I. STATEMENT OF WORK

A. Project Background

In 2015, Gwinnett County Department of Water Resources (GCDWR) developed a Predictive Maintenance Program for the County's water plants, waste water treatment plants, waste water pump stations, and water tanks and booster stations. Part of the program focuses on the collection and analysis of vibration data, infrared thermography, and electric motor testing for critical assets. This project is intended to continue this program, ensure GCDWR collection and analysis techniques are aligned to industry standards, expand the use of predictive maintenance technologies, and provide mentoring and training for the Department of Water Resources Predictive Maintenance Team for Facility Operations. Currently, the team is comprised of six GCDWR personnel. A list of certifications held by Predictive Maintenance Technicians can be found in Appendix A.

The Predictive Maintenance program includes assets at the following facilities:

- F. Wayne Hill WRC
- Yellow River WRF
- Crooked Creek WRF
- Lanier Filter Plant
- Shoal Creek Filter Plant
- Waste Water Pump Stations (15 Stations)
- Water Booster Stations (7 Stations)

B. Vibration Analysis

GCDWR currently utilizes the SKF CMXA-75-MK-SL to collect vibration data (vertical, axial, and horizontal) on 400 critical rotating assemblies. This effort results in approximately 5,000 data points collected each month being loaded into the department's SKF Aptitude Analyst Software for vibration analysis. Data collection and analysis efforts have been completed for the past twenty (20) months. GCDWR technicians have received fundamentals and on the job training for data collection and vibration analysis to support this effort over the past eighteen (18) months.

C. Infrared Thermography

GCDWR currently utilizes the Fluke TiX520 and T200 series infrared cameras to perform infrared thermography inspections over 4,000 assets each year. GCDWR staff received fundamentals and on the job training over the past eighteen (18) months. Currently, this effort is fully supported by GCDWR Facility Operations without outside support. Facility Operations has 14 maintenance technicians certified IR Level II and 15 maintenance technicians certified IR Level 1.

D. Electric Motor Testing

GCDWR conducts electric motor testing or EMT on an as needed basis using outside vendors. Vendors provide static and or dynamic testing at the request of GCDWR to evaluate the current condition of electric motors. GCDWR technicians have received fundamentals and on the job training for use of the technology. Currently there is no formal program in place.

Proposers offering and quoting on substitutions or who are deviating from the attached specifications shall list such deviations on a separate sheet to be submitted with their proposal. The absence of such a substitution list shall indicate that the proposer has taken no exception to the specifications contained therein.

XXII. INELIGIBLE PROPOSERS

The County may choose not to accept the proposal of one who is in default on the payment of taxes, licenses or other monies owed to the County. Failure to respond three (3) consecutive times for any given commodity may result in removal from the list under that commodity.

XXIII. OCCUPATION TAX CERTIFICATE

Each successful proposer shall provide evidence of a valid Gwinnett County occupation tax certificate if the proposer maintains an office within the unincorporated area of Gwinnett County. Incorporated, out of County and out of State proposers are required to provide evidence of a certificate to do business in any town, County or municipality in the State of Georgia, or as otherwise required by County ordinance or resolution.

XXIV. PURCHASING POLICY AND REVIEW COMMITTEE:

The Purchasing Policy and Review Committee has been established to review purchasing procedures and make recommendations for changes; resolve problems regarding the purchasing process; make recommendations for standardization of commodities, schedule buying, qualified products list, annual contracts, supplier performance (Ineligible Source List) and other problems or requirements related to Purchasing. The Purchasing Policy and Review Committee have authority to place suppliers and contractors on the Ineligible Source List for reasons listed in the Gwinnett County Purchasing Ordinance.

XXV. AMERICANS WITH DISABILITIES ACT:

All contractors for Gwinnett County are required to comply with all applicable sections of the Americans with Disabilities Act (ADA) as an equal opportunity employer. In compliance with the Americans with Disabilities Act (ADA), Gwinnett County provides reasonable accommodations to permit a qualified applicant with a disability to enjoy the privileges of employment equal to those employees without disabilities. Disabled individuals must satisfy job requirements for education background, employment experience, and must be able to perform those tasks that are essential to the job with or without reasonable accommodations. Any requests for reasonable accommodations required by individuals to fully participate in any open meeting, program or activity of Gwinnett County should be directed to Michael Plonowski, Human Relations Coordinator, 75 Langley Drive, Lawrenceville, Georgia 30046, 770-822-8015.

XXVI. ALTERATIONS OF SOLICITATION AND ASSOCIATED DOCUMENTS:

Alterations of County documents are strictly prohibited and will result in automatic disqualification of the firm's solicitation response. If there are "exceptions" or comments to any of the solicitation requirements or other language, then the firm may make notes to those areas, but may not materially alter any document language.

XXVII. TAX LIABILITY:

Local and state governmental entities must notify contractors of their use tax liability on public works projects. Under Georgia law, private contractors are responsible for paying a use tax equal to the sales tax rate on material and

equipment purchased under a governmental exemption that is incorporated into a government construction project: excluding material and equipment provided for the installation, repair, or expansion of a public water, gas or sewer system when the property is installed for general distribution purposes. To the extent the tangible personal property maintains its character (for example the installation of a kitchen stove), it remains tax-exempt. However, if the installation incorporates the tangible personal property into realty, e.g., the installation of sheetrock, it becomes taxable to the private contractor. See O.C.G.A. 48-8-3(2) and O.C.G.A. 48-8-63

XXVIII. STATE LAW REGARDING WORKER VERIFICATION

Effective July 1, 2013 State Law requires that all who enter into a contract for the physical performance of services for all labor or service contract(s) that exceed \$2,499.99 (except for services performed by an individual who is licensed pursuant to Title 26, Title 43, or the State Bar of Georgia) for the County, must satisfy the Illegal Immigration Reform and Enforcement Act, in all manner, and such are conditions of the contract.

The Purchasing Division Director with the assistance of the Performance Analysis Division shall be authorized to conduct random audits of a contractor's or subcontractors' compliance with the Illegal Immigration Reform and Enforcement Act and the rules and regulations of the Georgia Department of Labor. The contractor and subcontractors shall retain all documents and records of its compliance for a period of five (5) years following completion of the contract. This requirement shall apply to all contracts for all labor or service contracts that exceed \$2,499.99 except for services performed by an individual who is licensed pursuant to Title 26, Title 43, or the State Bar of Georgia.

Whenever it appears that a contractor's or subcontractor's records are not sufficient to verify the work eligibility of any individual in the employ of such contractor or subcontractor, the Purchasing Director shall report same to the Department of Homeland Security and may result in termination of the contract if it is determined at any time during the work that the contractor/or subcontractor is no longer in compliance with the Illegal Immigration Reform and Enforcement Act.

XXIX. SOLID WASTE ORDINANCE

No individual, partnership, corporation or other entity shall engage in solid waste handling except in such a manner as to conform to and comply with the current Gwinnett County Solid Waste Ordinance and all other applicable local, state and federal legislation, rules, regulation and orders.

XXX. GENERAL CONTRACTORS LICENSE

Effective July 1, 2008: **All General Contractors must have a current valid license from the State Licensing Board for Residential and General Contractors, unless specifically exempted from holding such license pursuant to Georgia law (O.C.G.A. Section 43-41-17).**

XXXI. INDEMNIFICATION

To the fullest extent permitted by law, the Contractor shall, at his sole cost and expense, indemnify, defend, satisfy all judgments, and hold harmless the County, the engineer, and their agents and employees from and against all claims, damages, actions, judgments, costs, penalties, liabilities, losses and expenses, including, but not limited to, attorney's fees arising out of or resulting from the performance of the work, provided that any such claim, damage, action, judgment, cost, penalty, liability, loss or expense (1) is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the work itself) including the loss of use resulting therefrom, and (2) is caused in whole or in part by any act or omission of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless whether such claim is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge or otherwise reduce any of the rights or obligations of indemnity which would otherwise exist as to any party or person described in this agreement. In any and all claims against the County, the engineer, or any of their agents or employees by any employee of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, the indemnification obligation contained herein shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor or any subcontractor under Worker's Compensation Acts, disability benefit acts, or other employee benefit acts.

XXXII. CODE OF ETHICS:

“Proposer/Bidder” shall disclose under oath the name of all elected officials whom it employs or who have a direct or indirect pecuniary interest in the business entity, its affiliates, or its subcontractors. The “Proposer/Bidder” shall execute a Code of Ethics affidavit. Failure to submit the affidavit during the bid or proposal process shall render the bid or proposal non-responsive.

The act of submitting false information or omitting material information shall be referred to the Purchasing Policy & Review Committee for action pursuant to the Purchasing Ordinance or to the District Attorney for possible criminal prosecution.

Any business entity holding a contract with Gwinnett County that subsequent to execution of the contract or issuance of the purchase order employs, subcontracts with, or transfers a direct or indirect pecuniary interest in the business entity to an elected official shall within five (5) days disclose such fact in writing under oath to the Clerk of the Board of Commissioners. Failure to comply shall be referred to the Purchasing Policy & Review Committee for action pursuant to the Purchasing Ordinance or to the District Attorney for possible criminal prosecution.

Note: See Gwinnett County Code of Ethics Ordinance EO2011, Sec. 60-33. The ordinance will be available to view in its entirety at www.gwinnettcounty.com

XXXIII. PENDING LITIGATION:

A proposal submitted by an individual, firm or business who has litigation pending against the County, or anyone representing a firm or business in litigation against the County, not arising out of the procurement process, will be disqualified.
