NOTICES

THE prices in this Catalogue are net. The first column gives the number of the stamp for convenience in ordering, (it is only necessary to give the name of the country and the number); the second column gives the intrinsic value of the stamp; the column headed "New" gives the price of unused stamps and that headed "Used" of cancelled specimens. *Prices in Italics are Approximate Values.*

Owing to the growing scarcity of many stamps, it is not possible to have in stock, at one time all those mentioned in this Catalogue, and it will be well for correspondents when ordering to *give an additional list to select from in case any of those preferred may not be on hand.*

We will be obliged to collectors if they will write the name of countries alphabetically in their order lists.

Money sent for stamps not in stock will be returned, unless otherwise ordered by the sender. In no case will other stamps, not ordered, be substituted.

Our stock is very large, and collectors can depend upon having their orders by mail filled promptly and as satisfactorily as if they called in person.

It is needless to add that collectors will get from us only genuine stamps in good condition. The reputation we have acquired in the past twenty years is an assurance of that, but if more is needed, a written guarantee upon any particular stamp sold by us will be given whenever desired.

In the following pages are representations of the Coats of Arms, Devices, Inscriptions, etc., found upon the stamps of various countries, and by the aid of which any stamp may be located with little difficulty. The arms are not always the same size on different stamps, and they are frequently enclosed in a fancy frame, or a wreath, or with a scroll or other device around them. It should be borne in mind that the pictures given are the arms without any of the accessories named, and a little study will soon impress them so upon the mind that they will be known at sight, regardless of what may be around them. These illustrations and list of words and phrases will be found to be of far more value than pictures of the stamps, as formerly employed, and by their aid a stamp without the name of the country upon it can be more easily located. For instance, the collector finds a stamp bearing a double-headed eagle and the inscription, "*Kais Kon. Zeitungs Stempel.*" By looking among the coats of arms he will find the double-headed eagle to be the arms of Austria, and on the list of words, etc., it will be ascertained that the inscription belongs on an Austrian stamp. Another has a stamp with a head of Mercury looking to the right and the inscription wholly in a foreign language. Looking among the devices as pictured it will be seen at once that the stamp is from Greece, and so on through the entire number of stamps; there are few which cannot be identified by the tables here given.

COATS OF ARMS.

Nothing adorns the pages of the album so much as the Coats of Arms of the various countries printed in gold, silver, red, blue, etc., together with the flags and portraits of the ruler. We have them at the following prices:

Coats of Arms, 50 cents,	}	The three sets for \$1.00
Flags, 25 “		
Photographs of Rulers, 50 “		

Engravings of 64 rulers can also be supplied for 15 cents. They are good likenesses but not so fine as the photographs.

THE AMERICAN ALBUM.
