungen aus dem Reich</u> , its forerunner <u>Bericht zur innenpolitischen Lage</u> , and its component parts, issued separately under the title <u>SD-Berichte zu Inlandsfragen</u> , issued by RSHA/III, Oct 1939-Jul 1944. These reports, summarizing periodic reports from the regional SD-Abschnitte, which in turn were based on reports from local SD-Aussenstellen (for a large collection of such regional and local level reports from various parts of Germany, see Rolls 267-275, passim), consist of candid descriptions and analyses of events and conditions on various aspects of life in Germany and annexed territories, including public behavior and attitudes toward current problems. Each report consists of several sections, roughly corresponding to the Gruppen of RSHA/III (alternately referred to as SD-Inland or SD-Deutsche Lebensgebiete), as follows: Allgemeines; Verwaltung und Recht; Gegner (discontinued by agreement with the Gestapo after May 1940); Kulturelle Gebiete; Volkstum und Volksgesundheit (eventually expanded to include minorities and foreign labor in Greater Germany); Wirtschaft. Until May 1940, frequency of publication was three times per week; after that twice weekly, although the separate SD-Berichte zu Inlandsfragen are dated at irregular intervals.

The communications predating the German conquest of Metz seems to have gone to Stapost. Saarbrücken or Sipo EKdo. 1/II (the office stamp of which appears on the vast majority of documents in this folder). The confusing variety and changing designations of receiving offices, apparently have as their common denominator the responsibility for counterintelligence in Lorraine and the Saar. Among those remaining are some rare secret directives: "Grundsätze der inneren Staatssicherung während des Krieges," issued by Cds on 3 Sep 1939; "Grundsätzliche Anordnung des Reichsführers SS und Chef der Deutschen Polizei über Festnahme staatsfeindlicher Elemente nach Beginn des Feldzuges gegen die Sowjetunion," 20 Aug 1941 (these decrees provided the pseudo-legal bases for untrammelled Gestapo authority to incarcerate anyone in a concentration camp under indefinite protective custody); "Anordnung zur Durchführung der 11. Verordnung zum Reichsbürgergesetz," signed by Stuckart and circulated to top officials only, 3 Dec 1941 (provided for loss of citizenship and property of non-German Jews in conquered territories, especially in the Generalgouvernement, and Reichskommissariat Ostland and Ukraine). 404	404	Staatspolizeistelle Köln	EAP 173-b-16-12/11 FT		2926201	<p>counter-espionage and counter-subversion matters, Nov 1933-Jun 1944; this material gives an excellent picture of various phases of the continuing competition for paramount position in the counter-intelligence function between Gestapo and Abwehr (similar to SD and military competition for the intelligence function), up to and including the final victory of the Gestapo in the spring of 1944. Also included in this folder are: directives of Gestapo, CdS, and Ministry of War pertaining to police authority in criminal cases involving military personnel, including 1938 orders transferring soldiers convicted of severe crimes to Gestapo protective custody for "Sonderbehandlung," 1935-1944; directives and correspondence pertaining to Gestapo responsibility for maintaining security of military installations, transport, and manoeuvres, 1935-1943; RSHA copy of directives providing for cooperation between NSKK and Army in pre-military driver training, Nov 1939; pamphlet listing off-limits bars, night clubs, and cafés in W.K. VI, and directives to police for enforcement, 1937; regulations concerning censorship of mail of Armed Forces personnel, 1942-1944.</p> <p>Folder of Stapost. Köln, with table of contents, containing: directives, correspondence, informer's reports, and results of security checks on the efficiency of counter-espionage and counter-sabotage systems of armament factories, including technical material on secret industrial processes (e.g. V1 and V2) and lists of armaments plants, Feb 1942-Jun 1944; outline of a scheme for communicating with German prisoners-of-war by means of messages concealed in Red Cross packages, 1943; orders to return former Dutch soldiers to prisoner-of-war status, May 1943. The majority of these records were accessioned by Stapost. Köln from Abwehr Offizier/Rüstung, Köln in June 1944. Item number 36 (7 pp.) is AO/Rü, Köln, copy of a directive of OKW/Amt Abw./III, outlining the contraction of that organization's activities as a result of the transfer of most of its intelligence and counter-intelligence functions to RSHA/VI and IV, respectively, May 1944. This directive, dated 29 May 1944, thus represents the industrial counter-intelligence aspect of the dénouement of the Abwehr-SS competition pictured in 173-b-16-12/10. At the end of the folder, although not listed in the table of contents, is a copy of the organizational order of SS-Ogruf. Gottlob Berger, in his capacity as Chef des Kriegsgefangenenwesens, setting up the organization for control of prisoners-of-war and internee camps, upon transfer of that function from OKW to Himmler (as BdE) in November 1944, and other documents on the subject, Nov 1944-Jan 1945.</p>
