Available Models

- One, two and three seaters available, with curved flat steel armrests or armless.
- 24 X 56 rectangular cocktail table and 28 X 28 square end table coordinate with the lounges.

Frame Construction

Lounge design is based on 1 3/4" round diameter tube construction. The bow-shaped side parts are joined by crossbars hidden by the application of the seat and backrest cushions, giving the illusion that the seats and backs are free floating.

Shell Construction

TeZett lounge features inner structural plywood panels.

Upholstery and Foam

- Seats and backrests feature custom molded, controlled density urethane foam for consistency and good contoured support.
- Seat and backrest cushions are visually identical; however, the seat cushions are denser, enhancing seated comfort.
- All models feature a seamed slipcover upholstery. The backrest and seat have a zipper and velcro closure so that they are field replaceable.
- Contrasting seat and back cushion upholstery optional.

Armrests

- Flat steel, full radius curved armrests are optional.
- Upholstered arm caps are optional. When contrasting seat and back cushion upholstery is specified, upholstered arm caps will match the seat upholstery.
- Armrests are not field replaceable.

Table Construction

- Table design is based on 1 1/2" round diameter tube construction. Bow shaped parts are joined with 3/8" crossbars visible through the 1/2" thick beveled edge glass top, which sits freely on the frame.
- Black rubber disks attach to the top of the bowed side frames to secure the glass top in place.

Glides

Black nylon glides are standard on all lounge frames and tables.

Finishes

Frames are available in black powder coat or chrome.

Warranty

TeZett lounges and tables are covered under the Kimball ten year product warranty. Please consult your Kimball Seating Price List for specific information concerning the warranty.

TeZett is marketed under license from Klober GmbH Uberlingen, Federal Republic of Germany.
