## VERBAL MASTER (6-12+)

Accelerated vocabulary, comprehension and writing!

Use Verbal Master to increase reading volume, time on task, vocabulary fluency, comprehension, and background knowledge.

#### **Vocabulary Impacts Comprehension**

Students can't possibly read for meaning in middle or high school when they have an elementary level vocabulary! Verbal Master teaches **EDL Core Vocabulary** words in multiple, age-appropriate and culturally neutral contexts.

#### **Each Verbal Master Lessons Explicitly Teaches:**

- Pronunciations and definitions
- Synonyms
- Comprehension
- Spelling
- Writing

"Verbal Master introduces new words at a rate up to 300% faster and two and one grade levels higher than conventional practices. In addition, Verbal Master can help adolescents reach a reading volume rate equivalent to the 2 and 1/2 million words per year outside of the school rate found among 90th percentile students."

Dr. Joe Lockavitch, Applied Researcher and Author of Verbal Master

### Uniquely engaging multi-modal instruction

Verbal Master instruction follows a consistent **four step process** designed to build independence, critical thinking skills and maximal time on task!

#### **STEP I: Scripted pre-teaching lesson**

Using the Teacher Manual and Flashcards, the teacher introduces 5 new words in each Unit, explicitly teaching comprehension with prior knowledge, factual, and higher cognitive application questions.

- Content: 5 words per Unit, 6 Units per Cluster, 6 Clusters per Level
- Each Unit ends with a review: synonyms, definitions, passages, fill in blank, comprehension

#### **STEP 2: Talking Software**

Next, students move to the computer for self-paced instruction that provides the structured practice, positive, immediate feedback, and privacy necessary for independent engagement.

- Diagnostic/Prescriptive Assessment (placement & exit)
- · Content and instruction correlate with print materials
- Pronunciation, definition, context & questions for each word
- Unit reviews: synonyms, definitions, passages, fill in the blank, comprehension
- Cluster pre/post tests: synonym, definition, fill in the blank, comprehension
- Snapshot, detailed & diagnostic progress monitoring reports
- 24/7 access from school or home
- Student, class, school and district-level reporting

#### **STEP 3: Print Activities (Unit Review)**

Students complete verbal direction, Correct Word, Open-ended responses, Yes/No, Complete Sentence, Fill in Blank questions, and Parent Communication Packet exercises and activities.

#### **STEP 4: Print Writing Activities**

Each lesson's writing activities builds critical thinking skills by teaching students to independently develop topics, subtopics and sentences using the words they've learned!

- Write complete sentences, unscramble sentences, sentence order exercises
- 3 step creative writing activity that expands initial topic sentences

#### **KEY RESEARCH FACTS:**

The most recent data suggests that by 5th grade, low income students testing in the bottom twenty percentile have a vocabulary equivalent to second grade students testing in the top quartile.

"Low income, low performing students are simply falling farther and farther behind because current word recognition activities are not directly focusing on the word meanings needed to close their 'vocabulary/comprehension gap'," Dr. Joe Lockavitch, Author of Verbal Master

Verbal Master is a **highly-structured** direct instructional approach designed to **"fast-track"** the vocabulary growth needed to close the "vocabulary/ comprehension gap" between upper and lower performing students.

There is clear evidence that vocabulary is associated with socioeconomic status -- presumably reflecting differences in opportunity, (Hart & Risley, 1995; and Snow, Burns and Griffin, 1998).

Researchers have found that low income students with a poor vocabulary will not perform well on measures of reading comprehension, (Biemiller, 2001).
