

PROXXON

Bench Circular Saw KS 230 and Blades

Order code: 7701051

Key Features:

- 58mm diameter super-cut blade
- Quiet 85W VDE tested motor with a prolonged life expectancy
- Cutting performance:
 - ✓ Wood up to 8mm
 - ✓ Plastics (Pertinax too) to approx. 3mm
 - ✓ Non-ferrous metals to approx. 1.5mm
- Fiberglass reinforced PC cards can be cut with the tungsten blade
- Side door allows easy sawdust removal
- Overall size approx. 240 x 180 x 80mm. Weight approx. 1.8kg

- 1 Graduated mitre stop
- 2 Machined, die-cast aluminum table of 160x160mm
- 3 Quiet, high-performance VDE approved motor for prolonged use
- 4 Base of ABS with a sawdust door on the right
- 5 Super-cut blade 58mm diameter; 80 teeth, individually set and sharpened, is included
- 6 Adjustable fence with scale

Important:

Power transmission by toothed belt via ball bearings, housed in sturdy casing, ensures the right blade speed for the job (approx. 5,000rpm) with a doubling of torque (approx.). Above all, it ensures good cutting depth.

PROXXON

Saw Blades for Bench Circular Saw KS 230

Blade	Order Code	Description
	8701051	No. 28012 Diamond blade 50mm diameter (10mm bore). With 0.5mm layer of class 'D107' diamond for cutting ceramics, as well as fiberglass sheets.
	9701051	No. 28014 Crosscut 'super-cut' blade 58mm diameter (10mm bore). 80 alternately set teeth. Ideal for hard and soft wood as well as plastic and Pertinax. For fast, clean cuts. Teeth are individually set and sharpened. Superior cutting power!
	0801051	No. 28011 Solid carbide saw blade 50mm diameter (10mm bore) 0.5mm thick. Fine toothed: ideal for cutting fiberglass sheets up to 3mm, non-ferrous metals, duro-plastics and other 'difficult' materials.
	1801051	No. 28020 HSS saw blade 50mm diameter (10 mm bore), fine teeth. Designed for precision cutting.
	3801051	No. 28016 Tungsten tipped saw blade 50mm Ø x 1.1mm (10mm bore). 10 teeth. Used to cut hard and soft woods, PC cards, PERTINAX and aluminum.
	4801051	No. 28017 Tungsten tipped saw blade 50mm Ø x 1.1mm (10mm bore). 20 teeth. For extremely clean cuts of balsa, plywood. Can also be used for cutting PC cards and POLYCARBONATE.
