

BIOGRAPHY

Steve Merkt

President, Transportation Solutions

Steven Merkt is President, Transportation Solutions for TE Connectivity.

As leader of the Transportation Solutions segment – one of the world’s largest suppliers of connectivity and sensor solutions to the automotive and commercial vehicle marketplaces – Steven is responsible for all aspects of sales, development, and operations for the segment worldwide.

Steven joined TE in 1989 and has held leadership positions in general management, operations, engineering, marketing, supply chain, and new product launches. He was appointed to his current position in August 2012, after serving as President of TE’s Automotive business.

Prior to joining TE, Steven worked as a Flight Test Engineer for the F.A.A. and a computer consultant for Rutgers University. Steven is a member of the board of directors for the Isonoma Foundation.

Steven holds a Master of Business Administration from the Smeal School of Business at Pennsylvania State University, Pennsylvania, U.S., and a Bachelor’s degree in Mechanical/Aerospace Engineering from Rutgers University, New Jersey, U.S.
