Bpt lithos installation manual

Choosing MTM means choosing a product made specifically for you and your needs. We've worked hard to make it simple, yet versatile and suitable to all, from small residential systems to large urban compounds. Speaker video intercom with 5" and 7" touch screen display. Lithos is the colour video entry panel created for the X1 two-wires system. Compact and slim (30 mm thick on the wall), it is perfect for any environment, thanks to the design with soft lines and the elegant finish in brushed stainless steel. Thangram is CAME Bpt's line of modular entry panels: it is the first designed for use with the new IP digital technology system, and the only model that offers such superlative-quality colour video. AGATA is the line of new generation audio and video receivers with handset, in colour or B&W, with Basic or Building functions. All coupled with great ease of use, functionality, clarity of the lines of the design. PERLA is the line of wall-mounted hands-free audio receivers, a real jewel of sophisticated Made in Italy design and advanced technology. New design, with Zamak trimmings, all VR items can resist up to IK09 level shocks. This means the MTM series is the most complete range of modular entry panels on the market.

This means the MTM series is the most complete range of modular entry panels on the market. AGATA is the line of new generation audio receivers with handset, in colour or B&W, with Basic or Building functions. All coupled with great ease of use, functionality, clarity of the lines of the design. The Mitho SB is a colour video porter switchboard system for table-top installation, featuring a 4.3" LCD touch screen in 16:9 format and available in Fusion black or Ice white. Available in Audio and Video, Standard or Digital versions, with a brushed stainless steel or brass finish, wall-mounted or recessed the range lends itself to any requirement and living environment. PERLA is the line of wall-mounted hands-free video and audio receivers, a real jewel of sophisticated Made in Italy design and advanced technology. With the OPAL line, CAME Bpt enriches its range of video receivers, offering a model for recessed installation that is elegant and discreet in any setting. This module is extremely flexible in terms of installation, since personalized non-Bpt metal front plates can be used to select the panel that meets the exact requirements of the user.

SERVICES CONTACT US WARRANTIES LITHOS (Entrylevel Türsprechanlage) Lithos ist die neue monolithische Farb-Aussenstation von Bpt für das 2-Draht-System X1. Kompakt und flach (30 mm Stärke bei Aufputzmontage) ist Lithos dank seines Designs, das durch seine weichen Linien besticht und der eleganten Ausführung aus gebürstetem Edelstahl, für jedes Ambiente ideal geeignet. Lithos verfügt über eine Kamera mit einem sehr grossen Öffnungswinkel, der ein sehr ausgedehntes Sichtfeld gewährleistet (z. B. in einem Abstand von einem halben Meter Entfernung von der Frontplatte ist ein Bereich von 80 cm Breite einsehbar). Dank der Sensoren der neuesten Generation, die hochentwickelte Algorithmen zur digitalen Bildverarbeitung integrieren, wird eine unvergleichliche Videoqualität unter allen Umweltbedingungen, bei Tag und bei Nacht, gewährleistet. Lithos kann je nach Anlagenart (Ein- oder Zweifamilienhaus) mit Einzel- oder Doppelfunktionstasten ausgestattet werden und verfügt serienmässig über eine Intercomfunktion ohne zusätzliches Netzgerät. Mit Lithos können Anlagen mit bis zu 4 Anrufen realisiert werden.
