## Central and East Java, Bali (7. – 15.08.2019)

### Itinerary:

Day and activities		Geo	Guides
07.08.	One hour late we arrived Semarang and drove to our hotel Rumah Dharma, close to Borobudur temple. The temple area is also good for spotting birds, many rice fields	Borobudur: 7°36'27.4"S 110°12'13.5"E	<b>Imam Taufiqurrahman</b> (info@loon-tour.com)
08.08.	Start at 5:30 a.m. the morning birding at two points SW of Yogyakarta, Pantai Roro Inten Pagak Ngombol and Trisik Beach; in the afternoon birding near Hotel Java Amazon Resort Villa with traditional agriculture	Trisik Beach: 7°58'55.1"S 110°12'19.9"E	
09.08.	Again, we leave at 5:30, drive to Merapi NP with three different sites, Pondok Wisata, Tlogo Muncar, Tlogo Normolo; hike to the Japanese caves, which were created by the Japanese during World War II; in the caves Least Horseshoe Bats and geckos. In the afternoon birding on a small river near the hotel.	Pondok Wisata: 7°36'17.7"S 110°26'06.4"E Tlogo Muncar: 7°35'28.4"S 110°26'02.1"E Tlogo Normolo: 7°35'25.7"S 110°25'36.1"E	
10.08.	At 7:25 a.m. we drive to the Prambanan Temple; good for Java Sparrows, which are easy to find in the Hindu temple complex. Especially good observation of Java Finches from the middle level of the main Shiva Temple. Here also other species can be observed well. In the afternoon delayed flight from Yogyakarta to Surabaya and a 2.5-hour transfer to our hotel Rani Homestay.	Prambanan: 7°45'06.5"S 110°29'29.4"E	
11.08.	Start at 4 a.m. to Bromo Viewpoint at 2240 m above sea level, then birding in the sandy and savannah surroundings of Bromo NP and then birding in the wooded surroundings of Ranu Pani; accommodation in Lumajang	Bromo View Point: 7°54'39.6"S 112°57'06.2"E	<b>Waskito Kukuh Wibowo</b> (www.bird-packer.com)
12.08.	Long drive to Baluran National Park; on the way at Probolinggo in Gending birding in a very interesting and species-rich pond landscape with mangroves. Afterwards drive to Baluran National Park; at 4 pm we reach Wonorejo, later an evening excursion (owls); overnight stay at Hotel Bajul Eco Lodge.	Probolinggo: 7°46'31.8"S 113°18'05.9"E Wonorejo: 7°55'15.0"S 114°24'55.4"E	
13.08.	Full day excursion in NP Baluran, in the late afternoon transfer to Bajul Eco Lodge Plataran/Bali via car ferry from Ketapang (Java) to Gilimanuk (Bali)	Savana Bekol: 7°50'24.1"S 114°26'25.0"E	
14.08.	Starting 6:00 a.m. for a full day excursion in West Bali NP	Bali Barak NP (Bali Tower): 8°08'37.7"S 114°32'50.0"E	<b>Hery Kusuma- negara</b>
15.08.	At 5 o'clock we start our drive through Bali; rice terraces and agriculture at Mayong-Gunungsari (cocoa, oranges [ripe fruits are green], clove trees, mangostin trees); Hindu temple Pura Ulun Danu Bratan in Bedugul; afterwards birding in the species-rich botanical garden Kebun Raya Bali; in the afternoon arduous drive (many traffic jams) to Hotel Pondok Nyoman.	Kebun Raya Bali: 8°16'44.1"S 115°09'23.9"E	

## Highlights

### Central Java:

**Borobudur** with its colossal Buddhist temple complex is located about 25 kilometers north-west of Yogyakarta. Borobudur was recognized by UNESCO as a world cultural heritage site in 1991 and is considered the most important building of Mahayana Buddhism on Java. During our short stay we could observe only a few species, but with Grey-cheeked Green Pigeon, Scarlet-headed Flowerpecker and Javan Mynah three endemic.

Java Sparrow; August 2019 / Java-Prambanan ©A&HV Bastian

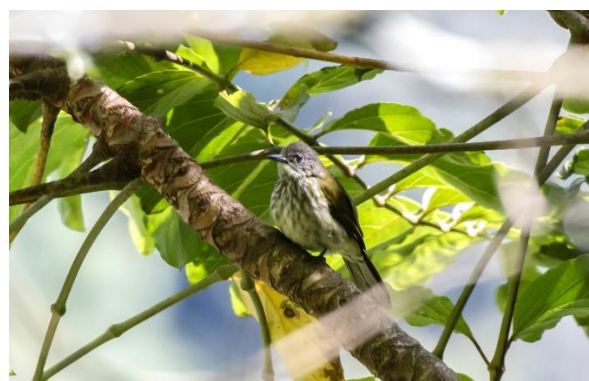

The **Prambanan** temple complex is the largest Hindu temple complex in Indonesia and Southeast Asia and is located on the eastern bank of the river Opaque. The complex was built in the 9<sup>th</sup> century and was completed around 856. In 1991 it was declared a UNESCO World Heritage Site. In Prambanan, which lies 18 km northeast of Yogyakarta, we could observe Java Sparrows very well, a species that has one of the last occurrences in the wild here. From the middle level of the central Shiva temple, Java Sparrows can be easily ob-

erved at the neighbouring Vishnu and Brahma temples. At the three main temples they breed in the numerous crevices. In the extensive complex with often scattered trees we could also observe White-breasted Woodswallow, Javan Tailorbird, Scarlet-headed Flowerpecker, Brown-throated Sunbird and Zebra Dove.

Black-Banded Barbet; August 2019 / Java-Merapi NP ©A&HV Bastian

The **Merapi** is one of the most active volcanoes in Java and is considered one of the most dangerous in the world. Unimpressed by this latent danger, people live and work close to the borders of Merapi NP. The uppermost part of the volcano is without vegetation due to the regular eruptions. Only below this zone are extensive protected casuarina forests. The national park can be hiked from three places, if the access is not generally closed due to acute danger. At Pondok Wisata there are good observation opportunities of Javan Whistling-Thrush, Pink-headed Fruit-Dove, Asian Glossy Starling, Javan Myna, Javan Forktail, Javan Fulvetta and Javan Kingfisher. It is also particularly rewarding to walk the Merapi from the western entrance Tlogo Normolo. Along a forest path connected to the road to 'Goa Jepang', you will reach a series of 18 caves created by the Japanese military before Indonesia's independence. Among others we saw Red-breasted Parakeet, Black-banded Barbet, Javan Tesia, Chestnut-

Sunda Bulbul; August 2019 / Java-Merapi NP ©A&HV Bastian

backed Scimitar Babbler, Javan Bulbul, Black-headed Bulbul, White-bellied Fantail, Blue Nuthatch, Cinereous Tit, Oriental and Mees's White-eye, Pied Shrike Babbler and White-flanked Sunbird. Sometimes the birds roamed around in large mixed flocks. The nesting place of the Javan Hawk Eagle, which can be seen from the path, was no longer occupied.

Javan Kingfisher; August 2019 / Java ©A&HV Bastian

The **coast southwest of Yogyakarta** was not very interesting for birdwatching, as wader migration had not yet started. You can certainly observe Great Crested Terns sitting on the sandbanks at Trisik Beach. Next to them we observed Banded Buttonquail, Cerulean Kingfisher and Common Sandpiper. There was a greater diversity of species at Pantai Roro. Here the landscape is more varied with rice fields, shrimp farms, shallow waters, bushes and beaches. Javan Plover, White-browed Crake, Purple Heron, Intermediate, Little

and Cattle Egret, Javan Kingfisher, Golden-headed and Zitting Cisticola, Plain Prinia, Javan, White-headed and Scaly-breasted Munia and Baya Weaver are some of the species observed.

Javan White-eye; August 2019 / Java-Probolinggo ©A&HV Bastian

### Ost-Java:

**Probolinggo** is a city on the northeast coast of Java; a little east of the city near Gending there is a hitherto little known mangrove and pond area. Several endemic species can be found here, e.g. Javan White-eye, which can be observed very well from the paths between the ponds. Other bird species observed were Sunda Brush Cuckoo, Freckle-breasted Woodpecker, Javan Kingfisher, Small Minivet, Yellow-bellied Prinia, Zitting Cisticola, Brown-throated Sunbird, Yellow-vented Bulbul, Javan and Scaly-breasted Munia.

Paddyfield Pipit; August 2019 / Java-Tengger sand sea ©A&HV Bastian

**Bromo-Tengger-Semeru National Park** is famous for its fantastic and atmospheric sunrises. However, the area has a lot to offer, especially for birdwatchers, because of its varied landscape. The national park includes the 3676 m high stratovolcano Semeru, the highest mountain of Java as well as four volcanoes in the Tengger caldera, of which Bromo is the most famous. The caldera is filled by the Tengger sand sea, which can only be crossed by jeep. The vegetation-free landscape is dominated by the black volcanic ash. At the edges of the caldera the landscape changes and changes to a steppe biotope. Paddyfield Pipit and Pied Bushchat are common here. Afterwards we leave the caldera and stayed on the forested crater rim. The volcano Semeru was active with

Island Trush; August 2019 / Java-Ranu Pani ©A&HV Bastian

clouds of smoke. Afterwards it goes up to Ranu Pani at 2000 m above sea level. This place is inhabited by the Tengger people, an original tribe on Java with their own language and writing. Again and again we stop to look for birds. Among others we found Dark-backed Imperial-Pigeon, Banded Kingfisher, Black-banded Barbet, Javan Flameback, Checker-throated Woodpecker, Grey-and-buff Woodpecker, Sunda Cuckooshrike, Sunda Minivet, Javan Flowerpecker, Javan Bush Warbler, Little Pied Flycatcher, Mountain Leaf Warbler, White-

bellied Fantail, Yellow-bellied Warbler, Sunda Bush Warbler, Mountain Tailorbird, Island and Scaly Thrush and Javan Heleia.

Silver-Leaf Monkey; August 2019 / Java-Baluran NP ©A&HV Bastian

Sunda sambar; August 2019 / Java-Baluran NP ©A&HV Bastian

In the very east of Java lies the **Baluran National Park**. A large part of the 250km<sup>2</sup> large area are savannah-like landscapes, which are partly forested with acacias and are home to numerous animal species. Baluran receives on average only 3 months of rain. The Baluran National Park has 444 species of trees, some of which are unique such as the Witoro Bukol (*Ziziphus rotundifolia*), Mimba (*Azadirachta indica*) and Pilang (*Acacia leucophloea*). Other trees are Kemiri (*Aleurites moluccana*), Gebang (*Corypha utan*), Api-Api (*Avicennia sp.*), the tamarind tree (*Tamarindus indica*), Gadung (*Dioscorea hispida*), Kendal (*Cordia obliqua*), Manting (*Syzygium polyanthum*) and Kepuh (*Sterculia foetida*). The park is a habitat for 26 mammal species, including the banteng, wild water buffalo, the ajag, the Indian muntjak, the Sunda sambar, leopards, the Java mouse-deer and the Fishing Cat as well as the omnipresent Long-tailed Macaque, but also Silver-leaf Monkeys. The avifauna here is rich, with e.g. Orange-breasted Green Pigeon, Sunda Coucal, Green Junglefowl, Green Peafowl, Crested Serpent-Eagle, Spotted Wood-Owl, Oriental Pied-Hornbill, Hair-crested Drongo, Brown-backed Needletail, Barred and Small Buttonquail, Rufous-backed Dwarf-Kingfisher, Orange-breasted Trogon, Pied Trill, Small and Scarlet Minivet. We saw here also two very rare species, the Java Sparrow and Black-winged Starling, which are today critically endangered in the wild due to the unbridled bird trade.

Laced Woodpecker; August 2019 / Bali-Bali Barat NP ©A&HV Bastian

## Bali:

Bali has close faunistic links with Java, which is only 2.4 km away, separated from the Bali Street. The proximity of the two islands means that the species composition in Bali is less independent than in most other larger Indonesian islands. Mammals endemic to Bali do not exist, nor do endemic reptiles and amphibians. And of the 280 bird species in Bali, only the Bali Mynah is endemic. In the extreme north-west of Bali, the 190 km<sup>2</sup> **Bali Barat National Park** was established in 1941, primarily to protect this single endemic species, as its natural habitats were increasingly lost due to the conversion of forests into Coconut and Kapok plantations. In 2019 more than 250 individuals of this charismatic bird were found here, although about 15 years ago the free-living population had decreased to a few birds and the species was suspected to be extinct. Through consequent protection, targeted releases and the successful restriction of poaching, the Bali Mynah is hopefully saved from final extinction in the wild. The Bali Barat National Park comprises different habitats, coastal strips, settlements, secondary forests and mountain regions. On the coast we observed Javan Plover, Grey-tailed Tattler, Wood Sandpiper, Bar-tailed Godwit, Whimbrel, Lesser Adjutant, Sacred Kingfisher, Mangrove Whistler and others; in the secondary forests and settlements Black-napped Fruit-Dove, Island Collared-Dove, Orange-breasted Green Pigeon, Grey-cheeked Green Pigeon, Pink-necked Green Pigeon, Banded Bay Cuckoo, Javan Banded-Pitta, Black-thighed Falconet, Blue-eared, Coppersmith and Lineated Barbet, Sunda Scops-Owl, Rufous-backed Dwarf-Kingfisher, Olive-backed Tailorbird, Scarlet-headed Flowerpecker, Horsfield's Wren Babbler and Racket-tailed Treepie.

Inland from Bali is the 157 ha **Kebun Raya Bali Botanical Garden**. The very quiet Botanical garden consists of open, park-like areas as well as a mountain rainforest with often old and large trees, some

of which stand also alone. The visitor can explore the extensive botanical garden on foot or by car. Due to its structure, the botanical garden is, of course, especially interesting for forest birds, thus we found, among others, Dark-backed Imperial-Pigeon, Black-backed Fruit-Dove, Yellow-throated Hanging-Parrot, Javan Flowerpecker, Indonesian Honeyeater, Lesser Shortwing, Little Pied Flycatcher, Javan Whistling-Thrush, Tenggara Whistler, Crescent-chested Babbler, Sunda Warbler, Mountain Tailorbird, Grey-headed Canary-Flycatcher, Short-tailed Starling and Javan Heleia.

**List of birds** (species names based on various sources, mainly on Eaton et al.: Birds of the Indonesian Archipelago)

	Scientific name	English name	German name
1	<i>Spilornis cheela</i>	Crested Serpent-Eagle	Schlangenweihe
2	<i>Anas gibberifrons</i>	Sunda Teal	Sunda-Weikehlente
3	<i>Anthracoceros albirostris</i>	Oriental Pied-Hornbill	Orienthornvogel
4	<i>Aerodramus fuciphagus</i>	Edible-nest Swiftlet	Weinestsalangane
5	<i>Collocalia linchi</i>	Cave Swiftlet	Linchisalangane
6	<i>Hirundapus giganteus</i>	Brown-backed Needletail	Eilsegler
7	<i>Caprimulgus affinis</i>	Savanna Nightjar	Savannennachtschwalbe
8	<i>Charadrius javanicus</i>	Javan Plover	Javaregenpfeifer
9	<i>Charadrius leschenaultii</i>	Greater Sand-Plover	Wstenregenpfeifer
10	<i>Charadrius peronii</i>	Malaysian Plover	Malaienregenpfeifer
11	<i>Sternula albifrons</i>	Little Tern	Zwergseeschwalbe
12	<i>Thalasseus bergii</i>	Great Crested Tern	Eilseeschwalbe
13	<i>Himantopus leucocephalus</i>	Pied Stilt	Weissgesicht-Stelzenlufer
14	<i>Actitis hypoleucos</i>	Common Sandpiper	Fluuferlufer
15	<i>Arenaria interpres</i>	Ruddy Turnstone	Steinwlzer
16	<i>Limosa lapponica</i>	Bar-tailed Godwit	Pfuhlschnepfe
17	<i>Numenius phaeopus</i>	Whimbrel	Regenbrachvogel
18	<i>Tringa brevipes</i>	Gray-tailed Tattler	Grauschwanz-Wasserlufer
19	<i>Tringa glareola</i>	Wood Sandpiper	Bruchwasserlufer
20	<i>Tringa nebularia</i>	Common Greenshank	Grnschenkel
21	<i>Tringa totanus</i>	Common Redshank	Rotschenkel
22	<i>Turnix suscitator</i>	Barred Buttonquail	Bindenlaufhhnchen
23	<i>Turnix sylvaticus</i>	Small Buttonquail	Laufhhnchen
24	<i>Leptoptilos javanicus</i>	Lesser Adjutant	Kleiner Adjutant
25	<i>Chalcophaps indica</i>	Asian Emerald Dove	Graukappen-Glanztaube
26	<i>Ducula lacernulata</i>	Dark-backed Imperial-Pigeon	Schwarzrcken-Fruchttaube
27	<i>Geopelia striata</i>	Zebra Dove	Sperbertubchen
28	<i>Macropygia emiliana</i>	Ruddy (Parzudaki's) Cuckoo-Dove	Indonesientaube
29	<i>Ptilinopus cinctus</i>	Black-backed Fruit-Dove	Weikopf-Fruchttaube
30	<i>Ptilinopus melanospilus</i>	Black-naped Fruit-Dove	Schwarzkappen-Fruchttaube
31	<i>Ptilinopus porphyreus</i>	Pink-headed Fruit-Dove	Rothals-Fruchttaube
32	<i>Streptopelia bitorquata</i>	Island Collared-Dove	Sundakichertaube
33	<i>Streptopelia chinensis</i>	Spotted Dove	stliche Perlhals-Taube
34	<i>Treron bicinctus</i>	Orange-breasted Green Pigeon	Bindengrntaube
35	<i>Treron griseicauda</i>	Grey-cheeked Green Pigeon	Graumaskentaube
36	<i>Treron vernans</i>	Pink-necked Green Pigeon	Frhlingstaube
37	<i>Alcedo coerulescens</i>	Cerulean Kingfisher	Trkiseisvogel
38	<i>Ceyx rufidorsa</i>	Rufous-backed Dwarf-Kingfisher	
39	<i>Halcyon cyanoventris</i>	Javan Kingfisher	Javaliest
40	<i>Lacedo pulchella</i>	Banded Kingfisher	Wellenliest
41	<i>Todiramphus chloris</i>	Collared Kingfisher	Halsbandliest
42	<i>Todiramphus sanctus</i>	Sacred Kingfisher	Gtzenliest
43	<i>Merops philippinus</i>	Blue-tailed Bee-eater	Blauschwanzspint
44	<i>Merops leschenaulti</i>	Chestnut-headed Bee-eater	Braunkopfspint
45	<i>Cacomantis sonneratii</i>	Banded Bay Cuckoo	Sonneratkuckuck

46	<i>Cacomantis (sepulcralis) variolosus</i>	(Sunda) Brush Cuckoo	Buschkuckuck (Rostbrustkuckuck)
47	<i>Centropus nigrorufus</i>	Sunda Coucal	Javakuckuck
48	<i>Microhierax fringillarius</i>	Black-thighed Falconet	Finkenfalkchen
49	<i>Gallus varius</i>	Green Junglefowl	Gabelschwanzhuhn
50	<i>Pavo muticus</i>	Green Peafowl	Ährenträgerpfaue
51	<i>Amaurornis cinerea</i>	White-browed Crake	Weißbrauen-Sumpfhuhn
52	<i>Amaurornis phoenicurus</i>	White-breasted Waterhen	Weißbrust-Kielralle
53	<i>Gallinula chloropus</i>	Eurasian Moorhen	Teichhuhn
54	<i>Porphyrio indicus</i>	Black-backed Swamphen	Purpurhuhn
55	<i>Ardea alba modesta</i>	Great Egret	Silberreiher
56	<i>Ardea intermedia</i>	Intermediate Egret	Asienmittelreiher
57	<i>Ardea purpurea</i>	Purple Heron	Purpurreiher
58	<i>Ardeola speciosa</i>	Javan Pond-Heron	Prachtreiher
59	<i>Bubulcus ibis</i>	Cattle Egret	Kuhreiher
60	<i>Egretta garzetta</i>	Little Egret	Seidenreiher
61	<i>Egretta sacra</i>	Pacific Reef-Heron	Riffreiher
62	<i>Ixobrychus sinensis</i>	Yellow Bittern	Chinadommel
63	<i>Psilopogon armillaris</i>	Flame-fronted Barbet	Temminckbartvogel
64	<i>Psilopogon duvaucelii</i>	Blue-eared Barbet	Schwarzohr-Bartvogel
65	<i>Psilopogon haemacephalus</i>	Coppersmith Barbet	Kupfer-Schmiedbartvogel
66	<i>Psilopogon javensis</i>	Black-banded Barbet	Javabartvogel
67	<i>Psilopogon lineatus</i>	Lineated Barbet	Streifenbartvogel
68	<i>Chrysocolaptes strictus</i>	Javan Flameback	Javasultanspecht
69	<i>Chrysophlegma mentale</i>	Checker-throated Woodpecker	Java-Tropfenkehlspecht
70	<i>Dendrocopos analis</i>	Freckle-breasted Woodpecker	Sprenkelbrustspecht
71	<i>Dinopium javanense</i>	Common Flameback	Feuerrückenspecht
72	<i>Dryocopus javensis</i>	White-bellied Woodpecker	Weißbauchspecht
73	<i>Hemicircus concretus</i>	Grey-and-buff Woodpecker	Java-Kurzschwanzspecht
74	<i>Picus puniceus</i>	Crimson-winged Woodpecker	Rotflügelspecht
75	<i>Picus vittatus</i>	Laced Woodpecker	Netzbauchspecht
76	<i>Loriculus pusillus</i>	Yellow-throated Hanging-Parrot	Elfenpapageichen
77	<i>Psittacula alexandri</i>	Red-breasted Parakeet	Bartsittich
78	<i>Otus lempiji</i>	Sunda Scops-Owl	Sunda-Zwergohreule
79	<i>Strix seloputo</i>	Spotted Wood-Owl	Pagodenkauz
80	<i>Harpactes oreskios</i>	Orange-breasted Trogon	Orangebrusttrogon
81	<i>Gerygone sulphurea</i>	Golden-bellied Gerygone	Goldbrustgerygone
82	<i>Aegithina tiphia scapularis</i>	Common lora	Schwarzflügeliora
83	<i>Artamus leucorhynchus</i>	White-breasted Woodswallow	Weißbauch-Schwalbenstar
84	<i>Coracina javensis</i>	Javan Cuckooshrike	Javaraupenfänger
85	<i>Coracina larvata</i>	Sunda Cuckooshrike	Larvenraupenfänger
86	<i>Lalage nigra</i>	Pied Triller	Weißstirnlalage
87	<i>Pericrocotus cinnamomeus</i>	Small Minivet	Zwergmennigvogel
88	<i>Pericrocotus miniatus</i>	Sunda Minivet	Sundamennigvogel
89	<i>Pericrocotus speciosus</i>	Scarlet Minivet	Scharlachmennigvogel
90	<i>Chloropsis cochinchinensis</i>	Javan Leafbird	Blauflügel-Blattvogel
91	<i>Cisticola exilis</i>	Golden-headed Cisticola	Goldkopf-Zistensänger
92	<i>Cisticola juncidis</i>	Zitting Cisticola	Zistensänger
93	<i>Orthotomus sepium</i>	Olive-backed Tailorbird	Rostwangen-Schneidervogel
94	<i>Orthotomus sutorius</i>	Common Tailorbird	Rotstirn-Schneidervogel

95	<i>Prinia flaviventris</i>	Yellow-bellied Prinia	Gelbbauchprinie
96	<i>Prinia inornata</i>	Plain Prinia	Schlichtprinie
97	<i>Corvus enca</i>	Sunda Crow	Sundakrahe
98	<i>Crypsirina temia</i>	Racket-tailed Treepie	Spatelbaumelster
99	<i>Dicaeum sanguinolentum</i>	Javan Flowerpecker	Purpurmistelfresser
100	<i>Dicaeum trigonostigma</i>	Orange-bellied Flowerpecker	Orangebauch-Mistelfresser
101	<i>Dicaeum trochileum</i>	Scarlet-headed Flowerpecker	Feuerkopf-Mistelfresser
102	<i>Dicrurus leucophaeus</i>	Ashy Drongo	Graudrongo
103	<i>Dicrurus macrocercus</i>	Black Drongo	Konigsdrongo
104	<i>Dicrurus hottentottus (jentincki)</i>	Hair-crested Drongo	Haarbuschdrongo
105	<i>Lonchura leucogastroides</i>	Javan Munia	Javabronzemannchen
106	<i>Lonchura maja</i>	White-headed Munia	Weißkopfnonne
107	<i>Lonchura oryzivora</i>	Java Sparrow	Javareisfink
108	<i>Lonchura punctulata</i>	Scaly-breasted Munia	Muskatbronzemannchen
109	<i>Cecropis daurica</i>	Daurian Swallow	Rotelschwalbe
110	<i>Hirundo rustica</i>	Barn Swallow	Rauchschwalbe
111	<i>Hirundo tahitica</i>	Pacific Swallow	Sudseeschwalbe
112	<i>Lanius schach</i>	Long-tailed Shrike	Schachwurger
113	<i>Alcippe pyrrhoptera</i>	Javan Fulvetta	Rotruckenalcippe
114	<i>Locustella montis</i>	Sunda Grasshopper Warbler	Javabuschsanger
115	<i>Megalurus palustris</i>	Striated Grassbird	Strichelkopf-Schilfsteiger
116	<i>Lichmera limbata</i>	Indonesian Honeyeater	Balihonigfresser
117	<i>Anthus rufulus</i>	Paddyfield Pipit	Orientspornpieper
118	<i>Brachypteryx leucophris</i>	Lesser Shortwing	Zwergkurzflugel
119	<i>Cyornis olivaceus</i>	Fulvous-chested Jungle-Flycatcher	Olivrucken-Dschungelschnapper
120	<i>Cyornis unicolor</i>	Pale Blue Flycatcher	Blaubrustschnapper
121	<i>Enicurus leschenaulti</i>	White-crowned Forktail	Weißscheitel-Scherenschwanz
122	<i>Eumyias indigo</i>	Indigo Flycatcher	Indigoschnapper
123	<i>Ficedula westermanni</i>	Little Pied Flycatcher	Elsterschnapper
124	<i>Myophonus glaucinus</i>	Javan Whistling-Thrush	Javapfeidfrossel
125	<i>Saxicola caprata</i>	Pied Bushchat	Mohrenschwarzkehlchen
126	<i>Aethopyga eximia</i>	White-flanked Sunbird	Javanektarvogel
127	<i>Anthreptes malacensis</i>	Brown-throated Sunbird	Braunkehl-Nektarvogel
128	<i>Cinnyris ornatus</i>	Ornate Sunbird	
129	<i>Oriolus chinensis</i>	Black-naped Oriole	Schwarznackenzirol
130	<i>Pachycephala cinerea</i>	Mangrove Whistler	Schnapperdickkopf
131	<i>Pachycephala fulvotincta</i>	Rusty-breasted Whistler	Goldnacken-Dickkopf
132	<i>Parus cinereus</i>	Cinereous Tit	
133	<i>Passer montanus</i>	Eurasian Tree Sparrow	Feldsperling
134	<i>Turdinus sepiarius</i>	Horsfield's Wren Babbler	Horsfieldmaustimalie
135	<i>Cyanoderma melanothorax</i>	Crescent-chested Babbler	Perlwangentimalie
136	<i>Pomatorhinus montanus</i>	Chestnut-backed Scimitar-Babbler	Rotruckensabler
137	<i>Phylloscopus trivirgatus</i>	Mountain Leaf Warbler	Sudsee-Laubsanger
138	<i>Phylloscopus grammiceps</i>	Sunda Warbler	Sundalaubsanger
139	<i>Hydrornis guajanus</i>	Javan Banded-Pitta	Bindenpitta
140	<i>Ploceus philippinus</i>	Baya Weaver	Bayaweber
141	<i>Alophoixus bres</i>	Grey-cheeked Bulbul	Grauwangenbulbul
142	<i>Brachypodius atriceps</i>	Black-headed Bulbul	Schwarzkopfbulbul
143	<i>Ixos virescens</i>	Sunda Bulbul	Sumatrabulbul

144	<i>Pycnonotus aurigaster</i>	Sooty-headed Bulbul	Kotilangbülbul
145	<i>Pycnonotus goiavier analis</i>	Yellow-vented Bulbul	Augenstreifbülbul
146	<i>Rubigula dispar</i>	Ruby-throated Bulbul	Sunda-Goldbrustbülbul
147	<i>Rhipidura euryura</i>	White-bellied Fantail	Kurzfuß-Fächerschwanz
148	<i>Rhipidura javanica</i>	Malaysian Pied Fantail	Malaienfächerschwanz
149	<i>Abroscopus superciliaris</i>	Yellow-bellied Warbler	Bambuslaubsänger
150	<i>Horornis vulcanius</i>	Sunda Bush Warbler	Müllerbuschsänger
151	<i>Phyllergates cucullatus</i>	Mountain Tailorbird	Bergschneidervogel
152	<i>Tesia superciliaris</i>	Javan Tesia	Brauentesia
153	<i>Sitta azurea</i>	Blue Nuthatch	Schwarzbauchkleiber
154	<i>Sitta frontalis</i>	Velvet-fronted Nuthatch	Samtstirnkleiber
155	<i>Culicicapa ceylonensis</i>	Grey-headed Canary-Flycatcher	Graukopf-Kanarienschnäpper
156	<i>Acridotheres javanicus</i>	Javan Myna	Graumaina
157	<i>Acridotheres melanopterus</i>	Black-winged Starling	Schwarzflügelmaina (Graurückenmaina)
158	<i>Acridotheres tristis</i>	Common Myna	Hirtenmaina
159	<i>Aplonis minor</i>	Short-tailed Starling	Sundastar
160	<i>Aplonis panayensis</i>	Asian Glossy Starling	Malaienstar
161	<i>Leucopsar rothschildi</i>	Bali Myna	Balistar
162	<i>Turdus poliocephalus</i>	Island Thrush	Südseedrossel
163	<i>Zoothera dauma</i>	Scaly Thrush	Erddrossel
164	<i>Hemipus hirundinaceus</i>	Black-winged Flycatcher-shrike	Schwarzflügel-Raupenschmätzer
165	<i>Pteruthius flaviscapis</i>	Pied Shrike-Babbler	Weißbrauen-Würgertimalie
166	<i>Lophozosterops javanicus</i>	Mees's White-eye	Javabrillenvogel
167	<i>Zosterops flavus</i>	Javan White-eye	Horsfieldbrillenvogel
168	<i>Zosterops palpebrosus</i>	Oriental White-eye	Gangesbrillenvogel

## List of Mammals

	Scientific name	English name	German name
1	<i>Macaca fascicularis</i>	Long-Tailed Macaque	Langschwanzmakaken
2	<i>Trachypithecus auratus</i>	Silver-Leaf Monkeys	Schwarze Haubenlangur
3	<i>Bos javanicus</i>	Banteng	Banteng
4	<i>Bubalus bubalis</i>	Water buffalo	Wasserbüffel
5	<i>Rusa timorensis rusa</i>	Sunda sambar	Mähnenhirsch
6	<i>Muntiacus muntjak</i>	Indian muntjak	Indisches Muntjak
7	<i>Callosciurus notatus</i>	Plantain Squirrel	Bananenhörnchen
8	<i>Sundasciurus tenuis</i>	Slender Squirrel	Sunda-Schlankhörnchen
