OPINIONS CHANGE THE HIGH PRICE OF BOOKS AIRPLANES AND EQUALITY AN UNWISE TAX

Senators denounce the high price of books. Mr. McKellar, from Tennessee, says: "Novels worth two bits" can not be bought for less than \$2. . .

That a book should be sold for four or five times what it costs to produce it, is as bad for the publisher and for the author, as for the reading public.

Dr. Winifred Sackville Stoner, who is a lady, says "Man is superior to woman, mentally, physically, artistically and psychologically."

A young boy, his spine straightened in a hospital, seems to have had his mind "straightened" at the same time. Before the operation he delighted in pulling wings off flies, and other cruelties. That is ended.

A healthy brain demands a healthy body. The greatest musician cannot produce harmony with a violin or piano out of tune. Millions are living that might be made better men and women if trephining could remove pressure from the top of the brain. Lack of reverence might thus be eliminated.
