

# The *GETAUG* Token

The *GETAUG* Token is redesigning the way Consumer Credit is Created.

## The Problem

How does someone create credit history without the need to incur debt in both the physical and meta worlds?

## The Context

Over sixty million US consumers are credit blind or have zero credit history. Conventional solutions require consumers to deposit funds into a bank account for security purposes or take out debt in the form of credit cards or loans in order to create credit history . These solutions are decades old and do not account for recurring payments made to non-reporting sources (like rent payments for example) using popular mechanisms such as venmo, zelle, debit cards,etc. which are never reported to the credit agencies. Underbanked populations do not want to go into debt to enter the credit system...and right now that's the only way to do it. Additionally,digital currency contained in Virtual or Hard Wallets are not seen or accepted by conventional lenders.

In the near future consumers will be able to utilize digital currency to pay for staples such as housing, transportation, entertainment, food, utilities and clothing. Without credit, the consumer will have to pay for everything in advance. As the world's fiat currencies continue

to lose value and digital currency becomes more embedded in our day to day lives, the need for a bridge between the “digital currency world” and conventional credit will be essential.

## The Solution

GetAugie Inc has developed a unique platform which enables a consumer to utilize their current monthly payments to create credit history. It is free to use by any consumer without interest, fees or penalties.

## GetAugie’s Core Values

### 1. Breakthrough Innovation

GetAugie has developed a unique platform which enables consumers to earn credit history on a payment by payment basis. Each time a consumer pays an online subscription or any other recurring bill, credit history is built, without incurring unsustainable debt.

### 2. The power of community

Each member of the GetAugie community will automatically be airdropped a certain number of GETAUG tokens into their Augie Wallet. GETAUG tokens have a real value which can be converted into USD in order to reduce the amount needed to pay bills.

### 3. Giving Back

GetAugie is committed to working with non-profits in its goal to enhance the knowledge of all consumers on credit history AND digital currency.

### 4. Diversity and Inclusion

GetAugie understands the benefits of fostering a diverse and inclusive community, especially in the cryptocurrency and Credit spaces. The community accepts and welcomes people from different walks of life along with other crypto communities. Diversity is recognized as a strength that promotes creativity and renewal. Inclusion is a journey that will require effort, focus, and determination to accomplish meaningful change within society. By offering a free solution for anyone to build credit and participate in crypto, GetAugie extends financial wellness to everyone.

## Core Brand Personality

### 1. Professional and Respectful

GetAugie will hold strong to the pillar of professionalism and respect for people. Even if community members and leaders must be firm about a topic, they shall consistently strive to be respectful. Every community member and investor shall feel appreciated, heard, respected, and valued.

### 2. Edgy and Rebellious

GetAugie's attitude is rebellious—in a positive way.

The community will come across as edgy; however, this is because the community is building a platform that is against the inherent limitations that exist in credit building, FREE, ACCESSIBLE and FAIR.

## The Ecosystem

The GETAUG Token's vision advances further into the cryptocurrency space by releasing innovative products, such as non-fungible tokens (NFTs). The sustainability of GETAUG Token is of utmost importance to the community and its leaders.

### Tokenomics

The governance token. For all.

GETAUG Token is a token that operates on the Solana blockchain (SOL-20).

GETAUG was launched with an initial 100B (Billion) tokens. GETAUG Token is fully decentralized.

## Initial Market capitalization tokenomics

Each Augie Token has a stored value of \$0.01 per token

- Circulating supply: 5 Billion
- Total Supply: 95 Billion
- Max Supply: 100 Billion

Once the Augie Token is removed from the Augie Wallet, it cannot be placed back in it for redemption or conversion to fiat currency as a method of reducing ones consumer bills.

## Utility

Holders of the GETAUG token, retained within the Augie wallet, will receive the following utility:

1. Ability to pay their rent via ACH (instead of the Augie Credit Card as most landlords do not accept Credit / Debit cards for rent payments) and have those payments count towards conventional credit history.
2. So long as the Augie Token remains in the 'Augie Wallet", the holder has the ability to convert to fiat dollars that are then applied as credit to their bills.

## Roadmap

**Q2 2022** - Augie launches its Token and Reward Program. The reward program is designed to enable consumers to earn Augie Tokens.

**Q3 2022** - The Augie Card launches. A unique, free, Credit Card designed to convert monthly bills into credit building actions.

**Q1 2023** - The physical Augie Card launches. The physical card will enable consumers to utilize their Augie Wallet and credit lines to purchase goods and services, which contribute to credit history building.

In addition, it is expected that the Augie Token will begin to trade on more exchanges in 2022 / 2023 and beyond.
