A Price List Overview

Where do I send my order? How should I maintain my marble table? From textile options to wood polishes, the KnollStudio price list is designed to provide you with everything you need to know in order to understand, specify, and care for furniture in the KnollStudio Collection.

This book is divided into three easy-to-use sections.

- Propeller Table Series
- Pixel™ Tables Series
- LSM Conference Tables

For a quick overview of the collection's scope, review the Visual Index on pages 2-5. If you're looking for pieces by a specific designer, try the Designer Index on page 0.

Finishes

For detailed explanations of the many materials used in constructing KnollStudio furniture, consult page 8. A cross-reference of KnollStudio veneer or lumber finishes with standard Knoll Office veneers is provided on page 8. Easy-care maintenance information is also provided on pages 9-10.

Placing Your KnollStudio Order

For information about where to send your order and key terms and conditions, see page 10. The complete Knoll Selling Policy is available on pages 129-130.

General Ordering Information and Knoll's Sustainability Statement is available on page 131

Product Information On Each Page

On each page, the following features will assist you:

Description provides both the pattern number and a basic description of the product.

Dimensions provide the overall space the product will require. Statistics are based on the maximum width, depth, and height of the product.

Weight is based on the product itself. It does not include packaging. Weights are rounded to the nearest pound.

Weights of upholstered items do not include weight of textile/leather. To calculate total weight, multiply covering requirements by textile/leather weight, and add to product weight.

Pattern Number provides both the product identification number and all additional selections required for ordering. Finish options are enclosed in parentheses. Finish suffix descriptions are found under Finishes on the bottom portion of the page.

Order Code/Ordering Information outlines exactly how to specify KnollStudio product and the full scope of finishes and other options. The Order Code provides an example of how one pattern number on the page is specified.

Construction provides specific materials and finishes employed, as well as specific construction details.

Note to Knoll Dealer Sellers:

The products contained in this price list are also available through the Knoll Essentials program, with limited exceptions. For additional information, please contact your customer service representative or visit Knoll Exchange.

For More Information

For more information, contact your KnollStudio representative, a Knoll Space retailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.

Intertek Clean Air Certification

Intertek's Clean Air Certification validates the level of volatile organic compound (VOC) emissions from products. VOCs are gases emitted from products and include a variety of chemicals that may affect consumers' health in the short- and long-term. Both Intertek Clean Air GOLD and SILVER certifications ensure the user-health, safety and sustainability of Knoll products. A selection of Knoll Office and KnollStudio products are Intertek certified Clean Air, most of which are certified GOLD, which imposes more rigorous standards than certified SILVER.

- USGBC LEED credits
- California 01350 Special Environmental Requirements (CDPH)
- California Department of General Service (DGS) Indoor Air Quality Specifications for Open Panel Office Furniture
- Compliant to BIFMA e3 standard credit 7.6.2 and 7.6.3

KnollStudio Natural Materials

Wood and marble are natural materials that vary. Use material samples and printed sample materials as reference only. KnollStudio printed and finish samples offer an example of what an “average” natural material may look like, within a range of acceptance carefully delineated by Knoll. Because of the breadth of variations possible with any natural material, Knoll specialists select these materials with stringent criteria, accepting only the top 3 - 5% of what is available.

Wood*Knoll Natural Veneers*

All natural finishes are selected from the finest hardwoods available around the world. Veneers are flat cut and carefully matched so that cathedral or heart patterns are perfectly balanced. Natural veneers also are cut to allow a generous margin of quarter-grain figuring ensuring invisible splicing.

*Quarter
Pattern*

*Cathedral
Pattern*

Marble

Knoll selects the highest quality, structurally sound marble through a host of quarries in the United States, Turkey, Spain, Slovenia and Italy. Because each mountain range and quarry have their own signature, every marble piece - even within a single quarry - is unique. Hues, veins, crystals, fossils, clouds, and distinctive marks will vary from piece to piece. This is the extraordinary character of stone as a material. Its high quality and its unique nature give the Knoll tables a feel of incredible sculptural beauty. The following are the marbles that KnollStudio offers:

Coated Marbles*Coated Marbles*

Coated marbles have transparent, high-polish, polyester coating to prevent use-associated stains. Even with this protection, coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Satin Coated Marble

Satin coated marbles have transparent satin polyester coating to prevent use-associated stains. This satin finish gives the stone a natural, honed appearance while providing the same protective qualities as the Coated Marbles. Even with this protection, satin coated marbles should not be used outdoors. Stains should be wiped immediately. Coating will yellow over time.

Arabescato

Ivory white with dark grey veining. May contain random green veins.

Calacatta

Ivory white. Gold and beige random veins with additional veins varying from cream to green and grey.

Grey Marble

Grey with black and white veins. Hues vary in tone and intensity.

Man-Made Materials & Finishes*Stainless Steel*

Completely rust-proof, highly durable, and resistant to bending stress.

Polished Chrome

Several-step plating process that includes a heavy layer of nickel for added rust protection and a bright mirror finish.

Satin Chrome

Chrome plating applied for a soft satinized chrome finish with a higher nickel content.

Polished Aluminum

A shiny, polished finish.

Clear Anodized Aluminum

A light grey satin finish.

Laminate

An exceptionally durable plastic surface. Highly resistant to most chemicals and extensive wear.

Vetro Bianco:

Vetro Bianco is an engineered resin free quartz surface. The brilliant white surface is nonporous, stain proof, and extremely durable making it suitable for indoor and outdoor use.

With proper care, your KnollStudio furniture should last for years to come. To help ensure the longevity of your purchase, below are helpful hints on routine cleaning for your KnollStudio piece. Most basic maintenance can be performed with common household cleaning products.

Wood

Clean with a commercial brand of liquid furniture polish twice a month. For stubborn dirt or light scratches, rub lightly with very fine steel wool before using furniture polish. Steel wool Grade #0000 is recommended. To rejuvenate luster, apply a furniture cream as a last step. Do not use water or household solvents: they will destroy the protective finish.

Marble with Polyester Coating

Wash with lukewarm water. Wash more thoroughly with Windex, Fantastik, Ivory Flakes in warm water, or other non-abrasive solutions. Rinse with warm water and dry with a soft cloth.

Vetro Bianco

Wash surface with lukewarm water. Clean more thoroughly with a non-abrasive solution such as Windex or Fantastik. Rinse with warm water and dry with a soft cloth. Wipe off stains immediately with water and a soft cloth. Never use steel wool or other abrasives on surface.

Glass/Acrylic Polycarbonate

Clean with Windex, Fantastik or other non-abrasive cleaning solutions. Wipe dry with a clean cloth.

Laminate/Melamine

Scrub with Windex, Fantastik, Mr. Clean, or other household soaps or detergents well dissolved in water, or with a very soft cloth dampened with alcohol or a synthetic thinner. For a dull finish, rub with jeweler's rouge as a polishing agent and finish with paste wax. Never use abrasives. Remove stubborn stains with Soft Scrub.

Stainless Steel

Use Windex, Fantastik, or other non-abrasive household cleaners. For small scratches, rub with Comet, Ajax, or other mild abrasives in the direction of the grain. Apply a coat of auto wax to maintain beauty.

Chrome/Satin Chrome

Clean with Windex or an automotive chrome cleaner such as Semi-Chrome twice a month. Apply a coat of hard paste wax to protect against moisture.

Polished Aluminum

Clean with Windex, Fantastik, or other non-abrasive cleaning solutions. Coat with a hard paste wax semi-annually to maintain luster and prevent discoloration.

Anodized Aluminum

Clean with mild soaps, detergents, or other non-abrasive cleaning agents. Apply paste wax or DuPont non-abrasive car polish #7 twice a year to prevent oxidation.

For stubborn stains or discolorations, apply navel jelly aluminum cleaner.

Urethane Edge

Clean with household soaps and detergents well dissolved in water. Do not use abrasive cleaning solutions.

Powder Coat Paint

Clean with Windex or Endust using a soft cloth. Remove stubborn stains with Soft Scrub.

Use the Following Address:

If you would like to send an order directly to our order entry departments, please use the following address:

Knoll, Inc.
P.O. Box 157
East Greenville, PA 18041
Attn: Order Entry

Fax: 215 679-1570
Tel: 800 343-KNOLL

When Placing Your Order, Include:

- All information requested on the order form.
- Local taxes for the “delivered to” address.
- For orders \$2,000 or under (including applicable taxes and delivery/installation fees, if any), full payment must be made when order is placed.
- For orders over \$2,000, a deposit equal to one-half of the complete order value is required at order placement. Balance must be settled before shipment.

Key Points to Remember:

All accepted orders will be confirmed in writing on the Knoll standard acknowledgement form. A copy of the acknowledgement will be mailed to the customer prior to production.

Freight within the 48 contiguous United States and Canada, excluding the Yukon, Northwest Territories and Newfoundland, is prepaid and included in the price of all orders.

For residential orders, Knoll strongly recommends White Glove delivery service to most locations in the Continental United States and Canada. White Glove service includes inside delivery, unpacking, furniture installation and removing cartons and crates. The fee for this service will be quoted at the point of purchase.

KnollStudio’s limited warranty covers all furniture against manufacturing defects in this price list for a period of five years after delivery to the customer.

All pricing is in U.S. dollars.

For More Information:

For complete Knoll Selling Policy and warranty information, please refer to pages 129-130 in the back of this price list.

For additional information on KnollStudio, contact your KnollStudio representative, a Knoll Space retailer or e-tailer, or telephone Customer Services at 800 343-KNOLL. To find the retailer or showroom nearest you, visit www.knoll.com.

Emanuela Frattini
Propeller® Training Table Series
Configurations and Product Information

Below are only a few examples of suggested configurations using Propeller Training tables, bridge tops, segments and screens.

The inherent flexibility of Propeller tables allows for diverse applications, ranging from setups for conference rooms to private offices and workstations.

All connections are tool-free and can be made by the user. To gang tables, connectors can be simply removed from the integral storage port in the leg. When tables are hard wired a screwdriver is needed.

Ordering Information

- Specify:*
1. Pattern number
 2. Top finish selection
 3. Caster or glide selection (table only)
 4. Edgeband selection
 5. Grommet option (table and bridge only)
 6. Leg/grommet finish

Shipping:
 Tops and legs are shipped separately. Legs ship knocked-down: foot plate and vertical component. Simple field assembly required.

Scope

- Product scope:*
- P2-F** Folding table
 - P2-M** Semi-round table
 - P2-R** Rectangular table
 - P2-S** Segment
 - P2-V** Rectangular bridge
 - P6-C** Flip Top table
 - P8-C** Adjustable Height table
- Electrical options:*
 Please see Propeller Electrical section for product and specification details.

Construction

Top:
 1 3/16" thick; 3-ply, solid-core construction. Plastic laminate top and backer sheet on bottom. Threaded inserts are die-cast zinc.

Edges:
 All table edges are finished, allowing ganged tables to be separated and used individually. Flat ABS edgeband, molded urethane edge and solid wood edge are available.

Molded edge detail:
 Molded, seamless urethane edge with integral color.

Flat edgeband:
 ABS flat edgeband, with integral color.

1/4" edge detail:
 Solid wood

Grommet option:
 Individual table segments may be specified with zero, one, or two grommets, located at mid-depth or front edge locations. All grommets are 3 3/4" diameter. Optional grommet-mounted power receptacles available.

Grommet liners are black injection molded ABS plastic. Yin-yang grommet cap is textured, die-cast aluminum with powder-coat finish.

Legs:
 Propeller's S-shaped training leg incorporates two separate channels for power and communications wiring. Cables are laid behind flipper strips. Vertical leg is extruded aluminum construction with clear satin anodized or powder coat finish. There are three types of Propeller training legs:

Standard Training leg section:

Standard Training leg: vertical extrusion is 3 3/4" w x 1 3/8" d. Leg end caps are injection-molded, glass-filled nylon. Leg mounting plates are aluminum die-castings with integral storage port in a textured paint finish.

C-leg and T-legs:
 C-leg and T-leg offer additional kneespace. Vertical extrusion is 5" w x 2 1/4" d, same profile as conference leg. Cast aluminum end plates with textured paint finish. Cast aluminum foot in textured metallic powder coat.

Glides/casters:
 Glides and locking casters-black nylon. C-Leg has low glide at front and high glide in the back. T-Leg has two low glides.

Connector plates:
 Aluminum die-casting with textured paint finish. Integral storage port for connecting tables.

Connector bars:
 Bar and latch are made of cast alloy with tumble-bead finish. Button is injection-molded red ABS plastic. Spring and back plate are steel stampings.

Features

Connecting tables:

Each rectangular table includes two connector bars to connect rectangular tops to each other on any side. When not needed, connectors store in ports at top of table leg.

Maintenance:

See pages 9.

Note:

Propeller tables are certified Clean Air GOLD.

Square Tables:

Square tables have four legs with rectangular table end plates. Two connector bars per table. Square tables gang on all four sides to training tables of same width.

+ For more detailed information, consult the Electrical section of the Propeller Manual.

Plexus Options: (\$35 per cutout)
* Plexus box not available
For no Plexus box (Y)
For medium Plexus, center, mid-depth (GM)
For medium Plexus, left & right, mid-depth (AM)
For medium Plexus, center, front (EM)
For medium Plexus, left & right, front (DM)

Note:
Cutouts not available on Semi-Circular Tables.

Features

Stacking:
Semi-circular tables and square tables do not stack. Bridge tops can be stacked ten high on table dolly (see page 26).

Shipping:
Propeller tables shipped knocked-down. Simple field assembly required.

Maintenance:
See pages 9.

Note:
Propeller tables are certified Clean Air GOLD.

Bridge tops have a weight capacity of 300 pounds.

Configurations:

with rectangular table/bridge top

with rectangular tables back-to-back two 180° tables

		<i>C-Leg tables/T-Leg tables:</i>
		C-Leg and T-Leg tables combine Propeller table features with more leg space. Tables have either two C-Legs or two T-Legs. 24"d and 30"d training tables C-Legs are mounted to the rear. T-Legs are centered. All legs are positioned at 3 3/8" from table edge on the depth side. Tables have identical wire management and ganging capabilities as standard training tables.
		<i>Note:</i> C-Leg and T-Leg tables are available with glides only.
		<i>Maintenance:</i> See pages 9.
		<i>Note:</i> Propeller tables are certified Clean Air GOLD.
		<i>Connecting tables:</i> Each rectangular table includes four connector plates and two connector bars to connect rectangular tables to each other on any side. When not needed, connectors may be stored in additional black plastic storage port attached underneath table tops.

Electrical

Plexus options: (\$35 per cutout)
* Plexus Box not available
No Plexus (Y)
Single medium Plexus, center (GM)
Two medium Plexus, left and right, mid-depth (AM)

Features:

- Note:*
- Rectangular Flip-top tables can be specified with medium cordset Plexus or Transact
- Plexus options not available for 48" wide tables
- Plexus options for 60" and 72" wide tables: (GM, AM)

Glides/Casters:
Glides (suffix G)
Locking Casters (suffix C)

Note:
Propeller tables are certified Clean Air GOLD.

Maintenance:
See pages 9

C-Leg/T-Leg Flip-Top Rectangular Tables:
24"d and 30"d tables have C-Legs mounted to the rear, 36"d flip-top tables have centered T-Legs. Legs are positioned at 2 7/8" from table edge on the depth side. Flip-Top tables can be ganged side to side or front to back to other flip-top or standard tables.

Note:
Flip-Top tables are available with locking casters only.

Flip Mechanism:
The Flip mechanism consists of black nylon glass-filled housing on both the C-Leg/T-Leg and the column base tables. The cross-member on rectangular tables is an aluminum extrusion that is anodized or painted to match the Propeller C-Leg/T-Leg. To operate, simply depress the mechanism to lower the table; to raise the table, lift the mechanism towards the table top. Flip-Top mechanism is pneumatic and easy to operate with one hand.

Wire management:
Vertical extrusion of C-Legs and T-Legs is 5"w x 2 1/4" – same profile as conference leg profile. In horizontal position, Quadruplex monument or shallow plug in Plexus boxes can be used.

Nesting:
Flip-Top tables nest easily for compact storage. C-Leg and T-Leg Flip-Tops allow the top to flip and nest as well as providing more leg space than a standard folding table. When nested, the tables are staggered. There is no limit to the number of tables that can be nested together.

Example:
Footprint area guideline C-Leg
48" x 24" C-Leg
- Two 48" x 24" C-Leg tables flipped and nested measure 51" x 30 1/2"
- Three 48" x 24" C-Leg tables flipped and nested measure 54" x 38 1/2"
- Six 48" x 24" C-Leg tables flipped and nested measure 63" x 63"

60" x 30" C-Leg
- Two 60" x 30" C-Leg tables flipped and nested measure 63" x 30 1/2"
- Three 60" x 30" C-Leg tables flipped and nested measure 66" x 38 1/2"
- Six 60" x 30" C-Leg tables flipped and nested measure 75" x 63"

72" x 36" T-Leg
Footprint area guideline T-Leg
- Two 72" x 36" T-Leg tables flipped and nested measure 75" x 42"
- Three 72" x 36" T-Leg tables flipped and nested measure 78" x 49 1/2"
- Six 72" x 36" T-Leg tables flipped and nested measure 87" x 72"

Shipping:
C-Leg/T-Leg Flip-Top tables are shipped knocked down. The table top, flip mechanism, aluminum cross-member, and leg kit are all shipped in separate boxes. Simple field assembly required.

Nesting Diagrams Guideline:
2 Tables 3 Tables 6 Tables

Features

Connecting tables:
Each folding table, includes two connector bars to connect rectangular tops to each other on any side. When not needed, connectors store in ports at top of table leg.

Table dollies:
Table dollies can stack 5 folding tables. Red urethane edge is scuff resistant, bottom is medium grey laminate, handle is stainless steel. Wheels are self-lubricating steel bearings with puncture-proof and impact-resistant solid cushion tires, mounted on a polypropylene hub.

Note:
Height of Propeller table folded is 4 1/4".

Maintenance:
See pages 9.

Note:
Propeller tables are certified Clean Air GOLD.

Electrical

+ For more detailed information, consult the Electrical section of the Propeller Manual.

Grommet options: (\$35 per cutout)
Tables may be specified with zero, one, or two grommets. All grommets are 3/4" diameter. Optional grommet mounted power receptacles available, see page 90.

No grommet (Y)
Single grommet, left, mid-depth (BG)
Two grommets, left and right, front (DG)
Two grommets, left and right, mid-depth (AG)
Single grommet, center, front (EG)
* AG, BG not available on 48" wide tables

Features

Plexus options: (\$35 per cutout)
* Plexus Box not available
For no Plexus (Y)
For medium Plexus, center, mid-depth (GM)
For medium Plexus, left & right, mid-depth (AM)
For medium Plexus, center, front (EM)
For medium Plexus, left & right, front (DM)
* AM, DM available for 72" wide tables only

Standing height tables:
Use Standing Height Tables free-standing or connected to other Standing Height Tables. Two connectors provided with tables.

Legs:
Extruded aluminum construction with clear satin anodized finish or powder-coat finish. Wire management flipper strips are flexible PVC. Leg end caps are injection-molded, glass-filled nylon. Leg mounting plates are aluminum die-castings with a textured paint finish. Black ribbed nylon glide or black nylon caster.

Maintenance:
See pages 9.

Note:
Propeller tables are certified Clean Air GOLD.

Electrical

+ For more detailed information, consult the Electrical section of the Propeller Manual.

Grommet options: (\$35 per cutout)
Tables may be specified with zero, one or two grommets. All grommets are 3/4" diameter. Optional grommet mounted power receptacles available, see page 90 for details.

No grommet (suffix Y)
Single grommet, center (suffix GG)

GG

Note:
- Plexus box not available on column base tables.

Specification Information

The column base of the tables has one integrated channel for wire management. Cables are laid behind a translucent PVC flipper strip and can be easily pulled out. Wires can be brought to the table top through an optional center grommet.

Column profile:

Urethane table edge detail:

Flat edgeband:

Wood Edge:

Tables can be specified with either 1/4" wood edge with veneer top or 1/2" wood edge with laminate top.

Base:

Extruded aluminum column with integrated wire management channel in anodized or powder-coat finish. Silver steel top attachment plate. Cast aluminum star-base with protective textured metallic surface coat matching the column color. Leveling low black nylon glides.

Maintenance:
See pages 9.

Note:

Propeller tables are certified Clean Air GOLD.

Below are only a few examples of suggested configurations using Propeller Conference tables and accessories.

The inherent flexibility of Propeller tables allows for diverse applications, ranging from setups for conference rooms to private offices and workstations.

Conference table types

Below are a few examples of private office and workstation configurations using Propeller Conference tables and accessories. The possibilities of connecting tables and accessories are virtually unlimited.

All configurations utilize standard Propeller products which are grouped according to desired application. Coordination of finishes allows for cohesive aesthetic solutions.

Conference area configurations

Ordering

- Specify:*
1. Pattern number
 2. Caster or glide selection (table only).
 3. Top finish selection
 4. Edgeband selection
 5. Grommet option (table and bridge only)
 6. Leg/grommet finish

- P3-RL** Rectangular table, Std. legs
- P2-IL** Rectangular desk return, C-Legs
- P3-AL** Bullet conference table, T-legs
Bullet conference table, Std. legs
- P3-HL** Rectangular table, T-Legs
- P3-IL** Rounded rectangular table, T-Legs
- P3-J** Round conference table, column base

Construction

Top:
 1 3/16" thick, 3-ply, solid medium density fiberboard core with balanced backer sheet on bottom. Solid veneer or plastic laminate. Wood tops are cross veneered. Threaded inserts are die-cast zinc.

Edges:
 All table edges are finished, allowing ganged tables to be separated and used individually. ABS flat edgeband and solid wood edge are available. On rectangular tables with wood edges, short sides have rectilinear edges for ganging, long side edges are chamfered.

Long side edge detail:
 Solid wood

Short side edge detail:
 Solid wood

Flat edgeband:
 ABS flat edgeband, with integral color.

Wood Edge Profiles:
 AutoStrada and Saarinen edge profiles are available as long side edge details. On rectangular tables with wood edges, short sides have rectilinear edges for ganging, long side edges are chamfered.

Long side edge detail:
 AutoStrada profile = AE

Long side edge detail:
 Saarinen profile = SE

Long side edge detail:
 Propeller profile = PE

Legs:
 Propeller's S-shaped conference leg incorporates two separate channels for power and communications wiring. Cables are laid behind flipper strips to meet UL code. Vertical leg is extruded aluminum construction with clear satin anodized or powder coat finish. Legs are 5" w x 2 1/4" d with 25% greater capacity than the training table leg. There are two types of Propeller Conference legs: Standard Conference legs and T-Legs.

Conference Leg section

Standard Conference legs:
 Leg mounting plates are steel stampings with powder-coat finish. Leg end caps are injection-molded, glass-filled nylon. Black plastic glide with 3/4" levelling range or 2" lockable black nylon caster.

T-Legs:
 T-legs offer additional kneespace. Cast aluminum end plates with textured paint finish. Cast aluminum foot in textured metallic powder coat.

Conference Leg T-Leg

Connecting Segments

Underside of worksurface is pre-drilled with zinc inserts for freestanding or bridging leg position. Rectangular tops that are 78" and wider cannot be shared between legs. Standard conference leg includes screws for attachment of mounting plate under worksurface. Tool free option allows reconfiguration using soft touch hand screws. Kit includes: 8 soft touch hand screws for 2 legs.

Glides/casters:
 Glides and locking casters-black nylon.

Electrical options:
 Electrical options include Grommet, Quadruplex and Plexus box. Please see Propeller Electrical section beginning on page 82.

Shipping:
 Tops and legs are shipped separately. Legs ship knocked-down into foot plate and vertical assembly. Simple field assembly required.

Electrical Features

+ For more detailed information, consult the Electrical section of the Propeller Manual.

Grommet options: (\$51 per cutout)
Tables may be specified with zero, one or two grommets. All grommets are 3 1/4" in diameter. See page 28 for details.
Optional grommet-mounted power receptacles available, see page 90.

No grommet (Y)
Single grommet, center, mid-depth (GG)

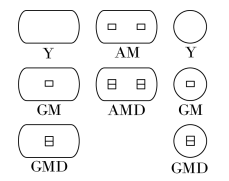

Two grommets, left & right, mid-depth (AG)

Single grommet, left, mid-depth (BG)

Plexus Cutout Options: (\$51 per cutout)
Tables can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. Tables may be specified with zero, one or two cutouts. To specify plexus box and for more information, see pages 82.

For no Plexus (Y)
For medium Plexus, center, mid-depth (GM)
For medium Plexus, left & right, mid-depth (AM) *
For medium double Plexus, center, mid-depth (GMD)
For medium double Plexus, left and right, mid-depth (AMD) *

**for rounded rectangular tables only*

Maintenance:
See pages 9.

Note:
Propeller tables are certified Clean Air GOLD.

Note:
- Double Plexus AMD and GMD configurations not available on 42" deep tables.
- Plexus box not available on 42" square tables.
- Configurations AM, AMD and GJ not available on 48", 54" and 60" square tables.
- **AM and AMD are not appropriate for stand alone tables or end segments.**

Note: Order 2 additional legs if tables will be seperated

Order Code	Finishes	Electrical
<i>Example:</i> P3-CL10-G-K-AE-HG-HG-A	<i>Woodgrain laminate top finishes:</i> Light Ash (suffix 139) Warm Ash (suffix 140) Whitened Ash (suffix 141) Grey Ash (suffix 142) Classic Oak (suffix 143) Graphite Pear (suffix 144) Zebra (suffix 145) Medium Cherry (suffix 124) Natural Maple (suffix 125) Natural Cherry (suffix 126) Walnut (suffix 127)	+ For more detailed information, consult the Electrical section of the Propeller Manual.
P3-CL10	108" x 42" rounded rectangular table, 2 segments	<i>Wood edge profiles:</i> Autostrada edge (suffix AE) Propeller edge (suffix PE) Saarinen edge (suffix SE)
G	Glides	<i>Flat edgeband finishes:</i> Black (suffix 111) Mink (suffix 324) Innertone (suffix 386) Medium Cherry (suffix 367) Platinum (suffix 004) Folkstone (suffix 004) Bright White (suffix 118)
K	Maple veneer top	<i>Grommet finishes:</i> Anodized Aluminum (suffix A) Jet Black (suffix 111) Medium Metallic Grey (suffix 612) Bright White (suffix 118)
AE	Autostrada edge profile	No grommet (Y) Single grommet, center, mid-depth (GG)
HG	Single grommet, outside, segment A	Two grommets, left & right, mid-depth (AG)
HG	Single grommet, outside, segment B	Single grommet, right, mid-depth (HG)
A	Anodized Aluminum grommet and leg finish	Single grommet, left, mid-depth (BG)
<i>Specify:</i>	<i>Solid laminate top finishes:</i> Bright White (suffix 118) Brushed Sand (suffix 122) Folkstone Grey (suffix 114) Jet Black (suffix 111) Micro Grey (suffix 121)	
1. Pattern number	<i>Veneer top/edge finishes:</i> Brown Oak (suffix V427) Burnt Walnut (suffix V313) Chalk Oak (suffix V421) Ebony Walnut (suffix D) Graphite Oak (suffix V513) Light Oak (suffix V423) Maple (suffix K) Natural Beech (suffix B) Old English Walnut (suffix V417) Warm Brown Walnut (suffix J) American Walnut (suffix AW) Natural Oak (suffix ON) Fumed Oak (suffix OF) Ebony Oak (suffix OE)	
2. Locking caster or glide option		
3. Top finish selection		
4. Edgeband selection		
5. Edge profile option (veneer/wood edge only)		
6. Grommet/Plexus cutout option, segment A		
7. Grommet/Plexus cutout option, segment B		
8. Grommet/leg finish		
<i>Specify additional legs:</i>		
9. Pattern number		
10. Leg finish		

Features

Plexus Cutout Options: (\$51 per cutout)
Table can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. Individual table segments may be specified with zero, one or two cutouts. To specify plexus box and for more information, see pages 82.

For no Plexus (Y)
For medium Plexus, center, mid-depth (GM)
For medium Plexus, left & right, mid-depth (AM)
For double medium Plexus, center, mid-depth (AMD)
For double medium Plexus, left & right, mid-depth (AMD)

Maintenance:
See pages 9.

Note:
Propeller tables are certified Clean Air GOLD.

Note:
- Double Plexus AMD and GMD configurations not available on 42" deep tables.
- **AM and AMD are not appropriate for stand alone tables or end segments.**

Propeller® Conference Table Series

Conference Tables with Drum and Peanut Base Product Information

Below are only a few examples of suggested configurations using Propeller Conference tables with Drum and Peanut base.

The inherent flexibility of Propeller tables allows for applications Ideal for conference rooms and break-out areas.

Table types and configurations

Ordering Information

Specify:

1. Pattern number
2. Top finish selection
3. Edgeband selection
4. Grommet option
5. Base finish

*D/P, D= Drum base, P= Peanut base

- P3-RD/P Rectangular table
- P3-BD/P Bullet conference table
- P3-ND/P Rounded rectangular table
- P3-DD/P Round conference table
- P3-SD/P Square conference table
- P3-BD/P Rounded square table
- P3-SD/P Rectangular table, 2 segments
- P3-TD/P Rectangular table, 3 segments
- P3-VD/P Rectangular table, 4 segments
- P3-CD/P Rounded rectangular table, 2 segments
- P3-FD/P Rounded rectangular table, 3 segments
- P3-ED/P Rounded rectangular table, 4 segments

Construction

Top:
1 3/16" thick, 3-ply, solid medium density fiberboard core with balanced backer sheet on bottom. Wood veneer or plastic laminate. Threaded inserts are die-cast zinc.

Edges:
All table edges are finished, allowing ganged tables to be separated and used individually; ABS flat edgeband and solid wood edge are available. On rectangular tables with wood edges, short sides have rectilinear edges for ganging, long side edges are chamfered.

Long side edge detail:

Short side edge detail:

Flat edgeband:
ABS flat edgeband, with integral color.

Wood Edge Profiles:

AutoStrada and Saarinen edge profiles are available as long side edge details. On rectangular tables with wood edges, short sides have rectilinear edges for ganging, long side edges are chamfered. Please contact your Knoll representative for pricing.

Long side edge detail:
AutoStrada profile = AE

Long side edge detail:
Saarinen profile = SE

Long side edge detail:
Propeller profile = PE

Conference tables with Drum and Peanut bases offer enhanced wire management capability and unobstructed kneespace. On most tables drum and peanut bases will be located at the center of the table or segment, some exceptions arise on tables with three and four segments, where a base is shared between two segments.

Table with drum base

Three sizes available.

Small: an 18" round drum with a 25" round footplate
Medium: an 18" round drum with a 30" round footplate
Large: a 23" round drum with a 30" round footplate

Please refer to base size when ordering a drum base table.

Drum base side panels are available as perforated metal with silver powder coat finish or matching veneer.

Table with square drum base

Three sizes available.

Small: a 13" square drum with a 25" square footplate
Medium: a 13" square drum with a 30" square footplate
Large: a 16 1/2" square drum with a 30" square footplate

Please refer to base size when ordering a square drum base table.

Square drum base side panels are available in a perforated solid metal with silver powder coat finish or matching veneer side panels.

Table with rectangular drum base

Four sizes available.

Small: a 24" x 13" rectangular base with a 36" x 30" rectangular footplate
Medium: a 24" x 13" rectangular base with a 48" x 30" rectangular footplate
Large: a 31" x 16" rectangular base with a 36" x 36" rectangular footplate
X-Large: a 16" x 31" rectangular base with a 48" x 36" rectangular footplate

Please refer to base size when ordering a rectangular drum base table

Rectangular drum base side panels are available as solid metal with silver powder coat finish or matching veneer side panels.

Peanut base

All 42", 48", and 60" tables feature the 27" x 8" Peanut base.

Three different Drum bases are offered, to suit varying top shapes and size of tables. Certain larger tables may require support frames under the table top. A Peanut base suits all table sizes.

Installation

Side panels:

The side panels of the Drum are available in 18-gauge perforated metal with a silver powder coat finish or solid veneer (same finishes as veneer tops). Veneer panels interior finish, black powder coat sheet metal.

Panels feature black nylon fasteners and are easily removable without tools, providing immediate access to wiring, in compliance with UL guidelines.

Field attachment of Drum and Peanut base to table top is necessary. Some larger configurations require attachment of support frame. Tops ship with pre-drilled holes for frame attachment.

Connecting plate:
For configurations using more than one segment, tops must be connected using connector plates (included in box), inserted in pre-drilled holes.

Leveling: Drum base

All Drums have leveling nuts to allow for irregularities in the floor.

Leveling: Peanut base

All peanut bases have leveling glides to allow for irregularities in the floor.

Electrical options:

Compatible with shallow Plexus Boxes. All Drum/Peanut bases feature internal wire management hooks. All tables with frames ship with wire management C-clips.

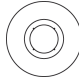

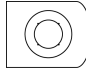

Shipping:

Tops, Drum/Peanut bases and frames are shipped separately. Drum and Peanut bases ship fully-assembled. Support frames, required for some larger tables are shipped in a box. Tops are predrilled for frame or base.

Order Code	Finishes
<i>Example:</i> P3-ND64-K-PE-GM-WK	<i>Woodgrain laminate top finishes:</i>
P3-ND64 60" x 48" Rounded rectangular table	Light Ash (suffix 139)
K Maple veneer top	Warm Ash (suffix 140)
PE Propeller edge profile	Whitened Ash (suffix 141)
GM Center plexus	Grey Ash (suffix 142)
WK Maple veneer drum finish (\$979 upcharge)	Classic Oak (suffix 143)
	Graphite Pear (suffix 144)
	Zebra (suffix 145)
	Medium Cherry (suffix 124)
	Natural Maple (suffix 125)
	Natural Cherry (suffix 126)
	Walnut (suffix 127)
	<i>Solid laminate top finishes:</i>
	Bright White (suffix 118)
	Brushed Sand (suffix 122)
	Folkstone Grey (suffix 114)
	Jet Black (suffix 111)
	Micro Grey (suffix 121)
	<i>Veneer top/edge finishes:</i>
	Brown Oak (suffix V427)
	Burnt Walnut (suffix V313)
	Chalk Oak (suffix V421)
	Ebonized Walnut (suffix D)
	Graphite Oak (suffix V513)
	Light Oak (suffix V423)
	Maple (suffix K)
	Natural Beech (suffix B)
	Old English Walnut (suffix V417)
	Ebonized Oak (suffix OE)
	<i>Wood edge profiles:</i>
	Autostrada edge (suffix AE)
	Propeller edge (suffix PE)
	Saارينen edge (suffix SE)
	<i>Flat edgeband finishes:</i>
	Black (suffix 111)
	Mink (suffix 324)
	Innertone (suffix 386)
	Platinum (suffix 367)
	Folkstone (suffix 004)
	Bright White (suffix 118)
	<i>Grommet finishes:</i>
	Anodized Aluminum (suffix A)
	<i>Drum Base Finishes:</i>
	Perforated Aluminum (suffix A)
	<i>Veneer Drum Base Finishes (upcharge applies)</i>
	For veneer drum base finish, add letter W to the veneer finish code at the end of the pattern number (e.g. W-K for maple drum finish) and add appropriate upcharge as listed below. Interior: fabricated sheet metal with black powder coat finish.
	1 base (small and medium) \$971
	1 base (large) \$1,166

- Specify:*
1. Pattern number
 2. Top finish selection
 3. Edgeband selection
 4. Edge profile option (veneer/wood edge only)
 5. Grommet/Plexus cutout option
 6. Drum base finish (upcharge for veneer drum)

Electrical	Features
<p>+ For more detailed information, consult the Electrical section of the Propeller Manual.</p> <p><i>Grommet Option: (\$51 per cutout)</i> Tables may be specified with zero, one or two grommets. All grommets are 3 1/4" in diameter, see page 48 for details. Optional grommet-mounted power receptacles available, see page 90.</p> <p>For no grommet: (suffix Y) For center grommet: (GG) For mid depth grommet, left and right: (AG)</p> 	<p><i>Plexus Option: (\$51 per cutout)</i> Tables can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. Tables may be specified with zero, one or two cutouts. All drum base can accommodate shallow medium plexus boxes, 60" tables can also accommodate double wide shallow medium plexus boxes. To specify plexus box and for more information, see pages 82.</p> <p>For no plexus: (suffix Y) For center plexus: (GM) For center double plexus: (GMD)</p> 
	<p><i>Maintenance:</i> See pages 9.</p> <p><i>Frame:</i> Larger tables will incorporate a frame under the table. Frame is an aluminum extrusion shipped with c-clips for wire management. For tables without a frame, please see page 78 to specify C-clips separately.</p> <p><i>Base Location:</i> In most cases Drum bases will be located at the center of the table or segment - some exceptions arise on the multi-segment tables, where some drums are shared between two segments.</p> <p><i>Note:</i> Propeller tables are certified Clean Air GOLD.</p> <p>AM and AMD are not appropriate for stand alone tables or end segments.</p>

Electrical	Features
+ For more detailed information, consult the Electrical section of the Propeller Manual.	<i>Maintenance:</i> See pages 9 .
<i>Plexus cutout options: (\$51 per cutout)</i> Tables can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. All drum base can accommodate shallow medium plexus boxes, 60" tables can also accommodate double wide shallow medium plexus boxes. Individual table segments may be specified with zero, one or two cutouts. To specify plexus box and for more information, see pages 82.	<i>Frame:</i> Larger tables will incorporate a frame under the table. Frame is an aluminum extrusion and is shipped with C-clips for wire management. For tables without a frame, please see page 78 to specify clips separately.
<i>Grommet options: (\$51 per cutout)</i> Individual table segments may be specified with zero, one or two grommets. All grommets are 3/4" in diameter. Grommet cover finish will always be Anodized Aluminum, see page 48 for details. Optional grommet-mounted power receptacles available, see page 90.	<i>Base Location:</i> In most cases Drum bases will be located at the center of the table or segment - some exceptions arise on the multi-segment tables, where some drums are shared between two segments.
No grommet (Y) Single grommet, center, mid-depth (GG) Two grommets, left & right, mid-depth (AG) Single grommet, right, mid-depth (HG) Single grommet, left, mid-depth (BG)	<i>Note:</i> Propeller tables are certified Clean Air GOLD.
	AM and AMD are not appropriate for stand alone tables or end segments.

Specify:

1. Pattern number
2. Top finish selection
3. Edgeband selection
4. Edge profile option (veneer/wood edge only)
5. Grommet/Plexus cutout option
6. Peanut base selection

Finishes

Woodgrain laminate top finishes:

Light Ash (suffix 139)
Warm Ash (suffix 140)
Whitened Ash (suffix 141)
Grey Ash (suffix 142)
Classic Oak (suffix 143)
Graphite Pear (suffix 144)
Zebra (suffix 145)
Medium Cherry (suffix 124)
Natural Maple (suffix 125)
Natural Cherry (suffix 126)
Walnut (suffix 127)

Solid laminate top finishes:

Bright White (suffix 118)
Brushed Sand (suffix 122)
Folkstone Grey (suffix 114)
Jet Black (suffix 111)
Micro Grey (suffix 121)

Veneer top/edge finishes:

Brown Oak (suffix V427)
Burnt Walnut (suffix V313)
Chalk Oak (suffix V421)
Ebonized Walnut (suffix D)
Graphite Oak (suffix V513)
Light Oak (suffix V423)
Maple (suffix K)
Natural Beech (suffix B)
Old English Walnut (suffix V417)
Warm Brown Walnut (suffix J)

Veneer top/edge finishes continued:

American Walnut (suffix AW)
Natural Oak (suffix ON)
Fumed Oak (suffix OF)
Ebonized Oak (suffix OE)

Wood edge profiles:

Autostrada edge (suffix AE)
Propeller edge (suffix PE)
Saarinen edge (suffix SE)

Flat edgeband finishes:

Black (suffix 111)
Mink (suffix 324)
Innertone (suffix 386)
Platinum (suffix 367)
Folkstone (suffix 004)
Bright White (suffix 118)

Grommet finishes:

Anodized Aluminum (suffix A)

Peanut Base finishes:

Perforated Aluminum (suffix A)

Veneer Peanut Base finishes: (upcharge applies)

For veneer peanut base finish, add letter W to the veneer finish code at the end of the pattern number (e.g. W-K for maple peanut base finish) and add appropriate upcharge as listed below. Interior: fabricated sheet metal with black powder coat finish.

2 bases \$4,802

Electrical

+ For more detailed information, consult the Electrical section of the Propeller Manual.

Grommet options: (\$51 per cutout)

Tables may be specified with zero, one or two grommets. All grommets are 3/4" in diameter. Grommet cover finish will always be Anodized Aluminum, see page 48 for details. Optional grommet-mounted power receptacles available, see page 90.

No grommet (Y)

Single grommet, center (GC)
Two grommets, left & right (AG)
Single grommet, side (BG)
Single grommet, right, mid-depth (HG)

Plexus cutout options: (\$51 per cutout)

Tables can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. All drum base and peanut tables can accommodate shallow medium plexus boxes, 60" tables can also accommodate double wide shallow medium plexus boxes. Tables may be specified with zero, one or two cutouts. To specify plexus box and for more information, see pages 82.

For no Plexus (Y)

For medium Plexus, center, mid-depth (GM)

For medium Plexus, left & right, mid-depth (AM)

For double medium Plexus, center, mid-depth (GMD)

For double medium Plexus, left and right, mid-depth (AMD)

Note:

- Double Plexus AMD and GMD configurations not available on 42" deep tables.

Features

Maintenance:
See pages 9

Frame:

Larger tables will incorporate a frame under the table. Frame is an aluminum extrusion that includes C-clips for wire management. For tables without a frame, please see page 78 to specify C-clips separately.

Base Location:

For stand alone tables, two peanut bases will be located 20" from the edge of the table. On multi-segment tables, the peanut base is located at the center of each segment except on certain four segment tables, where some peanut bases are shared between two segments.

Please note that on 42" deep tables with peanut base, the knee space dimension immediately in front of the base is 7 1/2" from the edge.

Note:

Propeller tables are certified Clean Air GOLD.

AM and AMD are not appropriate for stand alone tables or end segments.

 Tables can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. All drum base and peanut base tables can accommodate shallow medium plexus boxes, 60" tables can also accommodate double wide shallow medium plexus boxes. Individual table segments may be specified with zero, one or two cutouts. To specify plexus box and for more information, see pages 82.

For no Plexus (Y)
 For medium Plexus, center, mid-depth (GM)
 For medium Plexus, left & right, mid-depth (AM)
 For double medium Plexus, center, mid-depth (GMD)
 For double medium Plexus, left and right, mid-depth (AMD)

Note:
 - Double Plexus AMD and GMD configurations not available on 42" and 48" deep tables.

Features

Maintenance:
 See pages 9.

Frame:
 Larger tables will incorporate a frame under the table. Frame is an aluminum extrusion that includes c-clips for wire management. For tables without a frame, please see page 78 to specify C-clips separately.

Base Location:
 For stand alone tables, two peanut bases will be located 20" from the edge of the table. On multi-segment tables, the peanut base is located at the center of each segment except on certain four segment tables, where some peanut bases are shared between two segments.

Please note on 42" deep tables with peanut base, the knee space dimension immediately in front of the base is 7 1/2" from the edge.

Note:
 Propeller tables are certified Clean Air GOLD.

AM and AMD are not appropriate for stand alone tables or end segments.

Optional grommet-mounted power receptacles available, see page 90.	<i>Frame:</i> Larger tables will incorporate a frame under the table. Frame is an aluminum extrusion that includes C-clips for wire management. For tables without a frame, please see page 78 to specify clips separately.
No grommet (Y) Single grommet, center (GG) Two grommets, left & right (AG) Single grommet, side (BG)	<i>Base Location:</i> For stand alone tables, two peanut bases will be located 20" from the edge of the table. On multi-segment tables, the peanut base is located at the center of each segment except on certain four segment tables, where some peanut bases are shared between two segments.
	<i>Note:</i> - Double Plexus AMD and GMD configurations not available on 42" deep tables.
<i>Plexus cutout options: (\$51 per cutout)</i> Tables can be hardwired using pre-wired or empty boxes, or plugged in with plexus boxes with cordset. All drum base and peanut tables can accommodate shallow medium plexus boxes, 60" tables can also accommodate double wide shallow medium plexus boxes. Individual table segments may be specified with zero, one or two cutouts. To specify plexus box and for more information, see pages 82.	
For no Plexus (Y) For medium Plexus, center, mid-depth (GM) For medium Plexus, left & right, mid-depth (AM) For double medium Plexus, center, mid-depth (GMD) For double medium Plexus, left and right, mid-depth (AMD)	<i>Please note on 42" deep tables with peanut base, the knee space dimension immediately in front of the base is 7 1/2" from the edge.</i>
	<i>Note:</i> Propeller tables are certified Clean Air GOLD.
	AM and AMD are not appropriate for stand alone tables or end segments.

Plexus Boxes for Training and Conference Tables are covered power and communications units mounted flush into the table top, offering a clean aesthetic. Plexus Boxes are installed in the field and fit in pre-configured cutout locations in Propeller table tops. Various cutout locations are available, see specific products pages for more information.

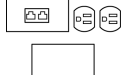

Plexus Box types and sizes:

Plexus Boxes are available in two lengths, small and medium. Medium boxes are also available in a double width format.

Small Box (Training tables only)

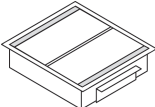

Offers one duplex power outlet with surge protector, one communication outlet and one additional data plate.

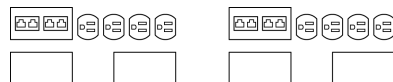

P4S-BOXS(-)

Double Medium Box (Conference tables only)

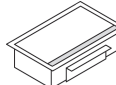

Offers room for four duplex power outlets with surge protector, two quadruple communications outlets and four additional data plates.

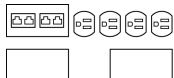

P4SD-BOXM(-)

Medium Box (Conference and training tables)

Offers room for two duplex power outlets with surge protector, one quadruple communication outlet and two additional data plates.

P4S-BOXM(-)

Plexus Box Connectivity options:

Plexus Boxes are available with three connectivity options for either temporary or permanent installation.

Plexus Box with Cordset

For temporary power and communications access.

P4(-)-BOX(-)-PP
 Use existing leg.

Empty Plexus Box

For hard-wired power and communications access. Compatible with legs shown below.

P4(-)-BOX(-)-E

 C-Leg **P4-RWIN4-CR** (right) **P4-RWIN4-CL** (left)
 T-Leg **P3-TLEGU-PR**

Ordering Information

To specify Plexus Boxes:
 1. Determine power and data requirements and suitable box size
 2. Specify table type with required cutout option. (see chart on table product page)
 3. Specify box(es).
 4. Specify data outlets.
 5. Specify infeed legs and finish (empty and pre-wired versions only).
 6. Specify jumper cables (pre-wired version only).

Performance

Power options:
 The Plexus Box is available in three electric power options: a cordset unit, comprised of a 15 amp single circuit with 3-prong plug; a pre-wired unit, comprised of an eight wire power distribution system for two 20 amp convenience circuits (A,B) and two 20 amp protected circuits (X,Y) with separate neutral and ground; an empty unit, comprised of an empty box to be field installed by a licensed electrician. All power and communication wiring is completely separated by a metal septum to avoid interference.

Data/Communication Options:
 The Plexus Box is available with standardized cutouts for communication and data faceplates, which are available as blank or preconfigured with data and communication jacks. The small Plexus Box can accommodate two faceplates, the medium Plexus Box can accommodate three faceplates and the double medium Plexus box can accommodate six face plates. Cordset boxes are sold with one preconfigured data faceplate, please see product details for specifics.

Power outlets and data/communication faceplates are positioned under a hinged lid to allow access. The extruded aluminum lid features a brush seal allowing wires to pass when lid is closed. Inside the box, power receptacles and one data/communication cutout are positioned on a 60° angle wall, while additional data/communication cutouts are located on the floor of the box.

Standard data/communications cutouts will accommodate common faceplates by AMP, CommScope, Nordex and Panduit

Connectivity

Plexus Box with cordset:
 The Plexus Box with cordset offers temporary power and communications access, comprising a single 15 amp electrical circuit with a 3-prong plug. The 15' cable can simply be channeled through the Propeller leg to connect to a standard floor or wall outlet. The standard Propeller leg is used with this option. Plexus Boxes with cordset simply rest in the table cutout. Do not attach permanently to the table to comply with UL requirements. Option not available for Chicago or New York.

Pre-wired Plexus Box:
 The pre-wired Plexus Box offers four permanent 20 amp electrical circuits for power distribution and data access. An additional special pre-wired infeed leg (R) must specified to bring wires from building power to supply power the table. Jumper cables connect power infeed legs to first box and are used to link multiple boxes. Suitable for most regions if connected to building power by a licensed electrician.

The pre-wired Plexus box uses an eight wire, four circuit power distribution system.

Empty Plexus Box for hardwiring:
 The empty Plexus Box for hardwiring offers permanent power and data/communication access and has room for wiring up to four circuits. An additional special empty infeed leg (E) must be specified to bring wires from building power supply to the first empty Plexus Box. Suitable for all regions.

Construction

The Plexus box is constructed of an extruded aluminum lid and bezel in anodized finish. Sides and body are fabricated of stamped steel with aluminum powder-coat finish. Plexus boxes attach via clamps from underneath the table top. Accommodates table thickness from 1" to 1 1/2".

Cutout options

Plexus Box cutout locations:
 For cutout locations see chart on specific product pages. Boxes ship with actual cutout template for field cutting tables, when necessary.

Cutout dimensions (w x d):
 Small Plexus Box: 6.875" x 6.25"
 Medium Plexus Box: 6.5" x 10.25"
 Double Medium 10.25" x 11.875"

Plexus Box lid finishes:
 Aluminum (suffix A)

Features

Plexus Box with Cordset:
 The Plexus Box with cordset offers temporary power and data access at the table top. The height of each box is only 2.8" and accommodates table thickness up to 1 1/2" allowing for complete knee clearance. Inside the box, power receptacles and one data/communication cutout are positioned on an angled wall, while additional data/communication cutouts are located on the floor of the box. All power and communication wiring is completely separated by a metal septum to avoid interference. The extruded aluminum lid features a brush seal, allowing for wires to pass through when the lid is closed. The box feature a black circuit reset button.

The Plexus with cordset is comprised of a single 15 amp electrical circuit with a 3-prong plug. The 15' cord can simply be channeled through the Propeller leg to connect to a standard floor or wall outlet. The standard Propeller leg is used with this option. For horizontal wire management, use wire management trough on page 90. Please note, the double medium box features two 15' cords.

UL listed product. Cordset Plexus Boxes simply rest in the table cutout. Do not attach permanently to the table to comply with UL requirements. This option is not available for Chicago or New York.

Three box sizes are available:

Small Plexus Box with cordset:
 The small Plexus Box offers a single electrical duplex and a data/communication cutout positioned on the interior angled wall, with an additional data/communication cutout in the floor of the box. Available in two configurations: one with preconfigured data faceplate with two RJ45 jacks and two 20' Category 6 transition cables (2), or without data/communication faceplates (X).

Medium Plexus Box with cordset:
 The medium Plexus Box offers two electrical duplexes and a data/communication cutout positioned on the interior angled wall, with two additional data/communication cutouts in the floor of the box. Available in three configurations: with one preconfigured data faceplate with four RJ11 jacks and four 20' Category 3 transition cables (11), with one preconfigured data faceplate with four RJ45 jacks and four 20' Category 6 transition cables (5), or with one preconfigured data faceplate with two RJ11 jacks and two RJ45 jacks with two 20' Category 3 transition cables and two 20' Category 6 transition cables.

Double Medium Plexus Box with cordset:
 The double medium Plexus Box with cordset offers the same features as the medium box, but two sided; a total of four electrical duplexes (two per side) and two data/communication cutouts position on the angled wall (one per side), with four additional data/communication cutouts in the floor of the box (two per side). Available in three configurations: with two preconfigured data faceplates, each with four RJ11 jacks and four 20' Category 3 transition cables (11), with two preconfigured data faceplates, each with four RJ45 jacks and four 20' Category 6 transition cables (5), or with two preconfigured data faceplates, each with two RJ11 jacks and two RJ45 jacks with two 20' Category 3 transition cables and two 20' Category 6 transition cables.

For preconfigured data options and transition cables, select (A) for EIA wiring, or (B) for ATT/Lucent wiring.

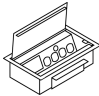

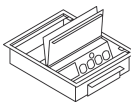

To specify individual data/communication plates, please see page 102.

Construction

The Plexus Box is constructed of an extruded aluminum lid and bezel in anodized finish. Sides and body are fabricated of stamped steel with aluminum powder-coat finish. Plexus boxes attach via clamps from underneath the table top. Accommodates table thickness from 1" to 1 1/2".

Cut-out Dimensions (w x d):
 Small Plexus Box 6.875" x 6.25"
 Medium Plexus Box 10.25" x 6.5"
 Double Medium Plexus Box 10.25" x 11.875"

- Plexus boxes with outlets.
- A special pre-wired infeed leg for connection to the building power. All conference and training leg versions are available.
- Jumper cables to connect individual Plexus Boxes and to connect the first Plexus Box to pre-wired infeed leg.

UL listed product. Suitable for most regions if connected to building electric by licensed electrician.

Electrical Components:
 Eagle Cooper (included in all shallow plexus boxes)
 Black: 4270-5BK
 Orange: IG5262-RN

Data Plates:
 Data Plates can fit up to four Cat 6/RJ45 cables. To specify please see page 102.

Jumper cables:
 Jumper cables ensure power connection between infeed legs and first Plexus Box and between each consecutive box. Length calculated for maximum distance.

Jumper cables ship with clamps for attachment underneath table top.

Construction

Plexus Box:
 Extruded aluminum body in anodized finish. Sides are stamped steel with aluminum powder-coat finish. Lid is extruded aluminum in anodized or powder-coat finish.

Accommodates tables up to 1 1/4" thick.

Cut-out Dimensions:
 Small 6.875" x 6.25"
 Medium 6.5" x 10.25"
 Double Medium 10.25" x 11.875"

Infeed leg:
 Leg: extruded aluminum with anodized or powder-coat finish. One section of leg is completely enclosed for electrical wiring, other section has clear flexible PVC strips to lay in communication wiring. Stamped steel mounting plates with powder-coat finish. Black nylon glides. Please specify 'PR' version of leg i.e., specify P3-CLEG-PR for a conference leg to match a pre-wired Plexus box.

Pre-wired infeed leg has 6' open wire cord for attachment to building power via junction box.

Propeller® Electrical

2+2 Raceway Kit Electrical options for Training and Conference tables

The Propeller raceway kit is used when a permanent configuration with rectangular and trapezoid training tables is specified. Typical examples for such situations are desk configurations, cluster desk configurations, computer training room setups. The raceway kit offers permanent power and communication outlets accessible from underneath the top. Access to these outlets is provided through grommets in the table. Quadruplex or transact outlets may also bring the wiring up to the table top.

Raceway kit components

The Propeller Raceway kit is comprised of three components: Infeed leg, Raceway, Jumper cable and the power and communications outlets.

Raceway:

Raceways are available in various different lengths. All raceways offer room for two duplex power outlets with surge protection. The 20", 26", 38" long raceway also has pre-cut holes for installation of two double communication outlets. Raceways are compatible with training and trapezoid tables and can be located in the front of mid-depth positions of all tables, and also at the back of the trapezoid table.

Jumper cables:

There are two types of jumper cables. Male-Female jumper cables are used to connect power infeed legs to the first plexus box or first raceway. Male-male jumper cables are used to connect between plexus boxes or between raceways.

Power infeed legs:

Provides permanent power and communications access. Alternatively empty infeed legs can also be specified. Raceway compatible with legs shown below.

Training leg P4-RWIN4-R (right) P4-RWIN4-L (left)
 Trapezoid leg P4-RWIN4-T
 C-Leg P4-RWIN4-CR (right) P4-RWIN4-CL (left)
 T-Leg P3-TLEGU-PR

Ordering Information

Description

Construction

Specify:

1. Suitable raceway for every table
2. Jumper cables for every table-to-table connection.
3. Power infeed leg
4. Power infeed leg finish
5. Power and communications outlets

Raceway kit:

The 2 + 2 Raceway kit is a four-circuit, eight-wire modular power distribution system available for all Knoll systems. Raceway components distribute two 20 amp convenience circuits (A,B) with shared neutral and ground and two surge protected 20 amp circuits (X, Y) with separate neutral and ground. Each raceway has four connectors for jumper cables, two on left and two on the right. This allows for configurations with branching side connections from the overall circuit.

A complete Raceway Kit consists of:

- Pre-assembled Raceway mounted inside metal trough. One raceway per table required.
- Jumper cables for bridging power between raceways on ganged tables.
- Power infeed legs bring power from building power to raceway.

Raceway:

Bent sheet metal trough with dark grey finish. Raceway is fully enclosed in metal trough.

Jumper cables:

Electrical conduit encased in a flexible metal tube with electrical connectors on both ends.

Power infeed leg:

Extruded aluminum leg with glide and cast aluminum end plate or cast aluminum foot for C-legs or T-legs. Wiring is shielded inside fully enclosed leg section. 6' conduit emanating from bottom of leg for connection to building power. 9 1/4" long jumper cable emanating from top of leg is used to connect power infeed leg to raceway.

Typical Raceway configurations:

Virtually any electrical layout can be realized by utilizing the power infeed leg, proper lengths of raceway and jumper cables. Raceways provide combinations of duplex power outlets and duplex communications outlets. The length of the table top defines the length of the raceway.

90° Desking configuration:

Consists of a power infeed leg, a long and short raceway and 2 jumper cables

Linear computer training configuration:

Consists of a power infeed leg, 2 raceways of equal length mounted at front of desk, and 2 jumper cables. This configuration may be extended to incorporate any number of desks.

Cluster configuration:

Consists of a power infeed leg of 4 short and long raceways connected by 8 jumper cables.

Curved training configuration:

Consists of a power infeed leg, 3 raceways of equal length mounted at mid-depth of desk, and 3 jumper cables.

Component Glossary

- Raceway
- ⊕ Duplex power outlets
- △△ Double communication outlets
- Jumper cable
- Power infeed leg

Specifications

Raceway:

All raceways include a pre-installed power rail that fits 2 duplex outlets. The 20", 26", 38" long raceway also has pre-cut holes for installation of two double communication outlets. Raceways ship with special locking connectors for permanently ganging tables.

Communication wiring has to be field installed by communication contractor.

Raceway kits do not include wire management trough for surplus wires. Specify P4-WMT or P4-AWB for storage of surplus wires.

Note: all tables must be ganged permanently with electrical connectors when Raceway Kit is used.

Duplex outlets:

Duplex outlet circuits are designated by white letters on black background. Two duplex outlets marked for a specific circuit can be specified. Choose none, one or two duplex outlets per raceway. Each raceway kit can receive two duplex outlets of the same or of different circuits.

Communications modules:

AMP outlet faceplates have black textured finish. A maximum of two double communications outlets can be specified for different wiring and standards. AMP RJ45 outlets are available with EIA-T568B (ATT wiring) or EIA-T568A (all other EIA wiring) configurations. All RJ45 communications outlets are specially configured and rated for

Category 5 high speed data cabling, except those with couplers (Cat 3). For more communications module options, consult the Currents pricelist.

Jumper cables:

Jumper cables connect power from raceway to raceway, bridging between tables. They consist of electrical conduit encased in a flexible metal tube with electrical connectors on both ends. Different length jumper cables are required depending on the configuration.

Pre-wired, power infeed leg:

Pre-wired, power infeed leg supplies raceway with power from building power source. Extruded aluminum with anodized or powder coat finish. One section of the leg is fully enclosed for electrical wiring, the other has a clear, flexible PVC strip to lay in data cables.

A 9 1/4" long cable emanating from top of leg is used to connect power infeed leg to raceway. 6' conduit emanating from bottom of leg is used for hard-wiring leg to building power. This can be cut to length during installation.

Specify left leg if infeed is located left of raceway, right leg if infeed is located right of raceway. Installation by licensed electrician only.

RW Raceway		
R For rectangular table		
60 For 60" wide table		
<i>Specify:</i>	<i>Propeller raceway:</i> Propeller 2 + 2 Raceway is a four-circuit, eight-wire modular power distribution system available for all Knoll Systems. 2 + 2 Raceway components distribute two 20-amp convenience circuits (A, B), with neutral and ground, and two protected 20-amp circuits (X, Y) with separate neutral and ground. UL183 listed for use on tables.	<i>Raceway:</i> All raceways include a pre-installed power rail that fits 2 duplex outlets. The 20", 26", 38" long raceway also has pre-cut holes for installation of two double communication outlets. The 14" raceway can fit either 2 duplex outlets or one duplex outlet and one double communication outlet. Raceways ship with special locking connectors for permanently ganging tables.
1. Suitable raceway kit for every table	• One raceway kit per table required.	
2. Jumper cables for every table-to-table connection	• Jumper cables bridge power between tables.	
3. Power infeed leg (one per raceway)	• Power infeed legs bring power from building power to raceway.	
4. Power infeed leg finish	The raceway circuit is connected to the building power via a junction box. Installation by licensed electrician only.	
5. Power and communication outlets	<i>Maintenance:</i> See pages 9.	

Construction
<i>Communication wiring</i> has to be field installed by communication contractor.
<i>Raceway kits</i> do not include wire management trough for surplus wires. Use P4-WMT/P4-WMTR on page 88 for storage of surplus wires.
<i>Jumper cables:</i> Jumper cables ensure power connection in a straight line configuration, or for tables joined perpendicularly, or for configurations with bridges or segments between tables.
<i>Jumper cables</i> ship with clamps for attachment underneath table top.
<i>Power infeed leg:</i> Supplies raceway with power from building power source. Complete leg assembly hard-wired inside, fully enclosed wiring. Use junction box to connect raceway to building power.
Specify left leg if infeed is located left of raceway, right leg if infeed is located right of raceway. Power infeed has 6' cord for hard wiring that can be cut to length during installation of raceway. Cord must be cut to 18" length or less for application in New York City.
<i>Duplex outlets:</i> Duplex outlet circuits are designated by white letters on black background.
<i>Communication modules:</i> AMP outlet faceplates are black textured finish.
AMP RJ45 outlets are available with EIA-T568B (ATT wiring) or EIA-T568A (all other EIA wiring) configurations.
All RJ45 data/communication outlets are specially configured and rated for Category 5 high speed data cabling, except those with couplers (Cat 3).
<i>Power infeed leg:</i> Extruded aluminum leg with glide and cast aluminum end plate or cast aluminum foot for C-legs or T-legs. Wiring is shielded inside fully enclosed leg section. 6' open lines to attach junction box on bottom of leg. 9 1/4" long jumper infeed end at top of infeed leg connects to raceway kit.
<i>Raceway Kits:</i> Bent sheet metal trough with dark metallic grey finish (suffix V).
Raceway is fully enclosed in metal trough.
Refer to page 96 for jumper cables.

Order Code

<i>Example:</i>	P7-C3-C6-C6
P7	Black data faceplate
C3	RJ11 Cat. 3 jack
C6	RJ45 Cat. 6 jack
C6	RJ45 Cat. 6 jack

Specify: Faceplate with desired communication or data jacks.

1. Faceplate
2. Communication/data jack
3. Communication/data jack
4. Communication/data jack

On-site wiring to be installed by communications/data contractor.

Finishes

Faceplate finishes:
 Black (suffix P7)
 Grey (suffix P7GR)

Communication data options:
 RJ-11 Category 3 jack (suffix C3) *
 RJ-45 Category 5e inline coupler (suffix C5E)
 RJ-45 Category 6 jack (suffix C6) *
 Fiber optic (suffix LC)

Data cables are not supplied.

* requires on-site wiring
 RJ-11 (Cat. 3) and RJ-45 (Cat. 6) jacks require wires to be crimped to backs.

Features

A/V and data options:
 15 pin VGA (suffix VGA)
 Mini Stereo jack (suffix MS) *
 Mini Stereo coupler (suffix MSI)
 HDMI coupler (suffix HDMI)
 3 pin XLR female (suffix 3X) *
 3 pin mini XLR female (suffix 3M) *
 Cord minders (suffix CM)
 Blank plate (suffix X)

Communication, data jacks:
RJ-11 Telephone Connection:
 RJ-11 Category 3 data jack, requires site wiring and wires must be crimped to back of jack. Configured for Siemons cables. (suffix C3)
 Configured for Amp cables.(suffix C3I)
RJ-45 Data Connection:
 RJ-45 Category 5e in-line coupler female/female. Configured for Amp cables. (suffix C5E)
 RJ-45 Category 6 data jack, requires site wiring and cables must be crimped to back of jack. Configured for Siemons cables. (suffix C6)

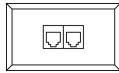

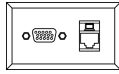

Construction

ABS fire retardant faceplate with integral color. Fits shallow Plexus box openings.

A/V and data jacks:
DB Connection:
 15 pin High density VGA female/female coupler. (suffix VGA)
DVI Connection:
 DVI in-line female/female coupler. (suffix DVI)
RCA Connection:
 White (left audio), Red (right audio) and Yellow (composite video) female/female coupler. (suffix RCA)
Stereo Connection:
 Mini Stereo (3.5mm) jack, requires site wiring (suffix MS). Mini Stereo (3.5mm) female/female coupler (suffix MSI).

USB Connection:
 USB A/A inline in XLR body. (suffix USB)
Video Connection:
 S-Video (SVHS) female/female coupler. (suffix SV)
XLR Connection:
 3 pin XLR jack, requires site wiring (suffix 3X). 3 pin mini XLR jack, requires site wiring (suffix 3M).
HDMI Connection:
 HDMI in-line female/female coupler (suffix HDMI).
 * requires on-site wiring.

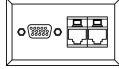

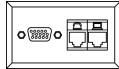

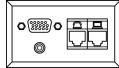

A/V Cables are not included.

	RJ-45 Category 6 jack (suffix C6) *	Blank plate (suffix X)
	Fiber optic (suffix LC)	
	Data cables are not supplied.	
	* requires on-site wiring	
	RJ-11 (Cat. 3) and RJ-45 (Cat. 6) jacks require wires to be crimped to backs.	

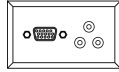

Specify: Faceplate with desired communication or data jacks.

1. Faceplate
2. Communication/data jack
3. Communication/data jack
4. Communication/data jack

On-site wiring to be installed by communications/data contractor.

Construction
ABS fire retardant faceplate with integral color. Fits shallow Plexus box openings.
<i>A/V and data jacks:</i>
DB Connection: 15 pin High density VGA female/female coupler. (suffix VGA)
DVI Connection: DVI in-line female/female coupler. (suffix DVI)
RCA Connection: White (left audio), Red (right audio) and Yellow (composite video) female/female coupler. (suffix RCA)
Stereo Connection: Mini Stereo (3.5mm) jack, requires site wiring (suffix MS). Mini Stereo (3.5mm) female/female coupler (suffix MSI).
USB Connection: USB A/A inline in XLR body. (suffix USB)
Video Connection: S-Video (SVHS) female/female coupler. (suffix SV)
XLR Connection: 3 pin XLR jack, requires site wiring (suffix 3X). 3 pin mini XLR jack, requires site wiring (suffix 3M).
HDMI Connection: HDMI in-line female/female coupler (suffix HDMI). * requires on-site wiring.
A/V Cables are not included.

Selling Policy

This Selling Policy supersedes all previous selling policies and is inclusive of Knoll, KnollStudio and Muuto. Prices, discounts and product offerings are subject to change without notice.

Terms & Conditions of Sales	Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.
Ordering Information	All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.
Order Confirmation	A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.
Pricing Policies	List prices are subject to change without notice. List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.
Taxes	All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.
Terms of Payment	Payment for one hundred percent (100%) of the net order amount (including any applicable shipping and handling fee) is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice. KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment. If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.
Changes and Cancellation	Standard purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled. QuickShip orders may not be changed or canceled without Knoll's authorization. In the event of Muuto order changes, 25% payment of original net order amount is required for changes incurring the week the order was entered. 100% payment of original net order amount is required for changes incurring the week the order is scheduled to ship. If Muuto is ordered on QuickShip, the QuickShip policy supersedes.
Freight Prepaid	For standard orders, freight is prepaid and included in the price of all Knoll Office and KnollStudio Products, except KnollTextiles and Muuto, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice. Freight for all Muuto orders must be specified at time of order placement and added to the PO.
Delivery/Freight Charges	Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin. For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination. Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing. Nonstandard methods of shipment and/or additional services are available upon request. Orders for QuickShip product shipping direct parcel or White Glove are subject to additional shipping and handling charges and must be paid by Purchaser. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reassignment and redelivery. Partial shipments may be made and invoiced by Seller.
Claims	All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Selling Policy

Seller's Security Interest	Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filing of documentation, which may be necessary to perfect and assure the security interest of Seller.
Returns	The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.
Held Orders/Storage	If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.
Customer's Own Material	A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.
Delay/Force Majeure	Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.
Compliance with Law	PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES, REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.
Patents	Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended. The foregoing indemnity does not apply to the following: <ul style="list-style-type: none">• Products supplied according to a design other than that of Seller, and which is required by the Purchaser.• Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.• Any settlements of a suit or proceeding made without Seller's written consent.
Limitations of Liability	SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT. Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.
Warranty	please visit warranty website link Warranty Knoll for up-to-date information.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc.

1235 Water Street

P.O. Box 157

East Greenville, PA 18041

Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEED™ certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
