Betreff

Dear Dr. Berry,

Just returning from holidays, I found your letter dated July 15th. I have to thank you very much. As you can imagine, I am just drowning in work. Therefore I have to thank you that you could delegate my contribution to your monograph to another author. I think it would be the best if I try to give you a short article on teaching endoscopy. I gave a lecture on this topic during a symposium in Budapest, therefore it should not be too difficult to me to send you my contribution for your personal use and maybe for some use in monographs or articles you publish. I think if I got rid of some other duties and if the daily work on patients does not increase, I hope to get more time for later cooperation with you, dear Dr. Berry. Please forgive me, that I was really and I am still exhausted and therefore at present not able to engage in scientific and publishing problems.

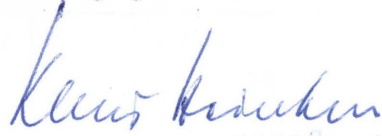

It was a great pleasure for me to be together with Prof. Henning at the celebration of his 80th birthday. We had a very impressive academic session. I gave at that day a review of his early work. If it is published, you will get a copy of the journal of gastroenterology in Germany. In the afternoon we had a scientific meeting with many old assistants working with him in his former clinic. We had very interesting papers and I myself gave a lecture of "Endoscopy - methods and instruments over half a century".

Hoping that our ways will cross in the near future and that we

will have some discussions and maybe a workshop on special prob-
lems on endoscopy helping the patients, I am,

Chicago, Ill. 60612

Sincerely yours,

Prof. Dr. K. Heinkel

Just returning from holidays, I found your letter dated July 15th. I have to thank you very much. As you can imagine, I am just drowning in work. Therefore I have to thank you that you could delegate my P.S.: I beg you to give my regards to Mrs. Berry. My wife thanks you for your greetings. I try to give you a short report on my endoscopy. I gave a lecture on this topic during a symposium in Baden. I hope it should not be too difficult for me to send you my contribution for your personal use and maybe for some use in mono-graphs or articles you publish. I think it is worth of some other duties and if the daily work on patients does not increase, I hope to get more time for later cooperation with you, dear Dr. Berry. Please forgive me, that I was really and I am still exhausted and therefore at present not able to engage in scientific and publishing problems.

PROF. DR. med. DR. med. h. e. NORBERT HENNING

dankt verbindlichst für Ihre freundlichen Glückwünsche

Your little bird was right. We had
a splendid University-Ceremony.
But I never could imagine that you
have 74 years behind you. All my
kindest regards to you and Mrs Perry,
my dear Sir Richard. Yours Henning
