OUR SOLUTIONS

Intelligence, Surveillance, & Reconnaissance

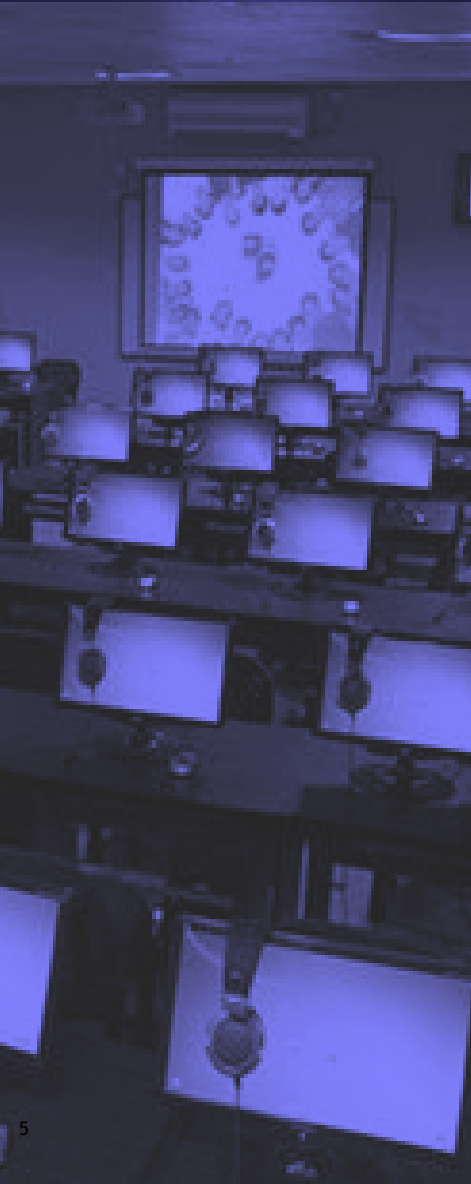

- Multi-Discipline ISR Analysis
- ISR plans and requirements
- Training Support
- MULTI-INT Analysis
- Collection Management
- Cryptologic Mission Support
- Operations Center Support
- Targeting/Reporting Analysis
- Security/Force Protection Management
- Electronic Warfare Research & Analysis
- Language, Operations, and Signal Analysis

Accelerated Learning Environments

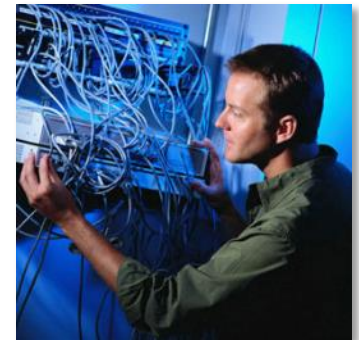

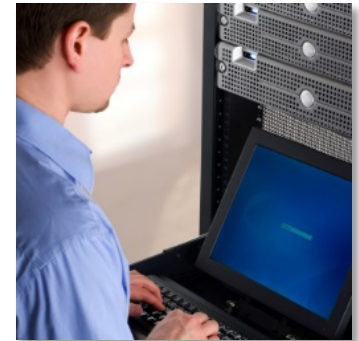

- Virtual Learning Environments
- Technology Enhanced Classrooms
- Instructor Led Training
- Courseware Development
- Foreign Language Training
- Command Language Program Management
- VTC Technicians
- Interactive Multimedia Instruction
- Aircrew Simulation Support
- Test Control Administration

Enterprise Technology

- **Cyber Network Engineering/Security**
- **Defensive Cyber Operations (DCO)**
- **Network Engineering**
- **Systems Design and Integration**
- **Systems Administration**
- **Information Systems Security**
- **ADPE Asset Management**
- **Applications Programming**
- **Web/SharePoint Development**
- **Medical IT Services/Integration**

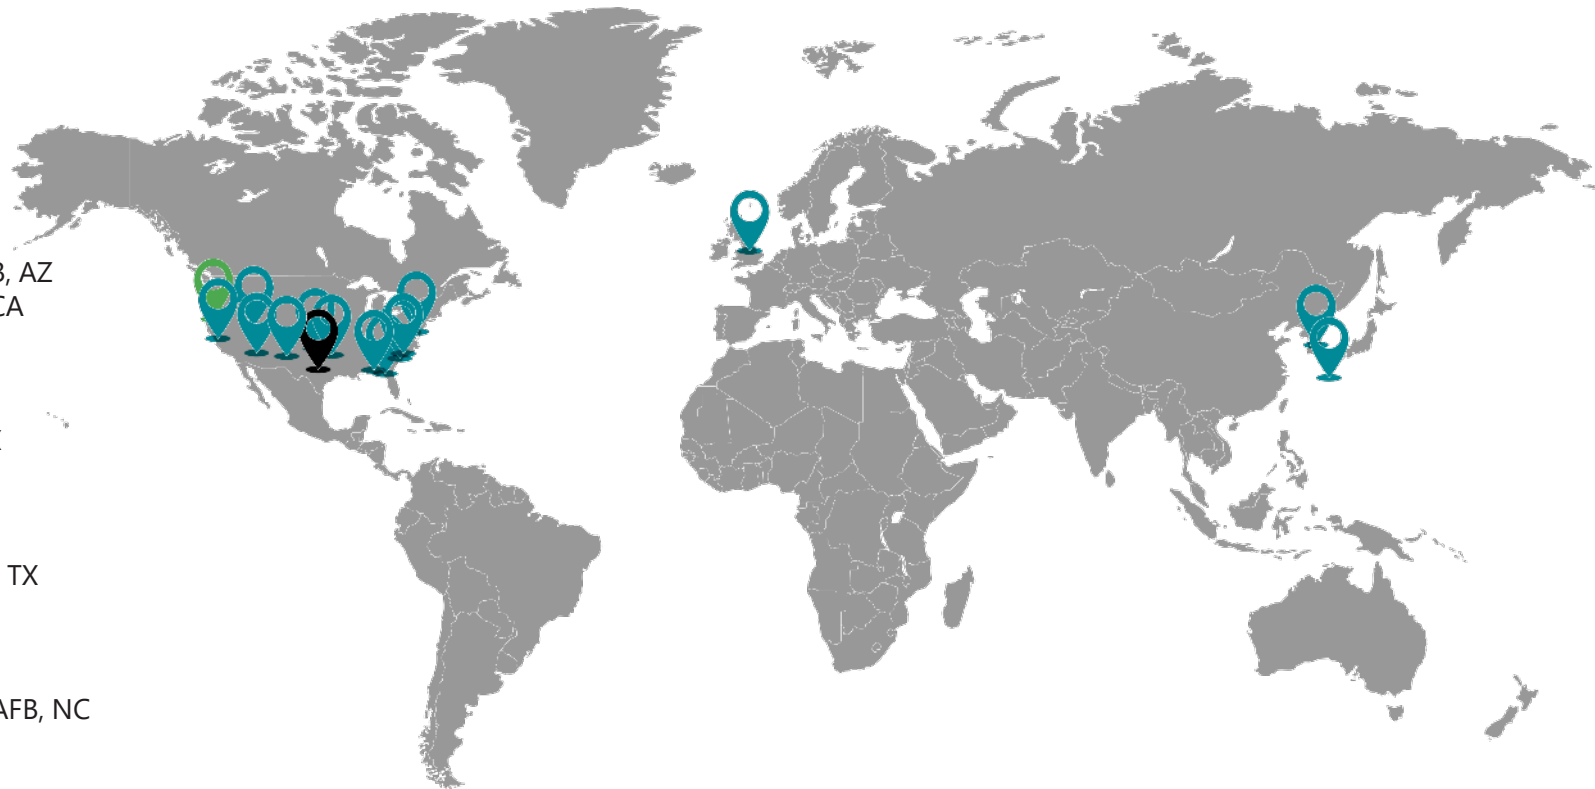

Operating Locations

CONUS

Beale AFB, CA
Cannon AFB, NM

Employee Growth

Revenue Growth

Current/Past Performance

16th Air Force Operations Support III

13 Locations, 4 Countries, CONUS/OCONUS

Command Language Program Management (CLPM) Support, Instruction and Courseware Development, Test Examiner Support, Senior Staff Work, Information Assurance (IA) Support, Security Management, and expansive Cybersecurity and Information Technology (IT) Support

AFCENT/A2 ISR Support

Shaw AFB, SC (OCONUS Travel)

Air, space, cyberspace, and ground-based ISR technologies support. Imagery Intelligence (IMINT), Signals Intelligence (SIGINT), Open-source Intelligence (OSINT), Measurement and Signature Intelligence (MASINT), Geospatial Intelligence (GEOINT), Processing, Exploitation, and Dissemination (PED) & Targeting

E-3 Mission Crew Simulator (MCS) Contractor Support (CS)

Tinker AFB, OK

Training, evaluation, and maintenance for E-3 aircraft mission crew personnel, ensure MCS and FIT are fully operational on a 24/7/365 schedule, testing organic Airborne Operational Computer Program (AOCP) software changes, E3 Mission Crew Training Support, MSLITE FST Mission Coordinator Support, System Engineering, and Maintenance and Logistics Support.

Current/Past Performance

16th Air Force Language Portal Support

Offutt AFB, NE

Provide continued maintenance, enhancement, and expansion of the Command Language Program Manager (CLPM) Database Portal. Supports approximately thirty thousand (30,000) cryptologic language analysts (CLAs) but is expandable up to fifty thousand (50,000)

ACC ISR Support

Multiple Locations

Operational and technical support across the ACC ISR enterprise for advanced analysis, irregular warfare support, cryptologic linguist support, and technical assistance in planning and systems support. Our tasks and SME expertise span 11 CONUS locations and include Information System Security Manager (ISSM), Systems Administrators, ISR Training Specialists, Instructors, Tactical System Operator, Multi-Source Intelligence Analysts, Geospatial Analysts, SIGINT Analysts, SMEs and Cryptologic Mission Support Specialists

AFCENT Force Protection Services

Shaw AFB, SC (OCONUS Travel)

Coordination of air base defense, antiterrorism, FP, and physical security support with Central Command (CENTCOM), the Air Staff, and host nation forces, Improve effectiveness in the planning, training, exercising, executing and assessment of AFCENT's mission responsibilities and maintenance of supporting infrastructures within a constantly changing political and military environment.

Joint Ventures

AIT Sole-Sourced awards cannot be protested (13CFR124.517(a))

Intellect has three unique 8(a) JVs that offer:

- Combined capabilities of three partner companies
- Exceptional performance histories
- Sole-source awards that do not require J&A and are non-protetable

Silotech-Intellect 8(a) JV

- Combined capabilities of Silotech and Intellect
- 8(a) and 8(m)
- HUBZone
- Service-Disabled Veteran Owned Small Business (SDVSOB)
- Woman Minority Owned Small Business (WOSB)

1Hi 8(a) JV

- Combined capabilities of 1HealthSolutions and Intellect
- AITs can have direct negotiations with the government (13CFR124.503(c)(2))
- 8(a) AITs can receive sole sources contracts in excess of \$4M (13CFR124.506(b)(2))
- Sole Source awards up to \$100M do not require a J&A (13CFR124.506(b)(5))
- AITs are always considered Small Disadvantaged Businesses
- Indian Incentive program: 5% Government Payment Toward Subcontract

1Pi 8(a) JV

- Combined capabilities of 1Prospect and Intellect
- AITs can have direct negotiations with the government (13CFR124.503(c)(2))
- 8(a) AITs can receive sole sources contracts in excess of \$4M (13CFR124.506(b)(2))
- Sole Source awards up to \$100M do not require a J&A (13CFR124.506(b)(5))
- AITs are always considered Small Disadvantaged Businesses
- Indian Incentive program: 5% Government Payment Toward Subcontract

Why Intellekt?

What our employees are saying

“I am able to succeed at my job because I have a manager that allows me to do my job. I am never micro managed, and he is always there if I ever need help with anything. For that, I am thankful.”

“It was great knowing there was a support team for all the little things I don't think of and take for granted. I appreciate all you've done for me during my time at Intellekt. My hope is that I am only out for a year. It would be nice to come back home next year.”

“I enjoy the challenges and unique opportunities presented by a small business. Intellekt gives me a voice in company decisions and direction, and I derive a lot of satisfaction assisting with our clients' unique language, training, and intelligence related programs.”

“Thank you so much for everything you do. You've been an absolute joy to work with and your support has been outstanding. I don't say this lightly but I'm going to miss working for TIG. This is a company that works for the employee and I've been so impressed with the lack of red tape, politics, etc. and just letting us do our jobs to make the customer happy. I was treated as a person and as a professional which is rare these days. Having a boss like Casey and CEO like Troy who listened and understood that very simple, non-monetary things (flexible work time, caring about the person, listening, etc.) can go so far and remind those of us in the field what loyalty is since the concept is foreign to so many. I hope our paths cross again in the future and the company continues to treat people the right way.”

“What I love about working for Intellekt is that I feel appreciated. They treat us with respect and support us in our professional growth and development.”

Why Intellekt?

What our customers are saying

“I just wanted to highlight some outstanding work Phil has done recently to aide in efforts to modernize the RIVET JOINT Mission Trainer. Last week, a group from ACC/Northrop Grumman came by to discuss ways we could enable aircrew participating in virtual exercises through the Distributed Mission Operations Network (DMON) to use SIPR chat during those events. Phil was present during those meetings and provided some suggestions on how we could remedy the problem we were facing, and in short order, was able to procure 20 laptops that will be used during DMO events to enhance air crew training. Being able to acquire the laptops so quickly has allowed the 55th OG to be ready to execute the new Tac Chat program as soon as it comes online. **Bottomline; Phil's work on this initiative was awesome** and helped relieve some burden on PACAF so that they can focus their efforts on getting other organizations up to speed with Tac Chat. Please let me know if you all need any amplifying info about Phil's work. Thanks!”

“The USAFSOS Liaison to 551st SOS Sarah has been invaluable in making this course happen. Sarah responded to all forecasted and un- forecasted course support requirements. Absolutely no issues with support and getting the course up and running. 551st SOS support has been tremendous. USAFSOS Liaison to 551st, Sarah has been awesome and critical to making this event happen.”

“Thank you for your outstanding contribution to our SOF Education initiative at Cannon. We truly appreciate everything you are doing.”

Why Intellekt?

What our customers are saying

“Hope you are doing well. Wanted to touch base with you for two reasons. First, Rick Lemke has provided tremendous support for the recent Command Language Program Managers (CLPM) Basic course at Duke Field 7 - 11 May. Mr. Lemke received and accounted for all the USSOCOM computers (he had to track them down, at they were shipped to Eglin). Then, he successfully ensured all the laptops were connected to Wi-Fi, which seems easy but actually requires A LOT of coordination. He also set up an entire extra room for the USSOCOM Course Directors to have their own private space, with five more computers. The first day, I peeked in the office area and I thought we had DV's arriving, it looked so nice!

“Thank you so much for your member's work in the AFCENT Intelligence Directorate's Warfighter Operations Support Division. We greatly value your support to USAFCENT and its support to Operations INHERENT RESOLVE, RESOLUTE SUPPORT and FREEDOM'S SENTINEL. Please extend our appreciation to Mr. Tim Braithwait for his invaluable efforts as he troubleshoot and rebuilt over 100 high priority intelligence requirements which had been lost due to a system anomaly. Additionally, Mr. Braithwait played a key role in the quality control and validation process while coordinating with AFCENT/AI and the Air Force Personnel Center to fix the control process to task deploying personnel. Furthermore, his efforts resulted in the Intelligence Directorate requirements to be rebuilt in 3 days, far exceeding any other AFCENT staff directorates. Finally, using his expertise in the Time Phased Force Deployment Data process he assisted the other AFCENT Directorates in fixing their requirements.”

“I just want to tack on a big THANKS to Phil for disseminating a viable workaround for Share Drive access during a systemic outage, and also for showing some serious expertise in establishing a software image for the 55 WG's first new AF Enterprise JWICS desktop installation. Happy to have you on board sir!”
