SUSTAINABLE SOLUTIONS FOR TOMORROW'S CHALLENGES

ZeeDimension stands as a trailblazer in the realms of Governance, Risk, and Compliance (GRC), Environmental, Social, and Governance (ESG), and Data Analytics.

ABOUT OUR COMPANY

A BRIEF STORY ABOUT THE COMPANY

While companies were engrossed in the ERP (X-dimension) and CRM (Y-dimension) over the last two decades, ZeeDimension recognized the critical need for a third dimension, the Z-Dimension. ZeeDimension emerged as a visionary company, carving its niche in an unconventional dimension—GRC (Governance, Risk, and Compliance) and ESG (Environmental, Social, and Governance).

The Z-Dimension isn't just a part of ZeeDimension's brand; it's a testament to the company's dedication to shaping a future where businesses thrive by embracing responsible, ethical, and sustainable practices.

SHAPING A FUTURE BY EMBRACING
RESPONSIBLE, ETHICAL, AND
SUSTAINABLE PRACTICES.

VISION

ZeeDimension envisions a future where businesses embrace a holistic paradigm, integrating GRC, ESG, and Data Analytics for sustainable solutions. Our vision is rooted in ethical governance, robust risk management, and a deep commitment to environmental and social responsibility.

MISSION

- 01** Empower Organizations: Equip businesses with innovative GRC, ESG, and Data Analytics solutions to foster transparency, ethical practices, and sustainable growth.
- 02** Navigate Tomorrow's Challenges: Serve as a strategic guide for organizations, enabling them to navigate evolving global challenges through comprehensive risk management and forward-thinking approaches.
- 03** Drive Positive Impact: Be the driving force in shaping a future where businesses thrive holistically, creating positive impacts on society, the environment, and long-term financial success.

KEY FACTORS

DATA ANALYTICS FOR AUDIT AND GOVERNANCE:

Utilize cutting-edge data analytics tools and technologies to enhance the audit process, allowing for more comprehensive analysis and identification of irregularities or patterns. Implement continuous monitoring to provide real-time insights into financial transactions and operational processes, enabling proactive risk management.

INTEGRATED GRC PLATFORM

Implement integrated GRC platforms that centralize governance, risk management, and compliance activities, fostering collaboration and ensuring a holistic approach to organizational oversight. Conduct risk assessments using quantitative and qualitative data to identify, prioritize, and mitigate risks while aligning with strategic objectives.

ESG DATA INTEGRATION

Integrate ESG considerations into decision-making processes by utilizing data analytics to assess and quantify the environmental and social aspects of business operations. Measuring the impact of ESG initiatives through data analytics, allowing organizations to track progress, demonstrate accountability, and improve sustainability efforts.

PROBLEMS & SOLUTIONS

DATA OVERLOAD AND COMPLEXITY

Problem: Companies generate and collect vast amounts of data, making it challenging to extract meaningful insights and patterns manually.

Solution: Data analytics tools help companies process and analyze large datasets efficiently, providing actionable insights and facilitating informed decision-making.

ESG REPORTING CHALLENGES:

Problem: Companies face pressure to demonstrate ESG data, however collecting, analyzing, and reporting it manually can be cumbersome and prone to errors.

Solution: ESG software streamlines the collection, analysis, and reporting ESG, track and communicate ESG performance effectively.

REGULATORY COMPLIANCE BURDEN

Problem: Meeting evolving regulatory requirements can be overwhelming, leading to compliance risks and potential legal consequences.

Solution: GRC software assists companies in centralizing and automating governance, risk management, and compliance activities, ensuring adherence to regulations and mitigating risks.

INEFFECTIVE RISK MITIGATION:

Problem: Companies may struggle to identify and mitigate risks effectively without a centralized risk management system.

Solution: GRC software offers a comprehensive approach to risk identification, assessment, and mitigation, establishing a robust risk management framework.

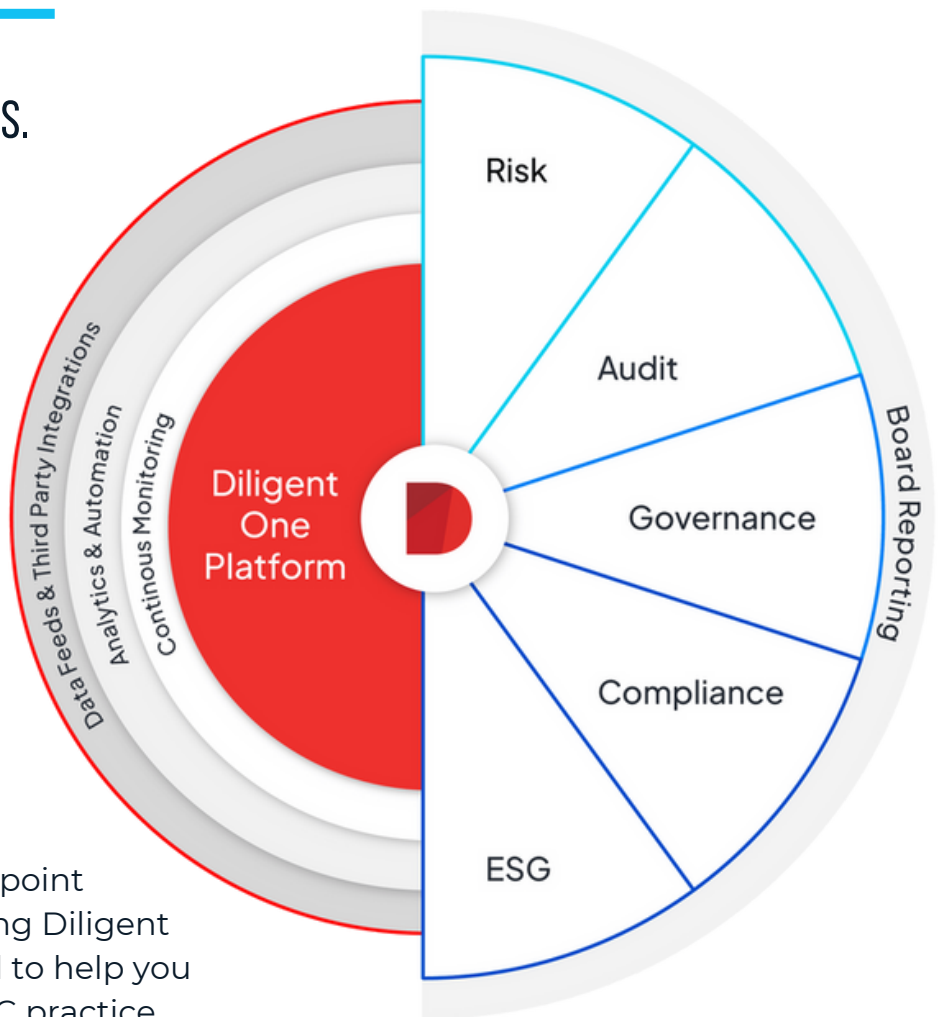

DILIGENT SOLUTIONS

ONE PLATFORM. MORE SOLUTIONS. MORE IMPACT.

Tired of all those disconnected point solutions? So are we. Introducing Diligent One, the one solution designed to help you easily centralize your entire GRC practice, seamlessly provide a unified perspective on risks and deliver impactful insights in one consolidated view.

ONE POWERFUL ANALYTICS ENGINE FOR ALL YOUR DATA

Tired of all those disconnected point solutions? So are we. Introducing Diligent One, the one solution designed to help you easily centralize your entire GRC practice, seamlessly provide a unified perspective on risks and deliver impactful insights in one consolidated view.

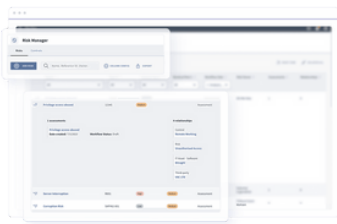

WHAT DOES ALL THIS MEAN FOR YOU? BETTER INSIGHTS. BETTER OVERSIGHT. BETTER GRC.

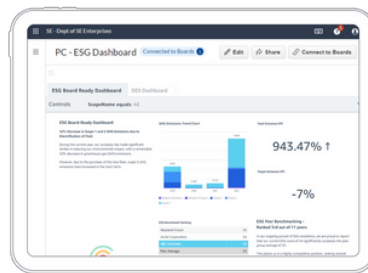

The broadest range of GRC applications united on one platform to ensure practitioners have the tools they need to understand risk, and the data to share their insights with organizational leadership. While also eliminating the need for point solutions from multiple providers.

CUSTOMIZED SOLUTIONS

LOW-CODE/NO-CODE DEVELOPMENT

If you still need more tailoring Audit, GRC or ESG solutions, we can meet your specific requirements by leveraging low-code and no-code development methodologies for rapid, efficient, and customized solutions.

YOUR JOURNEY WITH LOW CODE, NO LIMITS

Our domain expertise can help to create highly flexible and scalable solutions that align seamlessly with your organization's unique needs. With low-code/no-code development, we ensure a swift and cost-effective approach, empowering you to adapt and modify the solution according to evolving business dynamics. We are committed to delivering innovative ESG and GRC solutions that not only meet but exceed your expectations, providing a competitive edge in navigating the complexities of sustainability, governance, and compliance landscapes.

FASTER TIME-TO-VALUE:

Shortens the time from concept to implementation, enabling you to realize the benefits of workflow automation more quickly, leading to improved efficiency and productivity.

OUR MAIN PARTNER

DILIGENT
(ACL/GALVANIZE) IS
OUR MAIN PARTNER
SINCE 2010

Diligent

OUR MAIN PARTNER

- As a trusted partner with Diligent since 2010, ZeeDimension delivers comprehensive GRC and ESG solutions.
- Through our partnership with Diligent, we facilitate efficient board collaboration and oversight.
- ZeeDimension's decade-long partnership with Diligent, marked by a remarkable 10% year-over-year growth in revenue, underscores our commitment to delivering high-quality GRC and ESG solutions in the Middle East and North Africa (MENA) region.
- Our sustained growth reflects our regional expertise and the value we bring to organizations navigating the complexities of governance, risk management, and sustainability.
- Leveraging ACL Robotics, our solutions enhance data analytics capabilities for risk assessment, fraud detection, and compliance monitoring.

PARTNERS

- Our low code/ no code partner
- With Kissflow's low-code capabilities, rapid Audit, GRC and ESG development is facilitated.
- It offers scalability to accommodate changing business needs.

- Our partnership with Briink is distinguished by its cutting-edge AI technology.
- Briink utilizes advanced AI to efficiently identify, verify, and extract ESG data from diverse documents

- TechOwl's partnership provides a robust and comprehensive cybersecurity solution.
- The combination of cutting-edge technologies, rigorous engineering, and an elite team of experts positions the SOC to deliver unmatched value and cyber resilience to our clients.

- Zicon's collaboration with TokenizeX reflects a commitment to combating climate change through innovative and technology-driven solutions.
- By harnessing the power of carbon markets and leveraging a cutting-edge, the partnership aims to drive positive environmental impact and reshape the way carbon credits are managed.
