# Handbook of Western Palearctic Birds

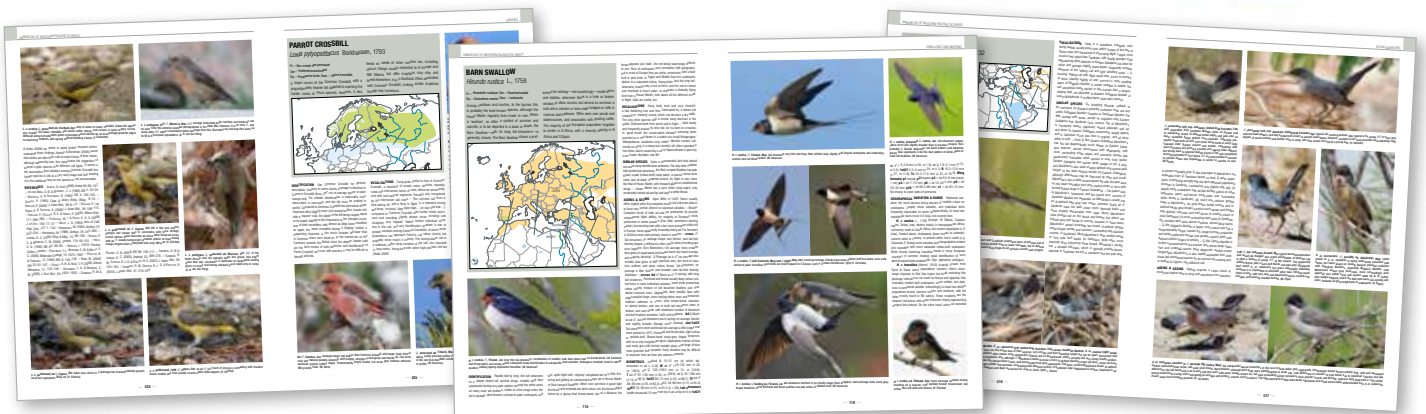

## Passerines

**Hadoram Shirihai & Lars Svensson**

This stunning two-volume handbook is the definitive reference on passerines in the region – no birder's shelf is complete without it.

- The most complete and detailed photographic guide to the passerines of the Western Palearctic ever published.
- Written by Hadoram Shirihai and Lars Svensson, two of the world's most respected ornithologists.
- Detailed accounts cover every aspect of identification, including every race of every species that regularly occurs in the region.
- Illustrated with more than 5,000 stunning colour photographs across the two-volume set.
- Detailed maps accurately depict distributions of birds to subspecific level.

9780713645712 • £150.00

This unique handbook is the most complete and comprehensive guide to the passerines of the Western Palearctic ever published. It contains the most up-to-date information available on identification covering all aspects of plumage, moult, ageing and sexing, with sections on voice and other identification criteria, detailed measurement data, and taxonomic notes, accompanied by the most comprehensive photographic coverage ever assembled. HWPB represents the last word on passerine identification in the region.

### About the authors

**Hadoram Shirihai** is Israel's foremost ornithologist and the author of books including the acclaimed *Sylvia Warblers* and *A Complete Guide to Antarctic Wildlife*.

The name **Lars Svensson** can truly be considered 'household' among European birdwatchers. His knowledge of Western Palearctic birds, in both field and museum, is second to none, and has resulted in two best-selling works synonymous with his name: his 'bible' for ringers, the *Identification Guide to European Passerines*, and the field guide to Western Palearctic birds universally known simply as the *Collins Bird Guide*.

**Pocket Guide To Wild Flowers**  
Bob Gibbons  
Paperback • 9781472913289 • £10.00

# Moult and Ageing of European Passerines

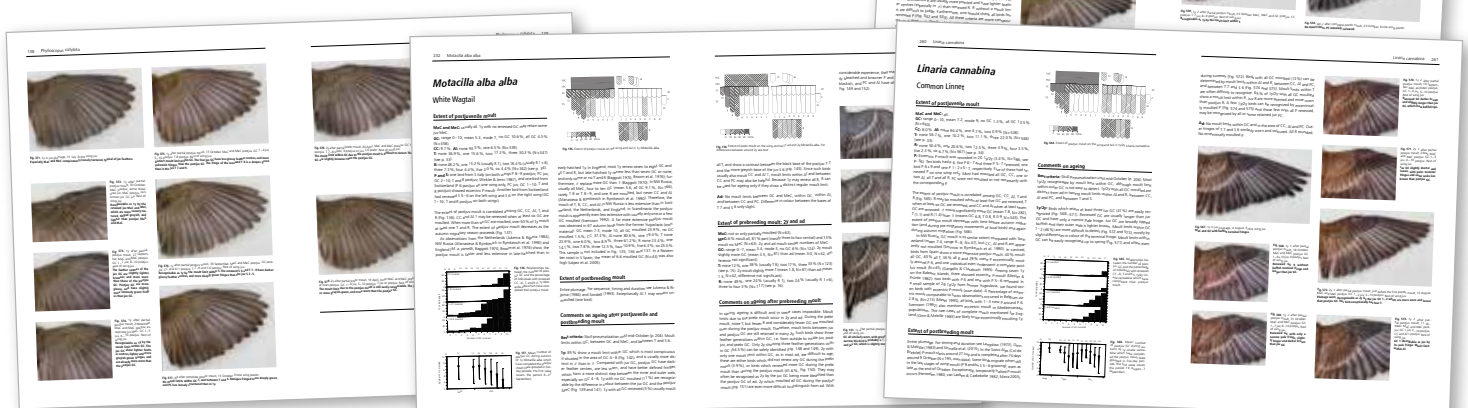

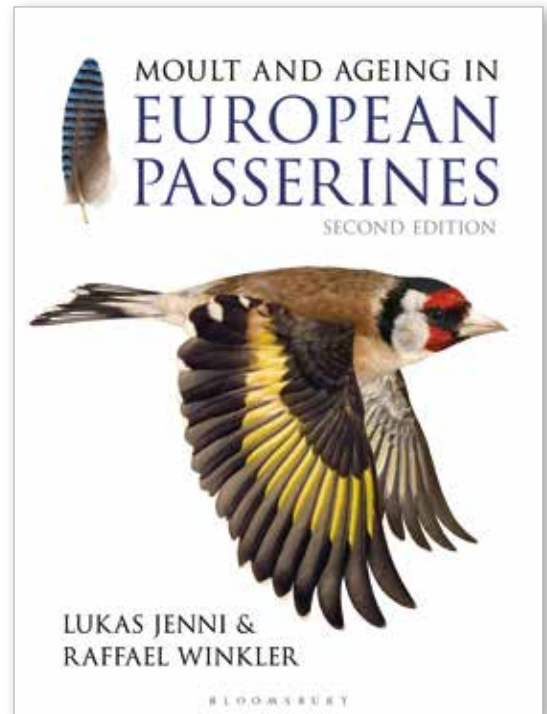

## Second Edition

Coming in  
February  
2020

A brand-new, completely revised second edition of Jenni and Winkler's classic guide, updated and improved for the next generation of ringers and professional ornithologists.

- Completely updated and revised second edition, with 16 new species accounts added, bringing the total covered to 74.
- Includes an up-to-date summary of the moult strategies and moult sequences of European passerines, and discusses the ecological consequences of moult. Using data on moult collected over 40 years of study combined with data from the literature this book presents a thorough synthesis of the subject.
- Detailed moult profiles are given for 74 European passerine species, illustrating all of the major moult strategies and including useful summary statistics, schematic diagrams of the extent of moult and indications of the variation within each species.
- The main moult strategies are illustrated with schematic graphs, and the moult strategies and extent of moult of every European passerine species are summarised in tabular form.
- More than 600 full-colour photographs of extended wings are included, showing the entire range of moult patterns and plumage-ageing criteria.

9781472941510 • £95.00

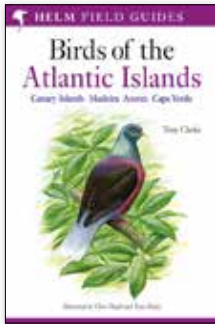

Large in format, packed with high-quality photography and lavish in production specifications, this second edition of *Moult and Ageing in European Passerines* is both a major reference for ornithologists, zoologists, bird ringers and dedicated birdwatchers, and a work of great scholarship and beauty.

### About the authors

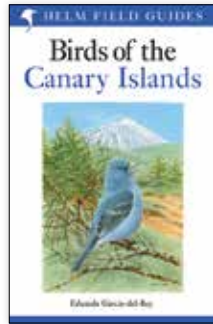

**Lukas Jenni** is a professor at the University of Zurich and scientific director of the Swiss Ornithological Institute.

**Raffael Winkler** is retired and works as a voluntary ornithologist at the Natural History Museum, Basel.
