

Labelling machine

One important factor for the shop owner is the cost element for price labelling. Using price guns, labelers and corresponding price labels is the most favourable and inexpensive way to price your articles and products. As distributor for price guns of the brands "BLITZ" and "PREVAIL" we offer a large range of high quality and low cost price hand labelers. Our range comprises more than 50 different models for any pricing application including one line, two lines and three lines labelers. The corresponding labels are available off-the-shelf in various adhesions, colours and sizes.

Reliability of the pricing device is another important factor for a shop keeper. Our price guns comply with this requirements superior. The brand BLITZ is a most reliable labelling machine working without maintenance for years. The body is of hard plastics, all parts are made to high precision, allowing a long durability even for heavy duty applications. As distributor for these labelers, we have all spare parts and accessories in stock all the time.

High flexibility of the pricing gun and an excellent readability of the labels are two additional factors for the choice of your labeler. Due to the large number of different price guns, our assortment offers you products for maximum flexibility to your requirements. The digits of the labeler can be made to your needs, including currency symbols (€, Pound, Fr.), cloth sizes (X, M, L, S) or weights and measures (g, kg, m, l). The rubber bands are made of high quality rubber and guarantee best printings for a long time.

One-line printer

One line price guns are the most popular labeling machines in our range. This printer are used for pricing only.

Various different models and series are available for your choice. The series differ according to the size of the labels, the models have different combinations of the digits. One line printers can be supplied for many standard labels ranging from 22x12 to 37x19 mm. The number of digits depends on the series, up to 14 digits are possible in one single line.

Another important application for one line printers is the printing of expiry dates. With a preprinted label, you can easily print "Best before:" and a date on one label starting with 26x12 mm.

Two-line printer

During and after the conversion of the single currencies into Euro, two line printers were most popular to print both currencies on one single label. But even after this period of double-pricing, these kind of printers are often used for various labeling applications.

The first main application is the printing of expiry dates and prices on one label. The first line with smaller digits is used to print the date while the second line with larger digits is used for the pricing information. With preprinted labels, additional information like "Best before:" or similar imprints are used for even more customer information.

A second important application for two line price guns is the printing of two prices, either for special prices (standard price in the first line, special price with larger digits in the second line) or for special price offers by larger purchase quantities.

Last but not least, two line price guns, especially labelers of the series "L" and "T" are used for a combination of product information and price information. With preprinted labels, a lot of information can be printed on one label. This labeling machine is often used in grocery's or within the food industry, where expiration date, date of manufacture or capacity must be printed on the product.

Price gun

Advantages

- Extremely robust plastic body – sturdy construction
- Easy to use band selector
- Lightweight
- Label roll in protective cover
- Easy to load - labels can be changed within seconds
- high speed printing, quick label result
- complete assortment for the most different label dimensions
- Big model availability
- High flexibility due to the large range
- Pricing and date marking with one single printer possible
- Special rubber bands for special markings (g, kg, pcs., m, X, L, M, S)
- Spare parts available
- Most printers off-the-shelf available

Applications

- clothes shop and fashion shop
- body shop,
- butcher's shop, bakery, grocer's shop, tea shop
- chemist's shops
- electric shops, music shops, electrical supply stores
- entertainment electronic stores consumer electronics
- flower shops, pet shops
- furniture shops
- bookshops
- gift shops, picture shops
- retail shops of any kind

Labelling machine

Price gun

Alphanumeric price gun

Alphanumeric price guns are special labelling machines with figures and letters on each wheel. With this labeller, you can easily print entire words, article numbers with letters or similar information without having to use more expensive preprinted labels.

Due to the large number of different symbols on each band, you will have to set the symbols different to other price guns. A small calculation table shows you how to set the right letters or figures. For example, when printing an A, you will have to set a T.

Blitz alphanumeric labelling machines

Price gun Blitz C10A

Number of wheels: 10A - Labels: 26x12 mm
 Character size: 3.0 - Preprinting area: 4.5 mm
 No currency symbol
 Single line printer with alphanumeric bands

Labelling machine

Price gun

Labelling machine Uno

Labelling machines UNO are favourable hand printers for smaller shops. These printers are made in Europe and are suitable for standard applications. The range covers all standard printers.

Uno price guns offer an even cheaper alternative to the Jolly printers.

Our range

Labels - Price labels

Price gun

Our range of price labels comprises various labels for almost any price gun available on the market. Our labels fit in Meto, Blitz, Jolly, Uno, Smart, Prevail, Jazz and other labelling machines.

As stockist, we have almost any size available from 21x12 - 37x28 mm labels, including the top selling labels 22x12, 26x12, 26x16 and 29x28 mm. Besides, we also offer various colours (white, red fluo, orange fluo, yellow fluo, green fluo and others) and different glues.

Additional, for security reasons, we also have pre-cutted labels in our range to prevent customers from changing prices. The labels cannot be removed and stuck on another article without notice.

Labels - Available sizes

Our range comprises the following labels:

- Labels 21x12 mm rectangular
- Labels 22x12 mm wavy
- Labels 26x12 mm wavy & rectangular
- Labels 26x16 mm wavy & rectangular
- Labels 26x19 mm rectangular
- Labels 25x16 mm for Contact
- Labels 32x19 mm wavy
- Labels 29x28 mm rectangular
- Labels 37x19 mm rectangular
- Labels 37x28 mm rectangular

Our labels - Advantages

- many different sizes
- high flexibility
- suitable for almost any brand (Meto, Jolly, Blitz, Uno)
- 4 different adhesions
- 5 different colours always on stock
- extra cuts and anti-tamper cuts
- preprinted labels on demand

Adhesion

The right choice of the adhesion is important for the success. We offer the following glues:

Permanent: excellent adhesion on almost any products like metal, glas, china and other products.

Semipermanent: only available in white - adhesion is not so strong like the permanent labels. Easier to remove. Great for pharmacies where the label must be removed without rests of glue

Removeable: good adhesion for paper, can be removed without destroying the paper.

Freezer: for food industry and environments below 0°C

Freezer plus: can also be stuck on the goods when they are frozen

Colours

Our labels are available in various colours like white, yellow fluo, orange fluo, red fluo, green fluo, magenta, blue, beige, grey. Other colours on request.

Pre-printed Labels Price gun

Preprinted Labels

Beside the pure price labelling we offer also a wide variety of pre-printed and customised labels.

We can supply you with any colour, shape or format - including special labels tailored to your individual demands.

There are many different applications where pre-printed or customised labels are required.

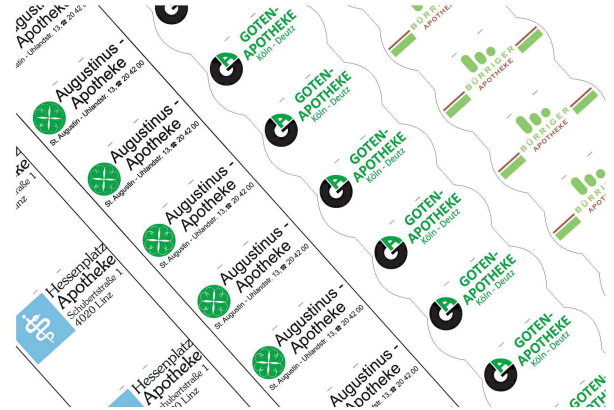

Food Labelling: Pre-printed labels for food labelling like „best before“ or „batch“ labels. Also important to indicate ingredients and egg labels.

Promotion labels: Tests have shown that products labeled with promotional labels sell more easily because the customers perceive the product as a good offer even if the price is not marked down. Various different labels in all sizes available.

Pharmacy labels: Special customised imprints with two goals - first, marketing goal with company logo or imprint and second, information about the correct time to take your medication

Marketing labels: Labels in any size available with customised imprint of your company logo, company name or any additional information.
