Reduced noise levels and lower dust emissions
bring more business opportunities

That's how we make the big difference, the Metso Way.

With its significantly reduced noise levels, the Lokotrack® Urban™ series gives you new opportunities to run crushing operations, even in challenging locations like city centers. It provides up to 60% reduction in 85dB(A) noise protection distances and substantially lower dust emissions, making it easier to get an environmental permit for heavily regulated, densely populated locations.

Find out more about the Lokotrack Urban series at www.metso.com/urban

#TheMetsoWay

Disclaimer notice: Process noise is highly dependent on process parameters, such as feed material, feed size, by-pass arrangements, crusher setting and ambient temperature. Actual values may vary depending on operation conditions and other equipment used on site. Metso Minerals, Inc. accepts no additional responsibility related to the noise and dust emission information provided in this example.

EDITOR'S NOTE

The *D&Ri Buyers' Guide* has been compiled using information supplied by the manufacturers listed to KHL's custom developed online live database and by specialist industry observers and analysts. KHL accepts no responsibility for any errors or omissions that may have resulted. Manufacturers on the database are invited to add, update or delete product entries at any time. The next *D&Ri Buyers' Guide* will be published in 2019 and any manufacturers not currently on the database should contact steve.ducker@khl.com

World leading quick coupler system

- » Reduce the number of machines on the site.
- » Improved safety.
- » No staff around the machine during tool changes.
- » Protected hose run.
- » Always the right attachment for the job.
- » Increased profitability och reduced transport costs.
- » Lightning fast change of hydraulic attachments.
- » Increased productivity.
- » Eliminates oil spills.

The KHL portfolio

KHL is the leading provider of global construction information with a portfolio that comprises magazines, websites, newsletters, directories, market studies, conferences, awards and exhibitions.

Established in 1989, KHL Group is the leading supplier of international construction information in the world. It has achieved rapid growth through market focus and an intense knowledge of the world market. Editorial quality and independence from commercial pressures is why KHL's magazines enjoy a loyal readership which is the foundation of long-term success for a publishing company.

KHL Group is a diversified media company that delivers information in whatever format the market demands. Using its strong market-leading magazine brands, KHL has expanded into digital magazines, newsletters, apps, directories, new media technologies, exhibitions, conferences, awards and contract publishing.

KHL has introduced professional publishing practices to the markets it serves. It was the first publisher in the construction industry to launch a website in the early nineties, and the first to be accredited with the acclaimed BPA International independent circulation audit in specific markets. KHL was also the first publisher in any sector to offer digital magazines, and to have those subscriptions independently audited. KHL constantly monitors growth markets and offers advertisers proven and trustworthy routes to their customers within those markets.

KHL Group, and any of its individual titles, are members of the following associations; Specialized Carriers & Rigging Association (SC&RA), Association of Equipment Manufacturers (AEM), European Demolition Association (EDA), National Demolition Association (NDA), Committee for European Construction Equipment (CECE), European Association of Heavy Haulage, Transport and Mobile Cranes (ESTA), European Rental Association (ERA), Construction Equipment Association (CEA), Periodicals in Construction and Agriculture (PICA), Association of Equipment Distributors (AED), Crane Rental Association of Canada (CRAC), Associated Wire Rope Fabricators (AWRF), International Powered Access Federation (IPAF), American Rental Association (ARA), European Confederation of Equipment Distributors (ECED), Hire Association Europe (HAE) and others.

OFF HIGHWAY RESEARCH

Off-Highway Research is KHL Group's specialist market intelligence arm. Formed in 1981 as part of The Economist Intelligence Unit (EIU), Off-Highway Research is a management consultancy specialising in the research and analysis of international construction, and agricultural equipment markets, and is the largest of its kind in the world.

The truly international demolition magazine

Demolition and Recycling International is the only fully international magazine for the demolition and associated recycling sectors, reporting on the latest equipment and projects around the world.

Demolition & Recycling International's global readership covers over 10,000 people in more than 150 countries worldwide and is made up of the leading figures in the demolition, construction and waste recycling sectors – equipment buyers and users alike. Launched in 1999, it is published six times a year and has now produced more than 100 issues since its inception.

This history has been built on in-depth coverage of the demolition and recycling sectors. Site reports, equipment, business and people news form the regular editorial content, along with special features covering equipment designed for the industry and our annual d&ri100 listing of demolition contractors by turnover. *D&Ri* also reports on the major trade shows and national demolition association gatherings around the world.

Many of the items of equipment that you can find in this guide are regularly featured in *D&Ri*, either as product upgrades, or within case studies, application stories and site reports. Most of the companies included in this guide will also feature in the magazine at various times.

The magazine is available as either printed copy or in digital format. You can register to be part of the digital circulation by going online at www.khl.com/demolition, where you will be able to download fully searchable versions of the current and previous issues of the magazine quickly and simply.

D&Ri has also established the annual World Demolition Summit, which consists of a one-day technical conference and evening gala dinner, at which the annual World Demolition Awards are presented following a shortlisting and judging process conducted by an nine-strong international panel of respected industry figures with more than 300 years' experience between them.

First held in 2009, the World Demolition Summit is part of the industry, with a track record that includes several successful years holding it in Amsterdam, a groundbreaking first North American event in Miami in 2016 and a record attendance in London last year.

This year it will reach another landmark venue when it is hosted in Dublin, Ireland. The date for your diary is Wednesday and Thursday November 7-8 and the venue is the Aviva Stadium, best known as the home of Irish rugby but which also contains world-

class conference facilities. We have also arranged special rates with the nearby Ballsbridge Hotel for World Demolition Summit delegates.

Many of the speaking slots have already been filled and once again the conference will provide a strong mix of international speakers.

From Europe come Artem Kondratiev (head of the Moscow division of demolition contractor Raz-Max), Florian Trinkl (CEO, Sauer Bau, Germany) and a speaker from multiple award-winning United Kingdom-based company Erith Contractors who will be named nearer the time.

North America provides OSHA specialist Dave Murray (State of Nevada), and we are also delighted to welcome Uttkarsh Mehta, a partner from Edifice Engineering in India.

Subjects include demolition in extreme conditions, the removal of gas plants and a major bridge as well as a detailed discussion of the Marble Arch Place project in London.

The World Demolition Awards continue to thrive with categories consisting of Contract of the Year over US\$1 million, Contract of the Year under US\$1million, Safety & Training Award, Collaboration Award, Explosive Demolition Award, Urban Demolition Award, Industrial Demolition Award, Civils Demolition Award, Recycling and Environmental Award, Manufacturers' Innovation Award, Tools and Attachments, and Manufacturers' Innovation Award, Plant and Equipment.

Because these awards are judged by an independent panel made up of leading industry figures from around the world, and

***D&Ri* like other titles in the KHL portfolio provides in-depth coverage of its chosen sector across a range of platforms**

not by the magazine itself, the winners receive the recognition of their industry peers.

As well as the 11 categories for which prospective award winners can enter, there is a special overall award for the best of the individual winners presented on the night, and an award for the best new entrant.

The winner in each category receives a distinctive trophy and the chance to use the winner's logo for its category in its marketing. Highly commended or shortlisted companies can also advertise their success after the event.

More details of both the summit and the awards can be found online at www.demolitionsummit.com and in our special World Demolition Summit newsletter, the *D&Ri* fortnightly e-newsletter, and in regular online updates at www.khl.com

Global voice

D&Ri is the International Media Partner of the European Demolition Association. It also works closely with the American National Demolition Association and attends and reports from the conventions of both. The magazine is circulated to members of the following associations:

France

Germany

Italy

Netherlands

T-LINK

T-LINK RETROFIT KITS

Now available as a retrofit kit, the innovative T-Link telematics system can help you plan, run and manage your fleet. The system can be fitted to older model Terex|Finlay machines and other mixed fleet equipment.

From the fleet management fundamentals of knowing the hours and location of your machine to sending machine specific alerts and tracking machine production, T-link can help you remotely monitor and manage your Terex|Finlay fleet and grow your business.

To find out more about T-link Telematics contact your local Terex|Finlay Dealer or visit:

www.terexfinlay.com

Compatible with your Terex Finlay or Mixed Fleet

 **TEREX** | FINLAY

WORKS FOR YOU.™

**JUST BY CHANGING
YOUR HYDRAULIC FLUID**

Digging deeper for operational savings?

Look no further than the hydraulic fluid powering your equipment. DYNAVIS® technology for hydraulic fluids achieves greater efficiency with less fuel consumption. Hydraulic fluids formulated to DYNAVIS® technology standards leverage the power of viscosity and its direct relationship to improved performance.

Learn more and calculate your own fuel savings with easy to use tools at dynavis.com

DYNAVIS® is a brand of Evonik or one of its subsidiaries.

HYDROCLIPS®

IMAGINE A HANDY WORKSHOP

HydrokiT
UK Ltd

**STACKABLE AND
READY TO HAND TOOLS
FOR EVERYDAY WORK**

Control pressure!
4 gauge pressure test kit

**Repair without
draining the oil**
Vacuum pump

Test electric equipment
Comprehensive test equipment case

DON'T FORGET THE WORKSHOP'S ESSENTIALS

Flow meter

Filtration unit

Service plugs

HYDROKIT UK Ltd

Less weight, more power

Low cost of ownership – it's worth to have a look at the lifecycle cost of your hydraulic breakers!

We always strive to use the required resources, like energy and manpower, in the most effective way. Our highly efficient and productive hydraulic breakers contribute to your profitable business.

Sustainable Productivity

KEMROC®

Managing Director Klaus Ertmer

We have more than 20 years experience in development of excavator attachments for grinding rock and concrete.

Our attachments are robust, strong and made in Germany from components of the highest quality.

Increase productivity with less fine grained cuttings! Our experienced specialist are here to give advice.

revolution of cutting

**ARROWHEAD
ROCKDRILL**

**POWERFULLY SIMPLE,
SIMPLY POWERFUL**

**A COMPLETE RANGE OF
TIE-RODLESS HAMMERS**

**SUIT EXCAVATORS
FROM 0.7 TO 30 TONNES**

Made in England

@ArrowheadRockdrillUK

TERA fitted with CC Watertank and wheel loader frame

TERA POWERED BY
DEHACO

- Preventing dust emissions during demolition, renovation and recycling operations.
- The Tera consumes very little water, making this a highly effective and efficient unit.
- The Dehaco Tera is the champion of dust control.

COMPLETE SUPPLIER FOR THE DEMOLITION RECYCLING AND SANITATION INDUSTRY

FLEXIBILITY MEETS PRECISION.

THE NEW MOBISCREEN EVO SCREENING MACHINES -
4 TIMES MORE POWER.

MOBISCREEN MS 952 AND 953 EVO - even
more performance with a 9.5 m² screen surface

MOBISCREEN MS 702 AND 703 EVO -
compact and efficient with a 7 m² screen surface

**MOBISCREEN
EVO**

HIGH-LEVEL FLEXIBILITY AND THE BEST SCREENING RESULTS. The new MOBISCREEN MS EVO screening machines stand out with their broad application versatility, ideal transport properties and fast set-up times. With the state-of-the-art control system, operating conditions can always be viewed conveniently and all machine functions can be controlled easily and intuitively. The efficient MOBISCREEN EVO machines deliver the best possible performance values combined with low fuel consumption and guarantee precise results with a wide range of application materials. This is where flexibility meets precision.

Jewell provides custom machines for the world's harshest environments including the forestry, demolition, scrap recycling, material handling and construction industries.

Drawing on years of accumulated experience and technical know how, Jewell converts standard excavators into tough, robust machines capable of conquering diverse jobsite challenges.

YOU HAVE TOUGH JOBS... WE BUILD TOUGH MACHINES

We've got something against noise!

Darda Concrete Crushers are more quiet, efficient and environmentally friendly than any standard demolition equipment.

For you that translates into: less noise, satisfied customers and more business!

82 dB(A)
Darda
Concrete
Crusher

Off-Highway Research

The Specialists in Global Construction Equipment Research

Off-Highway Research specialises in the research and analysis of international construction and agricultural equipment markets. Since 1981 clients have leveraged our reports, databases and expertise to understand global markets, identify trends & opportunities, analyse the competitive landscape and grow their businesses profitably.

With an emphasis on primary research and with five offices on three continents, we can provide unrivalled insights to clients anywhere in the world.

WORLD DEMOLITION SUMMIT 2018

CONFERENCE AND AWARDS

The tenth year of the major international event celebrating excellence and innovation within the demolition industry

CONFERENCE | AWARDS | NETWORKING

WDS 2017 NUMBERS

TOTAL OF
394
DELEGATES

FROM
28
COUNTRIES

REPRESENTING
131
COMPANIES

CONFIRMED CONFERENCE

Headline sponsor

Gold sponsor

Sponsorship opportunities:

Ryan Yuill
e-mail: ryan.yuill@khl.com
Tel: +44 (0)1892 786 217

Awards drinks sponsor

Richard Vann
Managing director of
RVA Group

Conference Chairman

Florian Trinkl
CEO, Sauer Bau &
Projektentwicklung

TOPIC: Demolishing prestressed concrete gas tanks at Munich's main sewage plant

Silver sponsor

Silver sponsor

Bronze sponsors

SAVE THE DATE: 7-8 NOVEMBER 2018

Aviva Stadium
Dublin, Ireland

SPEAKERS INCLUDE

Artem Kondratiev
Head of the Moscow division of Russian contractor Raz-Max

TOPIC: The Russian experience – unique features of demolition in the extreme north

David A Murray
Safety and health consultant for the State of Nevada.

TOPIC: The OSHA dust regulations applied to international demolition markets

SCHEDULE OF EVENTS

Welcome Networking Drinks
7 November - Evening

Conference
8 November - Full day

Awards Drinks Reception
8 November - Evening

Awards Dinner
8 November - Evening
Hosted by BBC's face of rugby, John Inverdale

Perkins® SmartCap

Connect with your engine for a clean bill of **health**

Perkins® SmartCap is a unique, low cost way of connecting with your engine. It puts useful information at your fingertips via the Perkins® My Engine App. It's easy to fit, reminds you when services are due, and enables you to monitor data such as hours run, machine location and start/stop times.

Perkins SmartCap, the only oil filler cap that tells you when to change your oil.

Perkins Aftermarket, engineered for life

Perkins®

THE HEART OF EVERY GREAT MACHINE

QJ341 JAW CRUSHER THE CHOICE IS YOURS

Ever evolving to meet your needs, our bestselling QJ341 jaw crusher has been improved for increased performance and even greater efficiency.

Available with a double-deck pre-screen and a choice of engines, including a fixed speed engine with no EGR and greater horsepower, we have a solution more targeted to your needs. The choice is yours.
